Girt David Hunt 2013 *Girt*. No word could better capture the essence of Australia ... In this hilarious history, David Hunt reveals the truth of Australia's past, from megafauna to Macquarie - the cock-ups and curiosities, the forgotten eccentrics and Eureka moments that have made us who we are. *Girt* introduces forgotten heroes like Mary McLoughlin, transported for the crime of "felony of sock," and Trim the cat, who beat a French monkey to become the first animal to circumnavigate Australia. It recounts the misfortunes of the escaped Irish convicts who set out to walk from Sydney to China, guided only by a hand-drawn paper compass, and explains the role of the coconut in Australia's only military coup. Our nation's beginnings are steeped in the strange, the ridiculous and the frankly bizarre. *Girt* proudly reclaims these stories for all of us. Not to read it would be un-Australian "A sneaky, sometimes shocking peek under the dirty rug of Australian history." - John Birmingham "Hilarious and insightful -- Hunt has found the deep wells of humour in Australia's history." - Chris Taylor, *The Chaser*

Quinx Lawrence Durrell 2012-06-12 In the final volume of a quintet, a hunt for ancient treasure in southern France lays bare the flawed philosophies that animated the Second World War. Just after World War II, a motley assortment of treasure hunters, mystics, psychoanalysts, and former Nazis race to uncover a treasure buried centuries before by the Knights Templar. Durrell displays his diabolical playfulness and immense imagination as his characters meet and become entangled, long-buried plots reemerge, and the past and future are funneled into the present action. Here the music of the Alexandria Quintet resolves as a symphony, and the series as a whole emerges as a worthy and enduring entry to Durrell's distinguished career.

Digital Material Marianne van den Boomen 2009 This is a compelling study of the often controversial role and meaning of the new media and digital cultures in contemporary society. Three decades of societal and cultural alignment of new media yielded to a host of innovations, trials, and problems, accompanied by versatile popular and academic discourse. "New Media Studies" crystallized internationally into an established academic discipline, which begs the question: where do we stand now; which new issues have emerged now that new media are taken for granted, and which riddles remain unsolved; and, is contemporary digital culture indeed all about 'you', or do we still not really understand the digital machinery and how it constitutes us as 'you'. From desktop metaphors to Web 2.0 ecosystems, from touch screens to blogging to e-learning, from role-playing games to Cybergoth music to wireless dreams, this timely volume offers a showcase of the most up-to-date research in the field from what may be called a 'digital-materialist' perspective.

"Red Rising ascends above a crowded dystopian field."—USA Today ONE OF THE BEST BOOKS OF THE YEAR—Entertainment Weekly, BuzzFeed, Shelf Awareness "I live for the dream that my children will be born free," she says. "That they will be what they like. That they will own the land their father gave them." "I live for you," I say sadly. Eo kisses my cheek. "Then you must live for more." Darrow is a Red, a member of the lowest caste in the color-coded society of the future. Soon he discovers that humanity reached the surface generations ago. Vast cities and lush wilds spread across the planet. Darrow—and Reds like him—are nothing more than slaves to a decadent ruling class. Cinephilia Marijke de Valck 2005 They obsess over the nuances of a Douglas Sirk or Ingmar Bergman film; they revel in books such as François Truffaut's *Hitchcock*; they happily subscribe to the Sundance Channel—they are the rare breed known as cinephiles. Though much has been made of the classic era of cinephilia from the 1950s to the 1970s, *Cinephilia* documents the latest generation of cinephiles and their use of

new technologies. With the advent of home theaters, digital recording devices, online film communities, cinephiles today pursue their dedication to film outside of institutional settings. A radical new history of film culture, *Cinephilia* breaks new ground for students and scholars alike.

Transfigurations Asbjørn Grønstad 2008 In many senses, viewers have cut their teeth on the violence in American cinema: from Anthony Perkins slashing Janet Leigh in the most infamous of shower scenes; to the 1970s masterpieces of Martin Scorsese, Sam Peckinpah and Francis Ford Coppola; to our present-day undertakings in imagining global annihilations through terrorism, war, and alien grudges. *Transfigurations* brings our cultural obsession with film violence into a renewed dialogue with contemporary theory. Grønstad argues that the use of violence in Hollywood films should be understood semiotically rather than viewed realistically; *Transfigurations* thus alters both our methodology of reading violence in films and the meanings we assign to them, depicting violence not as a self-contained incident, but as a convoluted network of our own cultural ideologies and beliefs.

