The Crafter's Dilemma Jonathan Brooks 2020-01-21 After narrowly surviving an invasion of her dungeon by some seriously dangerous Elves, Sandra needs to recover from having all of her defending constructs destroyed in the process. With the bulk of her forces lost while shattering the Core of a Reptile Classification dungeon, the merchant-turned-Dungeon Core is feeling a little vulnerable. Luckily, she has Violet, a Gnome Apprentice Enchanter, to help her get things back to normal. With Felbar, another Gnome that has decades of experience culling Dungeon Monsters, and Echo, an Elf that mistakenly got tangled up with Sandra and her dungeon, now awake from their Visitor Bond-induced comas, she can finally work on improving her relationship with the Gnomes and Elves by providing them with much-needed supplies. Unfortunately, during her time of recovery and looking into crafting new things with her recent access to Enchanting, she neglected to keep an eye on the dungeons around her Area of Influence. With the Gnomes no longer there to cull the Undead Classification dungeon near their destroyed village, Sandra scrambles to get ahead of its rapid expansion - and potential threat to the Dwarves to the north. But even if she manages to destroy the Undead Classification Core, should she stop there? Now that is quite the dilemma... This Dungeon Core story contains LitRPG/GameLit elements such as statistics and leveling and a heavy crafting emphasis. No profanity and no harems.

Rexus Dakota Krout 2022-09-17 Vengeful assassins. A treacherous companion. T-Rex Head Hands. After the Wolfman nation is shattered, Jaxon has enough spare time to advance his skills and specialize into a better class. Since Joe and his other teammates are either incapacitated or on a mission Jaxon does not believe in, the misunderstood chiropractor turned gamer strikes out on his own. The issue with creating your own path is that you have no idea what awaits you, especially when low charisma guarantees legendary misunderstandings. For Jaxon, that's half the fun. *Rexus* is a Completionist Chronicles side quest focused on Jaxon and is meant to be read following *Regicide*. [Station Cores Complete Series](#) Jonathan Brooks 2019-12-12 Contains all five books in the Station Cores series: *The Station Core - Book 1* *The Quizard Mountains - Book 2* *The Guardian Guild - Book 3* *The Kingdom Rises - Book 4* *The Other Core - Book 5* In addition, there are some BONUSES: Hand-drawn maps (admittedly done by me without much artistic talent) that I used to help me write the series A fun 12k-word short story that combines the Dungeon World and Station Cores universes. Milton Frederick was originally abducted from his apartment to help defend one batch of pacifistic aliens called The Collective against another set of homicidal aliens called Heliothropes...but he never quite made it that far. Instead, during the process where his human consciousness was ripped from his body and inserted into a massive metal contraption called a Station Core, the ship that he was being transported on blew up and he was sent hurtling through space. Crash-landing on an unknown planet with just a foot-and-a-half tall, foul-mouthed, nanite-formed AI guide called ALANNA to tell him what happened, Milton has to come to terms with his new existence as a giant metal egg, defend his hazardously-in-need-of-repair outer shell from the dangerous local wildlife (including blood-thirsty squirrels), and manage the unique radiation spewing from his damaged internal reactor - all while figuring out how the heck to get off the planet. All of his work building a "dungeon" underground, defending it with makeshift traps, and filling it with small Combat Units may work well enough against the random beasts wandering around, but they're next to useless when something else even more dangerous shows up knocking on his door: people. Not humans, of course, but the local equivalent - Proctans - who are similar enough to Milton's original species...though with one major difference. They all have unique special abilities that looks suspiciously like "magic". However, there is an even bigger threat that looms on the horizon not only for Milton, but all the Proctans as well... Contains LitRPG/GameLit elements such as level progression and experience, optional tables, no harems, and a heavy Dungeon Core emphasis.

Underworld Apollos Thorne 2017 Surviving Lord Darius's attack has put Elorion's level over the top. He must soon leave the Mistress's Labyrinth for the unknown dangers of the Underworld. There are three paths that stand before him. Should he absorb all the Blue Magic he can find, power leel his fellow captives, or take on the bone palace alone? The Underworld is waiting... - from back cover. *The Other Core* Jonathan Brooks 2019-07-13 Milton, Brint, Whisp, and the Guardian Guild are back in the conclusion to the Station Cores series! After the events that previously occurred near the northeastern border of the Kingdom, Milton has a lot of work to do. Not only does the Station Core have to hide his dungeon from the rampaging hordes originating from the Quizard Mountains, but he has to find somewhere to put thousands of children who are heading towards his dungeon for safety. If that wasn't bad enough, Milton also has to find a place for millions of other citizens to live; even though they don't even know who or what the Station Core is, they are counting on him to keep them safe. With that safety, though, comes a chance at something that they never thought they'd have: power...and revenge. Milton isn't just going to build more habitations for them to stay comfortably in his new Underground Kingdom; no, he has a proposition for them that they would be fools to ignore.

