**Surviving The Evacuation, Book 5: Reunion** Frank Tayell 2015-03-27 Surviving is easy. It's the next part, living, that's hard. Zombies. It is seven months since the outbreak. The world is in ruins. Britain is a radioactive wasteland peopled by the undead. The few survivors cling to the hope that they might wake up tomorrow. For most, that is all they have left. But Nilda has something more; the chance that her son is alive. At least he was, months before. She and Chester set out from Penrith, searching for her son. During the journey, Nilda learns more about this self-confessed criminal, Radio Free England, the conspiracy behind the outbreak, and how Chester was involved in it all. As they near Hull, she realises it is too late to change her travelling companion. She will need his help to escape the zombie infested city, and find her son. Fleeing from the last remnant of the old government, Tuck and Jay head south in search for survivors. When they rescue a wounded man, their quest becomes one for medical supplies. That leads them to a rooftop city, and to the realisation that surviving out in the wasteland is easy compared to forging a new life from the wreckage of the old civilisation. *Surviving the Evacuation, Book 13: Future's Beginning* Frank Tayell For good or ill, the future has begun. After the outbreak came the nuclear war. The blasts killed millions. Chaos followed. Most of those unlucky enough not to succumb to starvation and disease joined the ranks of the living dead. Fleeing the impossible nightmare, ten thousand, from nations across the Atlantic seaboard, found refuge on the Welsh island of Anglesey. There, they should have been safe. There, they should have been able to rebuild. There, they were betrayed. Forced to flee once more, a hasty exodus was planned, but those plans were sabotaged. The survivors became scattered across the island of Ireland. Old-world supplies are scarce, hope is running out, and safety is just a memory. The snow has come, and though rain will soon follow, winter has truly begun. In Dundalk, eight hundred survivors have occupied a local college, but the campus is too dispersed to defend. As they scour the snow-covered town for a safe route to the sea, they find signs of long-fled survivors and answers to a question they hadn't asked. In Belfast, the situation is increasingly precarious. There are saboteurs in their midst. As the investigation into their identity slowly progresses, the terrorists continue to plot. Rumours of a mutiny escalate into a riot, while an unseen clock ticks ever closer towards humanity's destruction. Set in Belfast and Dundalk, over three days that change everything.

**The Prepper's Complete Book of Disaster Readiness** Jim Cobb 2013-09-17 Reviews life-saving steps for keeping alive in the event of a catastrophic disaster, covering such topics as acquiring and storing water, building a shelf-stable food supply, strengthening home security, and treating illnesses.

Surviving the Evacuation Book 15 Where There's Hope Frank Tayell There is always hope. Northern France is a frozen morass of mud and snow across which rampages a horde of the undead, a hundred million strong. That won't stop Chester Carson and his comrades. Seeking a way across the Channel, they make for the coast, unaware that Britain has been abandoned, Belfast is a ruin, and that radiation is seeping into the Irish Sea. If they knew, that wouldn't stop them either. They're on a quest to save their family, their friends, and humanity itself; failure is not an option. As they journey through war-ravaged ports and storm-wrecked beaches, a new truth becomes clear. The flotilla that found refuge on Anglesey wasn't the only group of sea-borne refugees to have survived the outbreak. There are other survivors. Some good, some evil, some just determined to do their duty no matter the cost. Danger lurks along the French and Belgian coasts. So do answers, and hope that humanity now has a future.