New Germans, New Dutch Liesbeth Minnaard 2008 In today's globalized world, traditions of a national Self and a national Other no longer hold. This timely volume considers the stakes in our changing definitions of national boundaries in light of the unmistakable transformation of German and Dutch societies. Examining how the literature of migration intervenes in public discourses on multiculturalism and including detailed analysis of works by the Turkish-German writers Emine Sevgi Özdamar and Feridun Zaimoglu and the Moroccan-Dutch writers Abdelkader Benali and Hafid Bouazza, *New Germans, New Dutch* offers crucial insights into the ways in which literature negotiates both difference and the national context of its writing.

The Constant Rabbit Jasper Fforde 2021-09-28 "Reads like a crazed cross between *Watership Down* and *Nineteen Eighty-Four*." --The Guardian "Every book of Fforde's seems to be a cause for celebration." -- Charles Yu, The New York Times Book Review on *Early Riser* A new stand-alone novel from the New York Times bestselling author of *Early Riser* and the *Thursday Next* series England, 2022. There are 1.2 million human-size rabbits living in the UK. They can walk, talk, drive cars, and they like to read Voltaire, the result of an Inexplicable Anthropomorphizing Event fifty-five years before. A family of rabbits is about to move into Much Hemlock, a cozy little village in Middle England where life revolves around summer fetes, jam making, gossipy corner stores, and the oh-so-important Best Kept Village awards. No sooner have the rabbits arrived than the villagers decide they must depart, citing their propensity to burrow and breed, and their shameless levels of veganism. But Mrs Constance Rabbit is made of sterner stuff, and her and her family decide they are to stay. Unusually, their neighbors--longtime resident Peter Knox and his daughter, Pippa--decide to stand with them . . . and soon discover that you can be a friend to rabbits or humans, but not both. With a blossoming romance, acute cultural differences, enforced rehoming to a MegaWarren in Wales, and the full power of the ruling United Kingdom Anti-Rabbit Party against them, Peter and Pippa are about to question everything they had ever thought about their friends, their nation, and their species. An inimitable blend of satire, fantasy, and thriller, *The Constant Rabbit* is the latest dazzlingly original foray into Jasper Fforde's ever-astonishing creative genius.

Wonders in the Sky Jacques Vallee 2010-10-28 One of the most ambitious works of paranormal investigation of our time, here is an unprecedented compendium of pre-twentieth-century UFO accounts, written with rigor and color by two of today's leading investigators of unexplained phenomena. In the past century, individuals, newspapers, and military agencies have recorded thousands of UFO incidents, giving rise to much speculation about flying saucers, visitors from other planets, and alien abductions. Yet the extraterrestrial phenomenon did not begin in the present era. Far from it. The authors of *Wonders in the Sky* reveal a thread of vividly rendered-and sometimes strikingly similar- reports of mysterious aerial phenomena from antiquity through the modern age. These accounts often share definite physical features- such as the heat felt and described by witnesses-that have not changed much over the centuries. Indeed, such similarities between ancient and modern sightings are the rule rather than the exception. In *Wonders in the Sky*, respected researchers Jacques Vallee and Chris Aubeck examine more than 500 selected reports of sightings from biblical-age antiquity through the year 1879-the point at which the Industrial Revolution deeply changed the nature of human society, and the skies began to open to airplanes, dirigibles, rockets, and other opportunities for misinterpretation represented by military prototypes. Using vivid and engaging case studies, and more than seventy-five illustrations, they reveal that unidentified flying objects have had a major impact not only on popular culture but on our history, on our religion, and on the models of the world humanity has formed from deepest antiquity. Sure to become a classic among UFO enthusiasts and other followers of unexplained phenomena, *Wonders in the Sky* is the most ambitious, broad-reaching, and intelligent analysis ever written on premodern aerial mysteries.

