in romantic relationships, and with good reason. Every person is wired for love differently, with different habits, needs, and reactions to conflict. The good news is that most people's minds work in predictable ways and respond well to security, attachment, and rituals, making it possible to actually neurologically prime the brain for greater love and fewer conflicts. *Wired for Love* is a complete insider's guide to understanding a partner's brain and promoting love and trust within a romantic relationship. Readers learn ten scientific principles they can use to avoid triggering fear and panic in their partners, manage their partners' emotional reactions when they do become upset, and recognize when the brain's threat response is hindering their ability to act in a loving way. By learning to use simple gestures and words, readers can learn to put out emotional fires and help their partners feel more safe and secure. The no-fault view of conflict in this book encourages readers to move past a "warring brain" mentality and toward a more cooperative "loving brain" understanding of the relationship. Based in the sound science of neurobiology, attachment theory, and emotion regulation research, this book is essential reading for couples and others interested in understanding the complex dynamics at work behind love and trust in intimate relationships.

Brand Admiration C. Whan Park 2016-09-16 *Brand Admiration* uses deep research on consumer psychology, marketing, consumer engagement and communication to develop a powerful, integrated perspective and innovative approach to brand management. Using numerous real-world examples and backed by research from top notch academics, this book describes how companies can turn a product, service, corporate, person or place brand into one that customers love, trust and respect; in short, how to make a brand admired. The result? Greater brand loyalty, stronger brand advocacy, and higher brand equity. Admired brands grow more revenue in a more efficient way over a longer period of time and with more opportunities for growth. The real power of *Brand Admiration* is that it

provides concrete, actionable guidance on how brand managers can make customers (and employees) admire a brand. Admired brands don't just do the job; they offer exactly what customers need (enabling benefits), in way that's pleasing, fun, interesting, and emotionally involving (enticing benefits), while making people feel good about themselves (enriching benefits). Providing these benefits, called 3 Es, is foundational to building , strengthening and leveraging brand admiration. In addition, the authors articulate a common-sense and action based measure of brand equity, and they develop dashboard metrics to diagnose if there are any 'canaries in the coal mine', and if so, what to do next. In short, Brand Admiration provides a coherent, cohesive approach to helping the brand stand the test of time. A well-designed, well-managed brand becomes a part of the public consciousness, and ultimately, a part of the culture. This trajectory is the fruit of decisions made from an integrated strategic standpoint. This book shows you how to shift the process for your brand, with practical guidance and an analytical approach.

How to Not Die Alone Logan Ury 2021-02-02 A “must-read” (The Washington Post) funny and practical guide to help you find, build, and keep the relationship of your dreams. Have you ever looked around and wondered, “Why has everyone found love except me?” You’re not the only one. Great relationships don’t just appear in our lives—they’re the culmination of a series of decisions, including whom to date, how to end it with the wrong person, and when to commit to the right one. But our brains often get in the way. We make poor decisions, which thwart us on our quest to find lasting love. Drawing from years of research, behavioral scientist turned dating coach Logan Ury reveals the hidden forces that cause those mistakes. But awareness on its own doesn’t lead to results. You have to actually change your behavior. Ury shows you how. This “simple-to-use guide” (Lori Gottlieb, New York Times bestselling author of *Maybe You Should Talk to Someone*) focuses on

a different decision in each chapter, incorporating insights from behavioral science, original research, and real-life stories. You'll learn: -What's holding you back in dating (and how to break the pattern) -What really matters in a long-term partner (and what really doesn't) -How to overcome the perils of online dating (and make the apps work for you) -How to meet more people in real life (while doing activities you love) -How to make dates fun again (so they stop feeling like job interviews) - Why "the spark" is a myth (but you'll find love anyway) This "data-driven" (Time), step-by-step guide to relationships, complete with hands-on exercises, is designed to transform your life. How to Not Die Alone will help you find, build, and keep the relationship of your dreams.