*Surviving The Evacuation, Book 4: Unsafe Haven* Frank Tayell 2014-12-06 There is nothing a mother won't do to protect her son. "There are no reported outbreaks in the UK or Ireland." That is what the government broadcast. Nilda didn't believe it. Not trusting the authorities, she, and her son, Jay, stay behind when Penrith is evacuated. Vindicated when she learns the extent of the government's betrayal, they search for supplies, but after weeks of rationing, there is little left in the small town in Northern England. Soon, she discovers that there are many other survivors competing for it. Choosing diplomacy over violence, she attempts to forge a community out of a disparate group, but as the number of the undead grow, she realises that they will have to seek sanctuary elsewhere. Abandoned and betrayed, Nilda travels north into Scotland, but death follows her and she discovers that not all those who survived the evacuation have the same motives. Some only want to help. Others only want to help themselves. Whilst the new Mayor of Anglesey has her own agenda, one at odds with Nilda's quest; to find a safe haven for her son. Surviving The Evacuation, Book 11: Search and Rescue Frank Tayell 2017-08-02 Not all survivors are to be trusted. Not all the conspirators are dead. February: Within hours of the outbreak, the quarantine was sabotaged. Within days, the world was gripped by civil war. March: When the lights finally went out, billions were dead. Millions more had joined the ranks of the undead. May: Anglesey has become home to nearly ten thousand survivors from across the Atlantic. While there is still danger from the undead on the mainland, there is hope. Hope that the zombies might die, hope that the electricity supply might be restored, and hope that more survivors will be found. Hope is not enough. Sergeant Branofski and Chester Carson venture into northern Wales to set up a network of safe houses that will provide a route to Anglesey for those still trapped in the wasteland. Though they find survivors, they discover something far worse. September: Nowhere is safe from the living dead, not even The Tower of London. The ancient fortress has become home to nearly a hundred people. Food is scarce and the undead are many. The survivors are doomed unless help can be found, but the only place it can come from is Anglesey. Eamonn Finnegan sets out alone to seek their salvation. He never reaches Wales. November: In her heart, Greta knows that Eamonn is dead, yet she has to look for her lost love because he would look for her. Chester joins her in the futile quest to ensure the search doesn't cost Greta her life. Before their journey has barely begun, they discover an old foe that they thought was dead. Set on Anglesey and in London, near Wrexham and in Birmingham, while hope is fading for the last survivors of humanity.

Surviving the Evacuation, Book 2 2014 Billions died during the global civil war that followed the outbreak. Anarchy took grip. Chaos ruled. The world collapsed. In Britain, the evacuation failed. Nowhere is safe from the undead. Three months after the outbreak, Bill Wright has found safety in a ruined Abbey in southern England, but he is still alone. All he has for company are the files sent to him before the outbreak by the shadowy Washington fixer he only knows as Sholto. On those, he believes he has found the origins of the undead, and the vast conspiracy in which he discovers he played an unwitting part. He needs answers, and knows the only place they will be found is at the facility that created the virus. With the wasteland infested with zombies, travelling there is not easy. Motorways, reinforced during the evacuation, now form a barrier of living death, forcing him west, towards a stately home he once knew as a child. There he rescues a woman, Kim, and together they rescue two children. But as they meet more survivors, he discovers that there are more dangerous things than the undead in the British wasteland. This is the second volume of his journal. (76,000 words) Other books in the near future, post-apocalyptic series Surviving The Evacuation: 0.5: Zombies vs The Living Dead. 1: London. 2: Wasteland. 3: Family. 4: Unsafe Haven. 5: Reunion.

Surviving The Evacuation, Book 17: There We Stood Frank Tayell 2020-01-18 As one year ends, and our old world fades into memory, a new future is born. On a frozen archipelago, where it is too cold to farm, a few thousand survivors from across the Atlantic have found a refuge. The arduous process of turning a sanctuary into a home begins once more for these weary travellers who've been chased from Britain, from Ireland, from France and Denmark. But their work is not yet done. The missing Marines cannot be left behind. The French and Ukrainians cannot be abandoned. The cartel can never be forgotten. As soldiers once again become civilians, the dangers of malnutrition replace the everyday spectre of starvation. Potential mutiny supersedes being overrun by the undead. Boredom replaces fear. Slowly, they relax, allowing themselves to enjoy the simple pleasure of music and plays, of weddings and births, of life without the imminent prospect of death. But all is not what it seems in the snowy wastes surrounding their town. While Europe is a zombie-filled radioactive wasteland, there are other continents. Other oceans. Other survivors. Other

communities, just like their own, who will fight to keep what they've clawed from the grip of the apocalyptic nightmare. Set in Northern Europe, Eastern Canada, and the tumultuous seas between, as one year ends, and a new civilisation dawns.

