Merchants in the Temple Gianluigi Nuzzi 2015-11-10 From a bestselling author with unprecedented access to Pope Francis, an investigative look at the recent financial scandals at the highest levels of the Vatican A veritable war is waging in the Church: on one side, there is Pope Francis's strong message for one church of the poor and all; on the other, there is the old Curia with its endless enemies, and the old and new lobbies struggling to preserve their not-so-Christian privileges. The old guard do not back down, they are ready to use all means necessary to stay in control and continue the immoral way they conduct their business. They resist reforms sought by Pope Francis and seek to delegitimize their opponents, to isolate those who want to eliminate corruption. It's a war that will determine the future of the church. And if he loses the battle against secular interests and blackmail, Pope Francis could resign, much like his predecessor. Based on confidential information—including top secret documents from inside the Vatican, and actual transcripts of Pope Francis's admonishments to the papal court about the lack of financial oversight and responsibility—Merchants in the Temple illustrates all the undercover work conducted by the Pope since his election and shows the reader who his real enemies are. It reveals the instruments Francis is using to reform the Vatican and rid it, once and for all, of the overwhelming corruption traditionally encrusted in the Roman Catholic Church. Merchants in the Temple is a startling book that will shock every reader. It's a story worthy of a Dan Brown novel, with its electrifying details of the trickery and scheming against the papacy—except that it is real.

Wanted Women Deborah Scroggins 2012-01-17 The author of Emma's War offers a compelling account of the link between Muslim women's rights, Islamist opposition to the West, and the Global War on Terror. With Emma's War: An Aid Worker, A Warlord, Radical Islam and the Politics of Oil, journalist Deborah Scroggins achieved major international acclaim; now, in Wanted Women, Scroggins again exposes a crucial untold story from the center of an ongoing ideological war—laying bare the sexual and cultural stereotypes embraced by both sides of a conflict that threatens to engulf the world.

The Force of Reason Oriana Fallaci 2006-03-07 This work is the follow-up to "The Rage and The Pride," the author's post-9/11 manifesto. She takes aim at the many attacks and death threats she received after the publication of her political views.

Political Order and Inequality Carles Boix 2015-02-16 The fundamental question of political theory, one that precedes all other questions about the nature of political life, is why there is a state at all. Is human cooperation feasible without a political authority enforcing it? Or do we need a state to live together? This problem then opens up two further questions. If a state is necessary to establish order, how does it come into place? And, when it does, what are the consequences for the political status and economic welfare of its citizens? Combining ethnographical material, historical cases, and statistical analysis, this book describes the foundations of stateless societies, why and how states emerge, and the basis of political obligation. As a result of this inquiry, it explains the economic and political roots of inequality, describes the causes of the stagnation of the preindustrial world, and explores what led to the West's prosperity of the past two centuries.

Terrorist Groups and the New Tribalism Jeffrey Kaplan 2010-02-25 The central focus of this book is a small but vitally important group of movements that constitute a distinct 'fifth wave' of modern terrorism, here called the "New Tribalism". Terrorist Groups and the New Tribalism examines a collection of terrorist or insurgent movements whose similarity in tactics, strategic vision and desire to radically reshape their worlds to conform with a 'Golden Age' dream of perfection which is to be achieved through a genocidal or ethnic cleansing process to make way for the emergence of a new, radically perfected tribal utopia in a single generation. These shared strategic and tactical factors allow them to be examined through a comparative lens as a distinct 'fifth wave' of modern terrorism. Structured around the theoretical framework of David Rapoport's Four Waves thesis, the book examines anomalous movements that began within a distinct wave of international terrorism, but, following a crisis model, has turned inwards toward radical localism, tribalism and xenophobia. The text is divided between theory and in depth case studies of the Ugandan Lord's Resistance Army and the Sudanese Janjaweed. It concludes with a design for further, field-work based research. This book will be of interest to students of Terrorism and Political Violence, Genocide, Conflict Studies, African politics and Political Science in general. Jeffrey Kaplan is an Associate Professor of Religion and the Director of the Institute for the Study of Religion, Violence and Memory at the University of Wisconsin Oshkosh. He is the author of 11 books on terrorism and political violence.

When Islam and Democracy Meet: Muslims in Europe and in the United States Jocelyne Cesari 2004-12-09 Exploring the woefully neglected reality of Islam as a major cultural and religious facet of American and European politics and societies, Cesari examines how Muslims in the West are challenging the notion of an inevitable clash or confrontation. With nearly twelve million Muslims living in the larger countries of Western Europe and almost six million in America, the challenges of integrating newcomers within different countries, and the place of Islam in democratic and secular context in the post 9/11 context, have become more pertinent. Comparing the interaction of Muslims with their new countries, this book addresses the implications of increased Islamic visibility, violent clashes, beneficial cooperation, and questions within the Muslim community about their role and the role of Islam in democratic states. Pursuing a holistic approach to Muslims as a new minority within western democracy, Cesari provides important insights.