The acquisition of new abilities means that the need for an immediate education on how to control those new powers is paramount. Strangely enough, it's time for some new students to enroll in Milton's new Guardian University. But will they be able to learn well and fast enough to get the revenge they seek? In the end, they'll have to - especially if they want to take on and defeat the army fielded by...the other Core. Contains LitRPG and GameLit elements such as level progression and experience, optional tables, no harems, and a heavy Dungeon Core emphasis.

Today he got a message. "You have been randomly selected to join the Ten Realms. One may choose to ascend the Ten Realms, thereupon making a request to the Gods of the Realms. Only those who are Level 10, 20, 30, 40, 50, 60, 70, 80, and 90 may ascend to the next realm. Fortune favors the strong!" For a retired combat medic and Marine Recon sniper, the Ten Realms offer a clear challenge and sense of purpose that they had only found on the battlefield. How much trouble can you get into in a new realm?

Dungeon World Jonathan Brooks 2019-03-02 In a distant world five times the size of planet Earth, dungeons and their dungeon cores have become the top of the food chain. Millions of dungeons inhabit the planet, utilizing the various human kingdoms as a source of much-needed mana to facilitate their own growth; in turn, the humans delve into the dungeons and acquire their own power in the form of Essence, which allows them to develop and enhance themselves in a multitude of different ways. It is a symbiotic relationship that has lasted centuries and has brought about a measure of peace. Far in the northern wilds where no humans (and therefore - no dungeons) regularly frequent, a young man is left alone when his parents are murdered suddenly and unexpectedly. Now, without friends, family, or even supplies, he embarks on a journey to find out who targeted his parents - and who he needs to enact his revenge upon. Along the way, he discovers something about himself that his parents said was impossible from the moment he was born. Will he learn to control the new powers he has gained, or will his newly awakened dungeon core abilities consume him? Contains LitRPG elements such as statistics and leveling. No harems and no profanity.

Dungeon Player Jonathan Brooks 2017-11-22 Even after pre-ordering the pod that would allow them to play "Glendaria Awakens," Krista and Devin still had to wait months before they were able to experience the newest in VRMMORPG (Virtual Reality Massively Multiplayer Online Role-Playing Game) technology. The wait was definitely worth it as they entered into a game world that was virtually indistinguishable from real life -- apart from the obvious game elements of course. After starting in a typical starting town, they learned everything they needed to survive in this new world. Journeying through the wilderness outside of town, the duo progressed at a good pace until they arrived at the starting dungeon. Their lives were drastically changed by this place with the unassuming name of, "Goblin Cave."

Dungeon Deposed William D Arand 2019-08 Ryker only had one goal in his life right now: Turn a certain adventuring guild into a flaming wreck while dancing merrily through the smoldering ruins. All for the chance to get back at a handful of people. It didn't work out that way though. At all. He'd died, been forced into the body of an Avatar, absconded with the queen as her castle fell to betrayal, kidnapped a little kid who is obviously more than he seems, and to top all that off, he killed his undead father. The smoldering ruins of the Queendom have cooled, the patterns reset, and Ryker has a task that is more than likely too much for him. Take the Queendom back, destroy two armies, and give Lauren, the rightful queen, back her crown. Warning and minor spoiler: This novel contains graphic violence, undefined relationships/harem, unconventional opinions/beliefs, and a hero who is as tactful as a dog at a cat show. The Guardian Guild Jonathan Brooks 2019-02-08 Stranded on an alien planet with his consciousness implanted inside of a Station Core, Milton Frederick has used all of the resources at his disposal to protect his damaged Core from local hostile beasts, Proctans, and even a massive bear-gorilla hybrid that almost single-handedly destroyed his dungeon. Milton is joined by his AI guide, ALANNA, as well as Brint and Whisp - two Proctans that have joined him in his endeavors; with the introduction of two new "recruits" - Rosewyn and Moxwell - they form a plan that enlists a few more Guardian Guild members to help combat the threat that Brint had discovered underneath

the Quizard Mountains to the east. Unfortunately, not everything is going as well for the Guardian Guild, the organization tasked with defending the Proctan kingdom from the wild beasts roaming their borders. A political coup instigated by the Cordpower Company has upset the monarchical government and the Guild has been caught in the crossfire. Now, Milton has to figure out how to deal with that issue, while at the same time preparing for the inevitable arrival of the threat from the Quizard Mountains. Fortunately, new discoveries of his own has led to great strides in manipulating the Gene Mutations that affect the Proctans. Not only has the introduction of a Neurological Control Unit allowed for the manipulation of abilities, but it also provides something that will change the very nature of how the Proctans view death - and something that Milton, as a gamer, knows very well: respawning. But will those advantages be enough against the threat coming their way? Contains LitRPG/GameLit elements such as level progression and experience, optional tables, no harems, and a heavy Dungeon Core emphasis.