**Surviving the Evacuation, Book 14: Mort Vivant** Frank Tayell 2018-08-29 Not all people died. Not all gave up hope. The outbreak was in February. By the end of November, Earth has become a hellish wasteland ravaged by the undead. Survivors from across the Atlantic seaboard took refuge on the Welsh island of Anglesey. Beset by dangers from within, they departed to establish a new refuge in Belfast. Not all of them arrived. Six took the last plane on its last flight, but crashed in France. Expecting a sprinting battle through the ruins of Belfast, they packed light. With few weapons and barely any food, their chances of survival are slim. The chances of rescue are slimmer. There was no evacuation in France. No quarantine. No rationing. But there are zombies, and there are people who believe they, alone, are the last survivors of the old-world. So begins a frantic race against the undead, through the snow and storm ravaged ruins of Northern France.

**Five Days at Memorial** Sheri Fink 2016-01-26 NEW YORK TIMES BESTSELLER • The award-winning book that inspired an Apple Original series from Apple TV+ • A landmark investigation of patient deaths at a New Orleans hospital ravaged by Hurricane Katrina—and the suspenseful portrayal of the quest for truth and justice—from a Pulitzer Prize-winning physician and reporter “An amazing tale, as inexorable as a Greek tragedy and as gripping as a whodunit.”—Dallas Morning News After Hurricane Katrina struck and power failed, amid rising floodwaters and heat, exhausted staff at Memorial Medical Center designated certain patients last for rescue. *Surviving the Evacuation, Book 16: Unwanted Visitors, Unwelcome Guests* Frank Tayell The battle might be lost, but the war isn't over. Once it was home to half a billion people. A year after the nuclear war, Europe is a radioactive, storm-ravaged wasteland through which a hundred million undead inexorably march. In their wake, they leave nothing but ruins. Ahead of them flee those few who managed to survive this long. Chasing them are the dregs of humanity. Once known as the Rosewood Cartel, they kill, loot, and destroy as indiscriminately as the living dead. Hope might be lost, but it could still be found, as can a future for the last remnant of humanity. Those who built a sanctuary on Anglesey, in Dundalk, in Creil are the help that came to others. In this, their darkest hour, but with a new dawn so close, they will not give up. Set in the Faroe Islands, France, Denmark, and elsewhere, the battle has begun, but the war hasn't yet been lost.

*Surviving The Evacuation, Book 1: London* Frank Tayell 2013-09-27 Zombies. The outbreak began in New York. Soon it had spread to the rest of the world. People were attacked, infected, and they died. Then they came back. No one is safe from the undead. As anarchy and civil war took grip across the globe, Britain was quarantined. The British press was nationalised. Martial law, curfews and rationing were implemented. It wasn't enough. An evacuation was planned. The inland towns and cities of the United Kingdom were to be evacuated to defensive enclaves being built around the coast, the Scottish Highlands, and in the Irish Republic. Bill Wright, a Westminster insider and an advisor to a future Prime Minister, broke his leg on the day of the outbreak. Unable to join the evacuation, he watched from his window as the streets filled with refugees. He watched as the streets emptied once more. He watched as they filled up again, this time with the undead. Then the power went out. He is trapped. He is alone. He is running out of food and water. He knows that to reach the safety of the enclaves he will have to venture out into the wasteland that once was England. On that journey he will ultimately discover the horrific truth about the outbreak, a decades old conspiracy, and his unwitting part in it. This is the first volume of his journal. (73,000 words) Other books in the series: 1: London. 2: Wasteland. (Zombies vs the Living Dead) 3: Family. 4: Unsafe Haven. 5: Reunion. 6: Harvest. 7: Home. & Here We Stand 1: Infected & 2: Divided. *Surviving The Evacuation, Book 9: Ireland* Frank Tayell 2017-01-27 Within a few minutes of the outbreak, Manhattan was overrun by the living dead. Within a few days, the undead had reached every corner of the globe. Ireland was no exception. There was no evacuation of Northern Ireland, and no quarantine in the Republic. A Royal Naval blockade prevented ships from docking, but they didn't prevent those who could reach the coast from fleeing by sea. There weren't enough boats for everyone. Those who were left behind took refuge in castles, police stations, churches, military bases, and any other buildings with strong walls. The walls weren't strong enough. Eight months later, there are only a few dozen survivors left on the entire island of Ireland. They are certain that there is no safe refuge anywhere on the planet. Stranded on the southwestern Atlantic coast of the Irish Republic, Bill and Kim head north. They know that there is a safe haven on Anglesey, but that is hundreds of miles of undead Ireland and a treacherous sea crossing away. They begin a journey on which they will have to rescue the innocent and confront the past before they can embrace the future. Set on the island of Ireland, eight months after the outbreak, this is the next volume of Bill Wright's journals.

