Healing Invisible Wounds Richard F. Mollica 2008-12 In these personal reflections on his thirty years of clinical work with victims of genocide, torture, and abuse in the United States, Cambodia, Bosnia, and other parts of the world, Richard Mollica describes the surprising capacity of traumatized people to heal themselves. Here is how Neil Boothby, Director of the Program on Forced Migration and Health at the Mailman School of Public Health, Columbia University, describes the book: "Mollica provides a wealth of ethnographic and clinical evidence that suggests the human capacity to heal is innate--that the 'survival instinct' extends beyond the physical to include the psychological as well. He enables us to see how recovery from 'traumatic life events' needs to be viewed primarily as a 'mystery' to be listened to and explored, rather than solely as a 'problem' to be identified and solved. Healing involves a quest for meaning--with all of its emotional, cultural, religious, spiritual and existential attendants--even when bio-chemical reactions are also operative." *Healing Invisible Wounds* reveals how trauma survivors, through the telling of their stories, teach all of us how to deal with the tragic events of everyday life. Mollica's important discovery that humiliation--an instrument of violence that also leads to anger and despair--can be transformed through his therapeutic project into solace and redemption is a remarkable new contribution to survivors and clinicians. This book reveals how in every society we have to move away from viewing trauma survivors as "broken people" and "outcasts" to seeing them as courageous people actively contributing to larger social goals. When violence occurs, there is damage not only to individuals but to entire societies, and to the world. Through the journey of self-healing that survivors make, they enable the rest of us not only as individuals but as entire communities to recover from injury in a violent world.

Separate Rooms Pier Vittorio Tondelli 2004 Leo is an Italian writer in his thirties. Thomas, his German lover, is dead. On a plane to Munich, Thomas's home town, Leo slips into a reverie of their meeting and life in Paris, nights in Thomas's flat in Montmartre and a desperate, drug-induced flight through the forests of northern France that spells the end for Leo and Thomas' languid, erotic life together. Leo travels to find anonymity. Structured in three musical movements, *Separate Rooms* is a story of ideal love, broken by absence and separation. When Thomas was alive, he and Leo had separate rooms in order to preserve the urgency of their passion. Now, Leo faces solitude, the impossible striving of memory to recreate life and the hostility of a prejudiced world. *Separate Rooms*, Tondelli's last book, is a powerful novel of the strength of love and the trauma of death.

Me and You Niccolò Ammaniti 2012-02-01 The bestselling author of *I'm Not Scared* "elegizes adolescence fiercely and sympathetically" in a novel that's "scary, lovely and at last a heartbreaker" (Kirkus Reviews). Lorenzo Cuni is a fourteen-year-old loner. His wealthy parents think he is away on a school skiing trip, but in fact he has stowed away in a forgotten cellar. For a week he plans to live in perfect isolation, keeping the adult world at bay. Then a visit from his estranged half-sister, Olivia, changes everything. Evoking the fierce intensity and the pulse-quickenng creepiness of *I'm Not Scared*, Ammaniti's bestselling first novel, *Me and You* is a breathtaking tale of alienation, acceptance, and wanting to be loved by "a fearsomely gifted writer" (The Independent). "Immensely engaging . . . Both tender and emotionally arresting, Ammaniti's novel is unforgettable." —Publishers Weekly, starred review "Italian author Niccolò Ammaniti does a lot in 160 pages, including surprise, humor, and frighten you—sometimes simultaneously." —Daily Candy "Ammaniti's prose is nimble, perceptive and economical . . . There's a lot to love about this book—its reticent empathy, its delicate and pragmatic treatment of addiction, its remarkable use of restricted physical space." —Full Stop "Me and You takes a short time to read but offers a memorable experience in a mutual recognition of loneliness and grief." —Curled Up With a Good Book "Me And You, at just over one hundred pages . . . [is a] perfect book . . . Niccolò Ammaniti disgusts me for how talented he is . . . He has written a masterpiece." —Antonio D'Orrico, Corriere della Sera