Work Won't Love You Back Sarah Jaffe 2021-01-26 A deeply-reported examination of why "doing what you love" is a recipe for exploitation, creating a new tyranny of work in which we cheerily acquiesce to doing jobs that take over our lives. You're told that if you "do what you love, you'll never work a day in your life." Whether it's working for "exposure" and "experience," or enduring poor treatment in the name of "being part of the family," all employees are pushed to make sacrifices for the privilege of being able to do what we love. In *Work Won't Love You Back*, Sarah Jaffe, a preeminent voice on labor, inequality, and social movements, examines this "labor of love" myth—the idea that certain work is not really work, and therefore should be done out of passion instead of pay. Told through the lives and experiences of workers in various industries—from the unpaid intern, to the overworked teacher, to the nonprofit worker and even the professional athlete—Jaffe reveals how all of us have been tricked into buying into a new tyranny of work. As Jaffe argues, understanding the trap of the labor of love will empower us to work less and demand what our work is worth. And once freed from those binds, we can finally figure out what actually gives us joy, pleasure, and satisfaction.

Obsessed Emily Heyward 2020-06-09 The 2020 Porchlight Marketing & Sales Book of the Year The cofounder and chief branding officer of Red Antler, the branding and marketing company for startups and new ventures, explains how hot new brands like Casper, Allbirds, Sweetgreen, and Everlane build devoted fan followings right out of the gate. We're in the midst of a startup revolution, with new brands popping up every day, taking over our Instagram feeds and vying for our affection. Every category is up for grabs, and traditional brands are seeing their businesses erode as hundreds of small companies encroach on their territory, each hoping to become the next

runaway success. But it's not enough to have a great idea, or a cool logo. Emily Heyward founded Red Antler, the Brooklyn based brand and marketing company, to help entrepreneurs embed brand as a driver of business success from the beginning. In *Obsessed*, Heyward outlines the new principles of what it takes to build and launch a brand that has people queuing up to buy it on opening day. She takes you behind the scenes of the creation of some of today's hottest new brands, showing you:

- How Casper was able to upend the mattress industry by building a beloved brand where none had existed before
- How the dating app Hinge won a fanatical user base and great word-of-mouth with the promise that the app was "designed to be deleted"
- Why luggage startup Away, now valued at \$1.4 billion, could build their brand around love of travel by launching with just one product--a hard-shell carry-on suitcase--rather than a whole range of luggage offerings.

Whether you're starting a new business, launching a new product line, or looking to refresh a brand for a new generation of customers, *Obsessed* shows you why the old rules of brand-building no longer apply, and what really works for today's customers.

What Makes Love Last? John Gottman 2013-09-10 "One of the foremost relationship experts at work today applies the insights of science toward understanding the real meaning of trust between a couple. He decodes the "why" behind betrayal and shows how partners can avoid or recover from unfaithfulness and maintain a loving relationship. Dr. John Gottman, the country's pre-eminent researcher on marriage, is famous for his Love Lab at the University of Washington in Seattle where he deciphers the mysteries of human relationships through scientific research. His thirty-five years of exploration have earned him numerous major awards, including from the National Institute of Mental Health, the American Psychological Association, and the American Association for Marriage and Family Therapy. Now, Dr. Gottman offers surprising findings and advice on the characteristic that is at the heart of all relationships: Trust. Dr. Gottman has developed a formula that precisely calculates any couple's loyalty level. The results determine a relationship's likely future, including the potential for one or both partners to stray. *A Love You Can Trust* shows couples how to bolster their trust level and avoid what Dr. Gottman calls the "Roach Motel for Lovers." He describes how the outcome of--"sliding door moments," small pivotal points between a couple, can lead either to

more emotional connection or to discontent. He suggests a new approach to handling adultery and reveals the varied and unexpected non-sexual ways that couples often betray each other. A Love You Can Trust guides couples through an empirically tested, trust-building program that will let them repair and maintain a long-term, intimate, and romantic relationship"--