**If Not Us** Frank Tayell If not us, who? If not now, when? As the much-depleted United Nations meets in Canberra, the scale of the global catastrophe becomes clear. The tsunami left Brisbane a flooded ruin. Vanuatu has disappeared. The Madagascan evacuation has failed. Vancouver has been reduced to a radioactive crater. For as far west as Mozambique, as far to the east as Chile, and as far north as Canada, the world is a catalogue of devastation. From the Atlantic, there has been no news since the early days of the outbreak, four weeks ago. With the satellite networks down, searching for survivors is difficult. With the relief fleets destroyed, rescue is impossible. While the fallout is still settling, the collective minds of the refugees in Australia focus on rebuilding as a distraction from the rising risk of radiation and extinction. Commissioner Tess Qwong has a different duty. She must find those responsible for this ultimate crime against humanity. Her investigation into the failed coup provides the identity of those behind the outbreak and the location of their lab. With her misfit group of Special Forces and civilian conscripts, she heads to Mozambique. There, a New Zealand frigate will take them on into the unknown dangers of the Atlantic. But while they hunt the radioactive seas for the war criminals, below the waves their enemy is hunting for them. From Perth to Panama, from South Africa to South America, from paradise islands to radioactive wastelands, the battle against extinction continues.

*Surviving The Evacuation, Book 3: Family* Frank Tayell 2014-06-06 The undead rose. Nations collapsed. Some people survived. Three months after escaping from London, Bill discovers the true extent of the global war that followed the outbreak. Most of the world has been destroyed, but there is a safe haven in a small village on the Irish coast. When he is told of the sanctuary awaiting them, he also discovers that the scientist who created the virus escaped from New York. In order for any of them to ever truly be safe, Bill will have to head north to confront the man, discover the truth behind the outbreak and finally choose between his old family and his new one. This is the third volume of his journal. This story of an undead Britain continues in Unsafe Haven. The outbreak in New York, and Sholto's attempt to destroy the cabal behind it are told in Here We Stand: Infected. Other books in the series: 1: London. 2: Wasteland. (Zombies vs The Living Dead) 3: Family. 4: Unsafe Haven. 5: Reunion. 6: Harvest. 7: Home. & Here We Stand 1: Infected & 2: Divided. Surviving the Evacuation, Book 21: Our Home, Too Frank Tayell 2023-09-17 A murderer stalks the post-apocalyptic ruins of the Pacific Northwest. A year after the outbreak and nuclear war, very few in the Northern Hemisphere have survived. Fourteen thousand Europeans and Canadians found safety behind the great defensive walls built across Nova Scotia. When they are attacked by piratical bandits who now control the ruins of New York, they have no choice but to flee. Where the evacuation of Britain was a bloodbath, the Southern Pacific fared better. Survivors thrive in fortified enclaves in Thailand, the Philippines, and Indonesia. Thousands of Canadian refugees found a new home in Australia's Northern Territory, albeit living in hastily built shanty towns where water is scarce and crime is rife. Now they want to return home. While Bill Wright organises the evacuation of Nova Scotia, Kim and Sholto remain in the Pacific Northwest, searching for a new home. Their plans are upended when a plane arrives carrying pilgrims travelling onward to the Middle East, a claimant for the presidency of the old United States, and a killer in disguise. After an assassination attempt on the pilgrims' leadership, surveying British Columbia and Washington State is put on hold as the search for the killers begins. Finding the shot-caller behind the attack is the responsibility of Commissioner Tess Qwong, whose hunt takes her from crocodile-filled rivers of Australia's Northern Territory to the densely packed refugee camp the exiled Canadians call home. Set among the radioactive desolation of British Columbia, the undead-filled ruins of Washington State, and the exiled Canadians' capital in Australia's Northern Territory, Bill and Kim's dreams of creating a new and better world are fading, while the prospect of war only grows stronger.