Listening Jean-Luc Nancy 2007 *The Animal That Therefore I Am* is the long-awaited translation of the complete text of Jacques Derrida's ten-hour address to the 1997 Crisy conference entitled *The Autobiographical Animal*, the third of four such colloquia on his work. The book was assembled posthumously on the basis of two published sections, one written and recorded session, and one informal recorded session. The book is at once an affectionate look back over the multiple roles played by animals in Derrida's work and a profound philosophical investigation and critique of the relegation of animal life that takes place as a result of the distinction--dating from Descartes--between man as thinking animal and every other living species. That starts with the very fact of the line of separation drawn between the human and the millions of other species that are reduced to a single the animal. Derrida finds that distinction, or versions of it, surfacing in thinkers as far apart as Descartes, Kant, Heidegger, Lacan, and Levinas, and he dedicates extended analyses to the question in the work of each of them. The book's autobiographical theme intersects with its philosophical analysis through the figures of looking and nakedness, staged in terms of Derrida's experience when his cat follows him into the bathroom in the morning. In a classic deconstructive reversal, Derrida asks what this animal sees and thinks when it sees this naked man. Yet the experiences of nakedness and shame also lead all the way back into the mythologies of man's dominion over the beasts and trace a history of how man has systematically displaced onto the animal his own failings or btises. *The Animal That Therefore I Am* is at times a militant plea and indictment regarding, especially, the modern industrialized treatment of animals. However, Derrida cannot subscribe to a simplistic version of animal rights that fails to follow through, in all its implications, the

questions and definitions of life to which he returned in much of his later work.

Restorative Justice in Practice Joanna Shapland 2011-07-15 Restorative justice has made significant progress in recent years and now plays an increasingly important role in and alongside the criminal justice systems of a number of countries in different parts of the world. In many cases, however, successes and failures, strengths and weaknesses have not been evaluated sufficiently systematically and comprehensively, and it has been difficult to gain an accurate picture of its implementation and the lessons to be drawn from this. Restorative Justice in Practice addresses this need, analyzing the results of the implementation of three restorative justice schemes in England and Wales in the largest and most complete trial of restorative justice with adult offenders worldwide. It aims to bring out the practicalities of setting up and running restorative justice schemes in connection with criminal justice, the costs of doing so and the key professional and ethical issues involved. At the same time the book situates these findings within the growing international academic and policy debates about restorative justice, addressing a number of key issues for criminal justice and penology, including: how far victim expectations of justice are and can be met by restorative justice aligned with criminal justice whether 'community' is involved in restorative justice for adult offenders and how this relates to social capital how far restorative justice events relate to processes of desistance (giving up crime), promote reductions in reoffending and link to resettlement what stages of criminal justice may be most suitable for restorative justice and how this relates to victim and offender needs the usefulness of conferencing and mediation as forms of restorative justice with adults. Restorative Justice in Practice will be essential reading for both students and practitioners, and a key contribution to the restorative justice debate.

Sports Chaplaincy Andrew Parker 2016-06-24 This ground-breaking book provides an in-depth analysis of the theory and practice of sports chaplaincy in a global context. Written in an accessible style, yet based on academic evidence and theory, the contributors include those leading major national chaplaincy organisations located in the UK, US, Australia and Continental Europe, as well as chaplains and sport psychologists working in elite and amateur sport and those involved in teaching pastoral theology. Providing a rich and informative source of knowledge and inspiration for practitioners, athletes, academics and those interested in the general relationship between sport and faith, contributors also address the provision of sports chaplaincy at sporting mega-events, including the Olympic Games. This much needed overview of chaplaincy provision in sport across a range of national and international contexts and settings, including both catholic and protestant perspectives, is the first collection of its kind to bring together leading scholars in sports chaplaincy with a view to providing professional accreditation and training amidst the fast-emerging field of sports theology.