The Kingdom Rises Jonathan Brooks 2019-04-26 The Fortress that the Station Core had constructed was completely destroyed following a particularly brutal attack by superior forces - but they had won, albeit by the skin of their teeth. Fortunately, using his drones and multiple Molecular Converters to clean up the rubble, Milton was able to piece together everyone who had fallen under the Bearilla's assault. Unfortunately, the force that had attacked him on his home turf was only a very small portion of those heading inevitably closer to the Kingdom's border. After the beating that they had just taken, Milton, Rosewyn, Moxwell, Brint, Whisp, and the rest of the Guardian Guild knew that even with access to the Station Core's dungeon, they wouldn't be able to save the entire Kingdom all by themselves. Therefore, they must do all they can to delay the northern army of Bearillas and Quizards, knowing all the while that time was not on their side. Meanwhile, other plans are hatched to bend the citizenry to their cause; however, Milton and the others are not the only ones devising plans - the Cordpower Company still has it out for the Guild. But will their efforts be enough to save everyone? Only the brave actions of the Proctans - and Milton's Combat Units, of course - will determine that, as various plans come to fruition as *The Kingdom Rises*. Contains LitRPG and GameLit elements such as level progression and experience, optional tables, no harems, and a heavy Dungeon Core emphasis.

The Quizard Mountains Jonathan Brooks 2018-10-22 The Station Core known as Milton has barely survived the first concentrated attack by hostile Proctans, leaving his "dungeon" destroyed and most of his defenders dead. Not the most auspicious start. But now with the addition of Brint and his Inventor friend, Whisp, Milton now has the tools available to turn his dungeon into one that should easily defend against all comers - or at least he hopes so. However, when the Cordpower Company - the makers of the original Power Potion - contract the best-of-the-best to find out what happened to their agents, Milton's dungeon is put to the test against two Proctans who are way out of his league. Meanwhile, Brint learns more about his ability to control the Combat Units that Milton creates, eventually being put into a position to lead an expedition into the Quizard Mountains. He hopes to find enough resources inside the caves to fully outfit the dungeon, making it even deadlier than it already is. Unfortunately, he finds something else... Contains LitRPG/GameLit elements such as level progression and experience, optional tables, no harems, and a heavy Dungeon Core emphasis.

The Dungeon Traveler Alston Sleet 2019-02-14

The Station Core Jonathan Brooks 2018-07-05 Milton Frederick was arguably the best player of Crowned Lieges of Destiny in the entire world. As the strategy coordinator for one of the top guilds, he was beginning to actually make a living from it. That was, until he was abducted by aliens. Instead of your stereotypical grey aliens with big black eyes who like to perform anal probes upon unsuspecting victims for unknown reasons, The Collective had a more altruistic purpose. Sure, kidnapping 100 humans from Earth, ripping them away from their lives and families, and erasing their memories doesn't sound great - but the way they saw it, the benefits would far outweigh these side-effects. Seriously, who wouldn't want their consciousness trapped in a Station Core, subjected to the whims of a collection of alien races, and then ordered to defend against other hostile aliens for all eternity? They'd be immortal - so...bonus! Fortunately (or unfortunately, depending on how you look at it), the Station Core now known as Milton never arrived at his destination. Severely damaged and confused about what happened to him, he woke up to find himself trapped inside a massive chicken egg on a strange, primitive world filled with curious - and deadly - creatures. Now, in order to survive the harsh environment, Milton has to rely on a snarky, foul-mouthed AI guide to show him what it means to be a Station Core. With her help, he might just live long enough to figure out a way to get off the planet - if only he wasn't so afraid of squirrels...Contains LitRPG/GameLit elements such as level progression and experience, optional tables, no harems, and a heavy Dungeon Core emphasis. Updated 4/26/19: New cover, additional editing, less foul language

The Sleeper Must Awaken Jean Erasmus 2007-09 The human condition is a strange one at best. Finding ourselves in a world nearly void of any profound natural predators, with the ability to unconditionally love and solve the most complex problems in the most creative ways; we choose to make the world an ever increasingly dangerous place, in stead of creating Utopia. In our relentless pursuit of happiness and perfection, we create the very opposite. *The Sleeper Must Awaken* dives deep into the human psyche, exploring from the archetypal dreamscapes of our subconscious minds to the remarkable similarities between Super String Theory and ancient mysticism. It opens the door to a journey within ourselves, searching for the root of this phenomenon and presenting possible solutions to a world on the edge. Author Bio Dr. Jean Erasmus is a South African born medical practitioner. Before moving to the United Kingdom, he has worked mostly with less fortunate souls, managing a wide variety of illnesses, ranging from Tuberculosis to HIV/AIDS. He has also been involved in medical legal work as well as lecturing in Primary Health Care. The world of medicine - where cold, evidence-based science intermingles with the warm, complex, emotional and spiritual human being - has sparked an interest in Jean, leading him to pursue the connection between these two diverse poles of the human condition. This pursuit, offset by the dramatically changing physical, social and spiritual landscape of the world, led him into writing this book in an attempt to finding the missing piece of the current human-led world puzzle, and to present possible solutions.