**Surviving The Evacuation, Book 8: Anglesey** Frank Tayell 2016-09-25 Trapped. Alone. Unconcerned. Eight months after the outbreak, Bill Wright is trapped during a survey mission in Ireland. Surrounded by the undead, low on food and lower on water, he's been in this situation before. Unlike before, help is only a rifle shot away. While waiting for the rescue he's sure will come, he records the turbulent events since his last entry. The Welsh island of Anglesey has become a sanctuary for survivors from across the zombie-infested world. It has electricity, wheat, and not much else. Medicines and equipment, plants and fertiliser, books and batteries, and so much more are needed if this last bastion of civilisation is to survive. Scavenging expeditions depart for Svalbard, Liverpool, and the southern Atlantic, but a discovery is made far nearer, one which will change the fate of all those who've come to call Anglesey home. Set on Anglesey, in Bangor and Caernarfon, and in the Republic of Ireland, Bill's journals continue. It's recommended that you read the spin-off stories, *Here We Stand 1: Infected & 2: Divided*, before this novel. *Surviving the Evacuation* continues in *Book 9: Ireland*. *Work. Rest. Repeat*. Frank Tayell 2015-06-20 Sixty years ago the world was wrecked during a terrible war. The soil was poisoned. The air became toxic. Billions died. Those who survived took refuge in great towered cities, and began constructing giant colony ships that would enable them to escape the ruined Earth. The work wasn't completed in their lifetime. The seas rose to swamp the diseased land, and lap against the city walls. Their descendants laboured on, and now the first of the spaceships is nearing completion. But these cities aren't dictatorships. An election is scheduled to choose a leader for this last exodus of humanity. With twenty-four hours until voting is due to begin, two workers are murdered. It is the first serious crime in generations, and it is down to the young Constable Ely to solve it. The election must take place. The ships must be launched. Above all, production must come first. A dystopian detective novel from the author of *Surviving The Evacuation 1: London, 2: Wasteland, 3: Family 4: Unsafe Haven, 5: Reunion, 6: Harvest, 7: Home. Zombies vs The Living Dead*

**Surviving the Evacuation, Book 18** Frank Tayell 2021-01-07 It took three weeks to destroy civilisation. It won't be rebuilt in a day. A year after the outbreak, a sharp winter is followed by a sudden thaw. Spring has come early to Nova Scotia, bringing new hope. For the thirteen thousand survivors who've found sanctuary in northern Canada, and for the first time since the apocalypse, extinction isn't imminent. But it looms large in the near future, a legacy of the nuclear war that destroyed civilisation. As the weather improves, some survivors quit the small community. Even more plan their departure. The old-world supplies of food, oil, and ammunition have been consumed. More will have to be grown, drilled, and made. Medicine, paper, clothes: in a few years there will be none left to salvage. If it can't be manufactured, it will have to be forgone. What knowledge can't be preserved will be lost. Humanity's future appears bleak unless more people can be found. Hoping there is some truth in the rumours of a redoubt in Vancouver, an expedition to the Pacific is launched. The journey will be perilous as North America was ground zero for the outbreak, and for the nuclear war. Set in Canada and beyond, as survivors from the Atlantic and Pacific meet. Please note, this book features places and events, and heroes and villains from the saga of the Pacific survivors told in the series *Life Goes On*.