Confessio Philosophi Gottfried Wilhelm Leibniz 2005-01-01 This volume contains papers that represent Leibniz's early thoughts on the problem of evil, centring on a dialogue, the Confessio philosophi, in which he formulates a general account of God's relation to sin and evil that becomes a fixture in his thinking. How can God be understood to be the ultimate cause, asks Leibniz, without God being considered as the author of sin, a conclusion incompatible with God's holiness? Leibniz's attempts to justify the way of God to humans lead him to deep discussion of related topics: the nature of free choice, the problems of necessitarianism and fatalism, the nature of divine justice and holiness. All but one of the writings presented here are available in English for the first time.

Ecodharma David Loy 2019-01-29 How can we respond urgently and effectively to the ecological crisis—and stay sane doing it? This landmark work is simultaneously a manifesto, a blueprint, a call to action, and a deep comfort for troubling times. David R. Loy masterfully lays out the principles and perspectives of Ecodharma—a Buddhist response to our ecological predicament, introducing a new term for a new development of the Buddhist tradition. This book emphasizes the three aspects of Ecodharma: practicing in the natural world, exploring the ecological implications of Buddhist teachings, and embodying that understanding in the eco-activism that is needed today. Within these pages, you'll discover the powerful ways Buddhism can inspire us to heal the world we share. Offering a compelling framework and practical spiritual resources, Loy outlines the Ecosattva Path, a path of liberation and salvation for all beings and the world itself.

What Hell Is Not Alessandro D'Avenia 2019-01-24 The school year is finished, exams are over and summer stretches before seventeen-year-old Federico, full of promise and opportunity. But then he accepts a request from one of his teachers to help out at a youth club in the destitute Sicilian neighbourhood of Brancaccio. This narrow tangle of alleyways is controlled by local mafia thugs, but it is also the home of children like Francesco, Maria, Dario, Totò: children with none of Federico's privileges, but with a strength and vitality that changes his life forever. Written in intensely passionate and lyrical prose, What Hell Is Not is the phenomenal Italian bestseller about a man who brought light to one of the darkest corners of Sicily, and who refused to give up on the future of its children.

Christus Vivit Pope Francis 2019-04-04 To young Christians of the world, Pope Francis has a message for you: "Christ is alive, and he wants you to be alive!" In his fourth apostolic exhortation, Christus Vivit, Pope Francis encapsulates the work of the 2018 synod of bishops on "Young People, The Faith, and Vocational Discernment." Pope Francis has always had a special relationship with young people, and in his fatherly love for you he shows that: You can relate to young people in Scripture who made a difference You identify with the Christ who is always young You face difficult issues in the world today You yearn for the truth of the Gospel You are capable of amazing things when you respond to the Gospel You learn and grow with help from the faithful of all generations You need bold and creative youth ministry You can discover who God made you to be You are urged to pray for discernment Christus Vivit is written for and to young people, but Pope Francis also wrote it for the entire Church, because, as he says, reflecting on our young people inspires us all. "May the Holy Spirit urge you on as you run this race. The Church needs your momentum, your intuitions, your faith. We need them! And when you arrive where we have not yet reached, have the patience to wait for us."

Living Up to Death Paul Ricoeur 2010-04-15 When French philosopher Paul Ricoeur died in 2005, he bequeathed to the world a highly regarded, widely influential body of work which established him as one of the greatest thinkers of our time. He also left behind a number of unfinished projects that are gathered here and translated into English for the first time. Living Up to Death consists of one major essay and nine fragments. Composed in 1996, the essay is the kernel of an unrealized book on the subject of mortality. Likely inspired by his wife's approaching death, it examines not one's own passing but one's experience of others dying. Ricoeur notes that when thinking about death the imagination is paramount, since we cannot truly experience our own passing. But those we leave behind do, and Ricoeur posits that the idea of life after death originated in the awareness of our own end posthumously resonating with our survivors. The fragments in this volume were written over the course of the last few months of Ricoeur's life as his health failed, and they represent his very last work. They cover a range of topics, touching on biblical scholarship, the philosophy of language, and the idea of selfhood he first addressed in Oneself as Another. And while they contain numerous philosophical insights, these fragments are perhaps most significant for providing an invaluable look at Ricoeur's mind at work. As poignant as it is perceptive, Living Up to Death is a moving testimony to Ricoeur's willingness to confront his own mortality with serious questions, a touching insouciance, and hope for the future.