Dear Mr. Picasso Fred Baldwin 2021-06-14 A photographic memoir of photographer and FotoFest photo festival founder Fred Baldwin's extraordinary life: how he followed his dream, used his imagination, overcame fear, and acted to accomplish anything. This account takes the reader to high adventure worldwide, but also to disaster and failure. This illustrated love affair with freedom shows how a camera became a passport to the world. The son of an American diplomat, who died when

Baldwin was five, the book describes a string of disasters associated with six elite boarding schools and one university led to his exile to work in a factory where he joined low-paid black and white workers in his uncle's factory in Savannah, Georgia. Baldwin escaped by joining the Marines and was immediately shipped to North Korea in 1950. Wounded and decorated twice, Baldwin also learned from the brutal, 35 below zero weather at the Chosin Reservoir where his unit was surrounded and outnumbered by the Chinese. After Korea, Baldwin moved to Paris, then returned to a junior college in Georgia, won a scholarship to Harvard and transferred to Columbia. Baldwin taught himself photography by visiting MoMa and every photo gallery in New York. Baldwin wanted to be a photojournalist. "I discovered the Civil Rights Movement by chance as I was walking the streets of Savannah planning a book on the city's architecture. I met change marching toward me in the form of Benjamin Van Clark, a seventeen-year-old student leading his troops chanting into battle. The deep rumblings of the Civil Rights Movement in Georgia and elsewhere somehow had never reached me in Europe. As I wrote, 'the polar bears I was photographing in the Arctic didn't tell me about what was happening with Black folks in the South. They were just too white.'" The stories in this book are often laced with self-deprecating humour, a mechanism that Baldwin had developed early as a survival tool.

Strong Women and the Men Who Love Them Tom and Jan Lane 2015-05-05 THE GREATEST FULFILLMENT IN MARRIAGE IS two hearts becoming one.

Love Me, Don't Leave Me Michelle Skeen 2014-09-01 Everyone thrives on love, comfort, and the safety of family, friends, and community. But if you are denied these basic comforts early in life, whether through a lack of physical affection or emotional bonding, you may develop intense fears of abandonment that can last well into adulthood—fears so powerful that they can actually cause you to push people away. If you suffer from fears of abandonment, you may have underlying feelings of anger, shame, fear, anxiety, depression, and grief. These emotions are intense and painful, and when they surface they can lead to a number of negative behaviors, such as jealousy, clinging, and emotional blackmail. In *Love Me, Don't Leave Me*, therapist Michelle Skeen combines acceptance and commitment therapy (ACT), schema therapy, and dialectical behavioral therapy (DBT) to help you identify the root of your fears. In this book you'll learn how schema coping behaviors—deeply entrenched and automatic behaviors rooted in childhood experiences and fears—can take over and cause you to inadvertently sabotage your relationships. By recognizing these coping behaviors and understanding their cause, you will not only gain powerful insights into your own mind, but also into the minds of those around you. If you are ready to break the self-fulfilling cycle of mistrust, clinginess, and heartbreak and start building lasting, trusting relationships, this book will be your guide.

Love's Mystery Solved Joseph A. Smith 2006-08 Literally all healthy relationships will benefit by understanding and appreciating this historically first true clarification of love eliminating confusion over what it is and how to find and build upon it. This useful descriptive definition of love is invaluable for those interested in increasing the success of any relationship. One of a host of interesting insights is that genuine love is more than emotion. Janet Ackerman-Smith BSN, MA, MS During a fifty-year ministry this is one of my very few "absolute endorsements" because Dr. Joseph Smith has put together a manuscript of such thoughtful and practical concern. Most of the books on the counters of our local bookstores are not of the same caliber that he offers. Reading this manuscript was, for me, an adventure of discovery. I find his book not only fulfilling but exciting. The organization quickly brings the reader to an appreciation that "love defined" can really have an impact on not only the way we understand and then react with others, but how we may do this responsibly. This is the secret genius of this book Reverend William J. Murphey