**Surviving The Evacuation, Book 6: Harvest** Frank Tayell 2015-07-01 A castle can be made safe from the undead, but not from the people inside the walls. It is seven months since the outbreak. In the anarchy and chaos that came with the undead, civilisation was destroyed. In the wars that followed, the planet was nearly ruined. Billions died. Only a few thousand survived. Fifty people have found refuge in the Tower of London. Zombies plague the city outside the old fortress. The wasteland beyond is filled with nothing but radioactive ruins. With nowhere left to retreat to, and in a final attempt to make the ancient castle a place where they can do more than just slowly starve, the survivors search for food in the abandoned coastal farms. They find something else. They discover that hunger, thirst, and the undead aren't the only threat they face. Betrayal and danger lurk in the shadows in this, the sixth novel in the series. **Surviving the Evacuation, Book 10: The Last Candidate** Frank Tayell 2017-04-26 Whoever wins the election, humanity will lose. Nine months after the outbreak, ten thousand survivors from across the globe have found a refuge on the Welsh island of Anglesey. Hordes of the undead ravage the wastelands of Britain and Ireland. Satellite images show that the rest of the world is no better. Food, fuel, and ammunition are running low and there are no more old-world supplies with which to replace them. Intended as an alternative to a slide into despotism, an election is called. It is hoped the contest will bring forth solutions to the myriad crises facing this last bastion of humanity. After the favoured candidate is hospitalised, suspicion falls on the new frontrunner, a publican who purchased his support with an impossible promise of a return to the pre-apocalyptic world. With no viable candidate, and no way of calling off the election, those who still have access to a ship plan their departure; others plan to rig the contest; a few give up on all plans for a future beyond tomorrow. Anglesey is on the verge of collapse, and humanity is on the brink of extinction. Set in Belfast, the Isle of Man, and Wales during the run-up to the election on Anglesey, this is the sixth volume of Bill Wright’s journals.

**Surviving The Evacuation, Book 0.5: Zombies vs The Living Dead** Frank Tayell 2013-09-27 The outbreak began in New York. Within days it had spread throughout the world. Nowhere is safe from the undead. As anarchy and civil war took grip across the globe, Britain was quarantined. The press was nationalised, martial law, curfews and rationing were implemented. It wasn’t enough. An evacuation was planned. The inland towns and cities of the United Kingdom were to be evacuated to defensive enclaves being built around the coast, the Scottish Highlands, and in the Irish Republic. For George Tull and the other residents of the Waverly-Price Retirement Home, walking to the coast is not an option. Abandoned by the staff, they wait for rescue. It doesn’t come. When George leaves the illusory security of The Home and ventures into the nearby village, he finds it deserted. But he is not alone, his unhappy retirement is broken by the undead. George is left with a terrible choice; stay and fight to save the people he loathes, or leave and abandon the woman he has come to love. Other books in the series: 1: London. 2: Wasteland. (Zombies vs The Living Dead) 3: Family. 4: Unsafe Haven. 5: Reunion. 6: Harvest. 7: Home. & Here We Stand 1: Infected & 2: Divided. Post-apocalyptic detective novels: Serious Crimes, Counterfeit Conspiracy & Work, Rest, Repeat.

**Alas, Babylon** Pat Frank 2013-06-04 “An extraordinary real picture of human beings numbed by catastrophe but still driven by the unconquerable determination of living creatures to keep on being alive.” —The New Yorker “Alas, Babylon.” Those fateful words heralded the end. When the unthinkable nightmare of nuclear holocaust ravaged the United States, it was instant death for tens of millions of people; for survivors, it was a nightmare of hunger, sickness, and brutality. Overnight, a thousand years of civilization were stripped away. But for one small Florida town, miraculously spared against all the odds, the struggle was only just beginning, as the isolated survivors—men and women of all ages and races—found the courage to come together and confront the harrowing darkness. This classic apocalyptic novel by Pat Frank, first published in 1959 at the height of the Cold War, includes an introduction by award-winning science fiction writer and scientist David Brin.

**Earth Abides** George R. Stewart 1993-12

**Surviving the Evacuation, Book 12: Britain’s End** Frank Tayell 2018-01-10 Anglesey became a refuge for survivors from across the world, but living in the shadow of a decrepit nuclear power station was always a precarious existence. There is only one destination for their final exodus from Britain, but Belfast won’t become their new home. There are fewer undead on the island of Ireland, but their numbers still count in the millions. With farming impossible, with the weather worsening, with ammunition exhausted, desperation turns to despair. All seems bleak, but the survivors don’t know how truly desperate their situation is. During the chaos that ensued after the calamitous election, they misjudged the evidence. Their true enemy is still among them, and that enemy is about to act. Set nine months after the outbreak, in Britain and the island of Ireland, when humanity is at a crossroads. Either all will survive, or our species will die.