Competences for democratic culture Council of Europe 2016-04-04 A new Council of Europe reference framework of competences for democratic culture! Contemporary societies within Europe face many challenges, including declining levels of voter turnout in elections, increased distrust of politicians, high levels of hate crime, intolerance and prejudice towards minority ethnic and religious groups, and increasing levels of support for violent extremism. These challenges threaten the legitimacy of democratic institutions and peaceful co-existence within Europe. Formal education is a vital tool that can be used to tackle these challenges. Appropriate educational input and practices can boost democratic engagement, reduce intolerance and prejudice, and decrease support for violent extremism. However, to achieve these goals, educationists need a clear understanding of the democratic competences that should be targeted by the curriculum. This book presents a new conceptual model of the competences which citizens require to participate in democratic culture and live peacefully together with others in culturally diverse societies. The model is the product of intensive work over a two-year period, and has been strongly endorsed in an international consultation with leading educational experts. The book describes the competence model in detail, together with the methods used to develop it. The model provides a robust conceptual foundation for the future development of curricula, pedagogies and assessments in democratic citizenship and human rights education. Its application will enable educational systems to be harnessed effectively for the preparation of students for life as engaged and tolerant democratic citizens. The book forms the first component of a new Council of Europe reference framework of competences for democratic culture. It is vital reading for all educational policy makers and practitioners who work in the fields of education for democratic citizenship, human rights education and intercultural education.

The Sexual Politics of Disability Tom Shakespeare 1996 While the civil rights movement has put disability issues centre-stage, there has been minimal discussion of disabled people's sexuality. This book, based on first-hand accounts, takes a close look at questions of identity, relationships, sex, love, parenting and abuse and demolishes the taboo around disability and sex. It shows the barriers to disabled people's sexual rights and sexual expression, and also the ways in which these obstacles are being challenged. Various moving, angry, funny and proud, *The Sexual Politics of Disability* is about disabled people sharing their stories and claiming their place as sexual beings. It is a pioneering work, and essential reading for anyone interested in disability or sexual politics.

The Swallows of Monte Cassino Frederika Randall 2013-10-14 The Strega Prize-winning author of *The Girl with a Leica* delivers a novel that hinges on one of the bloodiest World War II battles and those who fought it. In this highly original novel, Janeczek retells the four-month-long Battle of Monte Cassino from the point of view of the Maori, Gurkha, Polish, North African, small-town American and other Allied foot soldiers who fought and died under German fire near that 6th century Benedictine abbey. Twined through the battle is another story, a memory of the drowned and the saved in Janeczek's own family in wartime Eastern Europe, where Jews who did not go to Nazi death camps went to Soviet gulag camps, and sometimes survived, and even went on to fight at Monte Cassino. A powerful reflection on all the ways that rights can be taken from us. "Helena Janeczek's novel is this: a tattoo etched on the skin, and not painlessly. A vast design that brings together threads from all the various lives that converged in that legendary battle. The beauty of her tale lies in its structure, the way opposites converge: the chaos of battle and the silence of the defeated, ordinariness and the heroism of the powerless, carefully guarded memory and impetuous youth, the past perpetually intertwined with the present." —Roberto Saviano, author of *Gomorra*