Disability, Literature, Genre Ria Cheyne 2019-11-30 Examining the intersection of disability and genre in popular works of horror, crime, science fiction, fantasy, and romance published since the late 1960s, *Disability, Literature, Genre* is a major contribution to both cultural disability studies and genre fiction studies. Drawing on recent work on affect and emotion, the book explores how disability makes us feel, and how those feelings shape interpersonal and fictional encounters. Written in a clear and accessible style, *Disability, Literature, Genre* offers a timely reflection on the rapidly growing body of scholarship on disability representation, as well as an innovative new theorisation of genre. By reconceptualising genre reading as an affective process, Ria Cheyne establishes genre fiction as a key site of investigation for disability studies. She argues that genre fiction's unique combination of affectivity and reflexivity makes it ideally suited to the production of reflexive representations of disability: representations which encourage the reader to reflect upon what they understand about disability, and potentially to rethink it. Examining the affective--and effective--power of disability representations in a wide range of popular genre fiction, this book will be essential reading for academics in disability studies, literary studies, popular culture studies, and the medical humanities.

The Ethics of Identity Kwame Anthony Appiah 2023-10-03 A bold vision of liberal humanism for navigating today's complex world of growing identity politics and rising nationalism Collective identities such as race, nationality, religion, gender, and sexuality clamor for recognition and respect, sometimes at the expense of other things we value. To what extent do they constrain our freedom, and to what extent do they enable our individuality? Is diversity of value in itself? Has the rhetoric of human rights been overstretched? Kwame Anthony Appiah draws on thinkers through the ages and across the globe to explore such questions, developing an account of ethics that connects moral obligations with collective allegiances and that takes aim at clichés and received ideas about identity. This classic book takes seriously both the claims of individuality—the task

of making a life—and the claims of identity, these large and often abstract social categories through which we define ourselves.

The Cultural Contradictions Of Capitalism Daniel Bell 1996-10-18 With a new afterword by the author, this classic analysis of Western liberal capitalist society contends that capitalism—and the culture it creates—harbors the seeds of its own downfall by creating a need among successful people for personal gratification—a need that corrodes the work ethic that led to their success in the first place. With the end of the Cold War and the emergence of a new world order, this provocative manifesto is more relevant than ever.

A History of the University of Manchester, 1973-90 Brian S. Pullan 2004 This is the second volume of history of the University of Manchester since 1951. It spans 17 critical years in which public funding was contracting, student grants were diminishing, instructions from the government and the University Grants Commission were multiplying and universities feared for their reputations in the public eye. It provides a frank account of the University's struggle against these difficulties and its efforts to prove the value of university education to society and the economy. The volume describes and analyses not only academic developments and changes in the structure and finances of the University, but the opinions and social and political lives of the staff and their students as well. feminism, free speech, ethical investment, academic freedom and the quest for efficient management. The author draws on official records, staff and student newspapers and personal interviews with people who experienced the University's very different ways. With its wide range of academic interests and large student population, the University of Manchester was the biggest unitary university in the country and its history illustrates the problems faced by almost all British universities. 1951-73, should appeal to past and present staff of the University and its alumni and to anyone interested in the debates surrounding higher education in the late 20th century.

Homeward Bound Harry Turtledove 2005-12-27 The twentieth century was awash in war. World powers were pouring men and machines onto the killing fields of Europe. Then, in one dramatic stroke, a divided planet was changed forever. An alien race attacked Earth, and for every nation, every human being, new battle lines were drawn. . HOMEWARD BOUND With his epic novels of alternate history, Harry Turtledove shares a stunning vision of what might have been—and what might still be—if one moment in history were changed. In the WorldWar and Colonization series, an ancient, highly advanced alien species found itself locked in a bitter struggle with a distant, rebellious planet—Earth. For those defending the Earth, this all-out war for survival supercharged human technology, made friends of foes, and turned allies into bitter enemies. For the aliens known as the Race, the conflict has yielded dire consequences. Mankind has developed nuclear technology years ahead of schedule, forcing the invaders to accept an uneasy truce with nations that possess the technology to defend themselves. But it is the Americans, with their primitive inventiveness, who discover a way to launch themselves through distant space—and reach the Race's home planet itself. Now—in the twenty-first century—a few daring men and women embark upon a journey no human has made before. Warriors, diplomats, traitors, and exiles—the humans who arrive in the place called Home find themselves genuine strangers on a strange world, and at the center of a flash point with terrifying potential. For their arrival on the alien home world may drive the enemy to make the ultimate decision—to annihilate an entire planet, rather than allow the human contagion to spread. It may be that nothing can deter them from this course. With its extraordinary cast of characters—human, nonhuman, and some in between—Homeward Bound is a fascinating contemplation of cultures, armies, and individuals in collision. From the novelist USA Today calls “the leading author of alternate history,” this is a novel of vision, adventure, and constant, astounding surprise.