**London** Frank Tayell 2013-10-10 Zombies. The outbreak began in New York. Soon it had spread to the rest of the world. People were attacked, infected, and they died. Then they came back. No one is safe from the undead. As anarchy and civil war took grip across the globe, Britain was quarantined. The British press was nationalised. Martial law, curfews and rationing were implemented. It wasn’t enough. An evacuation was planned. The inland towns and cities of the United Kingdom were to be evacuated to defensive enclaves being built around the coast, the Scottish Highlands, and in the Irish Republic. Bill Wright, a Westminster insider and an advisor to a future Prime Minister, broke his leg on the day of the outbreak. Unable to join the evacuation, he watched from his window as the streets filled with refugees. He watched as the streets emptied once more. He watched as they filled up again, this time with the undead. Then the power went out. He is trapped. He is alone. He is running out of food and water. He knows that to reach the safety of the enclaves he will have to venture out into the wasteland that once was England. On that journey he will ultimately discover the horrific truth about the outbreak, a decades old conspiracy, and his unwitting part in it. This is the first volume of his journal. (73,000 words)

**Surviving The Evacuation, Book 2: Wasteland** Frank Tayell 2013-12-24 Billions died during the global civil war that followed the outbreak. Anarchy took grip. Chaos ruled. The world collapsed. In Britain, the evacuation failed. Nowhere was safe from the undead. Four months after the outbreak Bill Wright has found safety in a ruined Abbey in southern England, but he is still alone. All he has for company are the files sent to him by his shadowy contact, Sholto. On those, he believes he has found the origins of the undead, and the vast conspiracy in which he discovers he played an unwitting part. He needs answers, and knows the only place they will be found is at the facility that created the virus. As he journeys through the desolate ruins of a dead civilisation, he meets other survivors. He rescues some, is rescued by others, but ultimately discovers that zombies are not the most deadly threat in an undead wasteland. This is the second volume of his journal. (76,000 words)

**Surviving the Evacuation Book 3: Family** Frank Tayell 2014-06-19 Book 3: FamilyThe undead rose. Nations collapsed. Some people survived. Three

months after escaping from London, Bill discovers the true extent of the global war that followed the outbreak. Most of the world has been destroyed, but though ruined farmland and abandoned cities are filled with zombies, there are other survivors and there is a safe haven, so he is told, in a small village on the Irish coast. Before he can go there, he must find and rescue the children. Then he will have to battle his way through the infected wastelands of England and Wales in the hope that their really is a boat waiting for them. Even then, his journey won't be over. When he is told of the sanctuary awaiting them, he also discovers that the scientist who created the virus escaped from New York. In order for any of them to ever truly be safe, Bill will have to head north to confront the man, discover the truth behind the outbreak and finally choose between his old family and his new one. This is the final volume of his journal. **Zombies vs The Living Dead** The outbreak began in New York. Within days it had spread throughout the world. Nowhere is safe from the undead. As anarchy and civil war took grip across the globe, Britain was quarantined. The press was nationalised, martial law, curfews and rationing were implemented. It wasn't enough. An evacuation was planned. The inland towns and cities of the United Kingdom were to be evacuated to defensive enclaves being built around the coast, the Scottish Highlands, and in the Irish Republic. For George Tull and the other residents of the Waverly-Price Retirement Home, walking to the coast is not an option. Abandoned by the staff, they wait for rescue. It doesn't come. When George leaves the illusory security of The Home and ventures into the nearby village, he finds it deserted. But he is not alone, his unhappy retirement is broken by the undead. George is left with a terrible choice; stay and fight to save the people he loathes, or leave and abandon the woman he has come to love.

**Alone** Megan E. Freeman 2022-05-03 Originally published in hardcover in 2021 by Aladdin.

**White Noise** Don DeLillo 1999-06-01 A brilliant satire of mass culture and the numbing effects of technology, White Noise tells the story of Jack Gladney, a teacher of Hitler studies at a liberal arts college in Middle America. Jack and his fourth wife, Babette, bound by their love, fear of death, and four ultramodern offspring, navigate the rocky passages of family life to the background babble of brand-name consumerism. Then a lethal black chemical cloud, unleashed by an industrial accident, floats over their lives, an "airborne toxic event" that is a more urgent and visible version of the white noise engulfing the Gladneys—the radio transmissions, sirens, microwaves, and TV murmurings that constitute the music of American magic and dread.