The Silent Duchess Dacia Maraini 2000-01-01 The stunning English translation of the International Man Booker Prize Finalist novel hailed as "a story of grace and endurance, not mere survival" (The New York Times Book Review). Winner of the Premio Campiello, short-listed for the Independent Foreign Fiction Award, and published to critical acclaim in fourteen languages, this "spellbinding" historical novel by one of Italy's premier authors is now available in this luminous new translation (Booklist). In early 18th century Sicily, noblewoman Marianna Ucria is trapped in a world of silence after a terrible childhood trauma left her deaf and mute. Married off to a lecherous uncle, she struggles to educate and elevate herself against all convention—and find her true place in a world that sees her as little more than property. In language that conveys the keen vision and deep human insight possessed by her protagonist, Dacia Maraini captures the splendor and the corruption of Marianna's world, as well as the strength of her unbreakable spirit, in "one of those rare, rich, deep, strange novels that create a world so fantastic and so real you want to start reading it again as soon as you come to the last page" (Newsday).

Fashion Lars Svendsen 2006-10-30 Fashion is at once a familiar yet mysteriously elite world that we all experience, whether we're buying a new pair of jeans, reading *Vogue*, or watching the latest episode of *Project Runway*. Lars Svendsen dives into that world in *Fashion*, exploring the myths, ideas, and history that make up haute couture, the must-have trends over the centuries, and the very concept of fashion itself. *Fashion* opens with an exploration of all the possible meanings encompassed by the word "fashion," as Svendsen probes its elusive place in art, politics, and history. Ultimately, however, he focuses on the most common use of the term: clothing. With his trademark dry wit, he deftly dismantles many of the axioms of the industry and its supporters. For example, he points out that some of the latest fashions shown on runways aren't actually "fashionable" in any sense of the word, arguing that they're more akin to modern art works, and he argues against the increasingly prevalent idea that plastic surgery and body modification are part of a new wave of consumerism. Svendsen draws upon the writings of thinkers from Adam Smith to Roland Barthes to analyze fashion as both a historical phenomenon and a philosophy of aesthetics. He also traces the connections between the concepts of fashion and modernity and ultimately considers the importance of evolving fashions to such fields as art, politics, and philosophy. Whether critiquing a relentless media culture that promotes perfect bodies or parsing the never-ending debate over the merits of conformity versus individual style, Lars Svendsen offers an engaging and intriguing analysis of fashion and the motivations behind its constant pursuit of the new.

A Catholic Priest Meets Sai Baba Mario Mazzoleni 1994 Don Mario Mazzoleni uses his theological training to examine Sai Baba's miracles and teachings. His doubts dissolve as he learns how Sai Baba's teachings mirror those of his divine master, Jesus Christ. When the Church demands that Don Mario recant for saying that God is alive or be excommunicated, the author said, "Institutions do not accompany anyone beyond the grave, the only reality that one can present to God is one's conscience. The Lord who examines our hearts is the Judge!". Don Mario Mazzoleni was excommunicated Sept. 24, 1992.

Models of Contextual Theology Stephen B. Bevens 2004 Stephen B Bevens's Models of Contextual Theology has become a staple in courses on theological method and as a handbook used by missionaries and other Christians concerned with the Christian tradition's understanding of itself in relation to culture. First published in 1992 and now in its seventh printing in English, with translations underway into Spanish, Korean, and Indonesian, Bevens's book is a judicious examination of what the terms "contextual theology" and "to contextualize" mean. In the revised and expanded edition, Bevens adds a "counter-cultural" model to the five presented in the first edition -- the translation, the anthropological, the praxis, the synthetic, and the transcendental model. This means that readers will be introduced to the way in which figures such as Stanley Hauerwas, John Milbank, Lesslie Newbigin, "and (occasionally) Pope John Paul II" need to be taken into account. The author's revisions also incorporate suggestions made by reviewers to enhance the clarity of the original three chapters on the nature of contextual theology and the five models.