**Surviving the Evacuation, Book 20: Small Cogs in the Survival Machine** Frank Tayell 2023-02-24 The final evacuation begins. A year and a half after the collapse of civilisation, pirates plague the Atlantic, the Saint Lawrence River is a radioactive dead-zone, and the forests of Quebec are succumbing to disease. With insufficient supplies to last until autumn, the survivors in Eastern Canada have no choice but to flee. A final evacuation is planned, to migrate across the breadth of irradiated North America to what they hope will be permanent safety on the Pacific coast. Until they leave, life goes on, and children grow up. For Jay, that means getting a job. Apprenticed to old George Tull, he's tasked with scouting the Digby Peninsula for roadworthy vehicles left behind during the first evacuation of Canada. Instead, he finds signs that an old foe has returned. For the Canadian evacuation not to become a deadly tragedy like its British forebear, safe roads and intact bridges must be found. Tuck and Sorcha join the soldiers mapping the tracks and trails through the dying forests of Quebec. It should be a straightforward mission, but the starving bears and predatory wolves are not as great a danger as the desperate survivors who wish to be forgotten by the world. With increasing desertification on land, and rising toxicity in the oceans, it is unclear for how much longer the planet can sustain life. With imminent annihilation a real possibility, the more populous group of survivors in the Pacific plan a multi-faith expedition to Jerusalem and Mecca. For the devout, it is an opportunity to complete a pilgrimage. For the politicians, it is a chance to diminish the power of the ascendant crusaders, extremists, and death cults. For a few, it is an opportunity to hunt for the friends and family abandoned during the escape from Europe.

**Surviving the Evacuation, Book 18: Rebuilt in a Day** Frank Tayell 2021-01-07 It took three weeks to destroy civilisation. It won't be rebuilt in a day. A year after the outbreak, a sharp winter is followed by a sudden thaw. Spring has come early to Nova Scotia, bringing new hope. For the thirteen thousand survivors who've found sanctuary in northern Canada, and for the first time since the apocalypse, extinction isn't imminent. But it looms large in the near future, a legacy of the nuclear war that destroyed civilisation. As the weather improves, some survivors quit the small community. Even more plan their departure. The old-world supplies of food, oil, and ammunition have been consumed. More will have to be grown, drilled, and made. Medicine, paper, clothes: in a few years there will be none left to salvage. If it can't be manufactured, it will have to be forgone. What knowledge can't be preserved will be lost. Humanity's future appears bleak unless more people can be found. Hoping there is some truth in the rumours of a redoubt in Vancouver, an expedition to the Pacific is launched. The journey will be perilous as North America was ground zero for the outbreak, and for the nuclear war. Set in Canada and beyond, as survivors from the Atlantic and Pacific meet. Please note: this book features places and events, and heroes and villains from Life Goes On Books 1-3, the saga of survivors in the Pacific.

**Surviving The Evacuation, Book 7: Home** Frank Tayell 2015-08-10 The outbreak began in February. Nations went to war. Governments collapsed. Billions died in the chaos and anarchy that followed. Billions more were infected. They died. They came back. It is now October and out of the tens of millions who lived in southern England only ninety people remain. They sought sanctuary behind the ancient walls of the Tower of London, but it was only a temporary refuge. There is no more food to be scavenged from the ruins of the old world. Their water supply is polluted. As the days get shorter, the weather worsens, and people begin to get sick. They have been betrayed and are besieged by the living and undead alike. Over their heads hangs the threat of a last catastrophic weapon. This spectre of the old world conspiracy that brought the living dead to plague the Earth leaves them with a terrible decision. Some must be sacrificed so that amidst the horror others might find somewhere in the undead wasteland that they can call home. (80,000 words) Other books in the series: 1: London. 2: Wasteland. (Zombies vs the Living Dead) 3: Family. 4: Unsafe Haven. 5: Reunion. 6: Harvest. 7: Home. & Here We Stand 1: Infected & 2: Divided. Book 8: Anglesey Post-apocalyptic detective novels: Serious Crimes, Counterfeit Conspiracy & Work, Rest, Repeat.