Iran Michael Axworthy 2017 Since the beginning of recorded history, Iran/Persia has been one of the most important world civilizations. Iran remains a distinct civilization today despite its status as a major Islamic state with broad regional influence and its deep integration into the global economy through its vast energy reserves. Yet the close attention paid to Iran in recent decades stems from the impact of the 1979 revolution, which unleashed ideological shock waves throughout the Middle East that reverberate to this day. Many observers look at Iran through the prism of the Islamic Republic's adversarial relationship with the US, Israel, and Sunni nations in its region, yet as Michael Axworthy shows in *Iran: What Everyone Needs to Know(R)*, there is much more to contemporary Iran than its fraught and complicated foreign relations. He begins with a concise account of Iranian history from ancient times to the late twentieth century, following that with sharp summaries of the key events since the 1979 revolution. The final section of the book focuses on Iran today--its culture, economy, politics, and people--and assesses the challenges that the nation will face in coming years. Iran will be an essential overview of a complex and important nation that has occupied world headlines for nearly four decades.

Root Causes of Suicide Terrorism Ami Pedahzur 2006-09-27 This highly topical new study clearly shows how there are at least two reasons to question the central role that is assigned to religion, in particular Islam, when explaining suicide terrorism. suicide terrorism is a modern phenomenon, yet Islam is a very old religion. Except for two periods in the twelfth and eighteenth centuries, suicide was never part of Islamist beliefs and behaviours. Actually, Islam clearly forbids suicide, hence, the argument that Islamic religious beliefs are the main cause of suicide terrorism is inherently dubious many suicide attacks have been carried out by secular organizations with little connection to fundamentalist Islam: Palestinian Fatah; the Popular Front for the Liberation of Palestine; and the Kurdish Workers Party. Moreover, one of the organizations that has employed this strategy devastatingly and regularly is the LTTE (Liberation Tigers of Tamil Elam). Not only are members of this organization not Muslim, most of them are not religious at all. This superb new book contains essays by some of the world's leading scholars of terrorism and political violence. It is essential reading for students of terrorism, political science and Middle Eastern politics, and useful to students of social psychology, theology and history.

Hamlet's Mill Hertha Von Dechend 2020-02-10 The main argument of the book may be summarized as the claim of an early (Neolithic) discovery of the precession of the equinoxes (usually attributed to Hipparchus, 2nd century BCE), and an associated very long-lived Megalithic civilization of "unsuspected sophistication" that was particularly preoccupied with astronomical observation. The knowledge of this civilization about precession, and the associated astrological ages, would have been encoded in mythology, typically in the form of a story relating to a millstone and a young

protagonist-the "Hamlet's Mill" of the book's title, a reference to the kenning Amlóða kvren recorded in the Old Icelandic Skáldskaparmál.[1] The authors indeed claim that mythology is primarily to be interpreted as in terms of archaeoastronomy ("mythological language has exclusive reference to celestial phenomena"), and they mock alternative interpretations in terms of fertility or agriculture.[2]

The Oral and the Written in Early Islam Gregor Schoeler 2006-09-27 Made up of a number of seminal articles that are translated for the first time in English, this prestigious book from Gregor Schoeler gives a reasoned, informed and comprehensive overflow of how the written and the spoken interacted, diverged and received cultural articulation among the Muslim societies of the first two centuries of the Hijra.

Architecture, Mysticism and Myth W. R. Lethaby 2005-01-01 The perfect temple should stand at the centre of the world, a microcosm of the universe fabric, its walls built four square with the walls of heaven. And thus they stand the world over, be they Egyptian, Buddhist, Mexican, Greek, or Christian, with the greatest uniformity and exactitude.-from "Chapter III: Four Square" With a wide-ranging scholarship that is astonishing, a prominent figure of the Arts and Crafts design movement explores the "esoteric principles of architecture," the global, interconnected myths that underlie all the structures we build. Through his architect's eye, Lethaby looks at such diverse traditions as the ancient Norse and ancient Egyptian and at the inspiration provided by everything from the sea voyages of the Phoenicians to the astronomy of the earliest Persians, demonstrating how they inform and inspire such wonders as St. Paul's Cathedral, the Taj Mahal, the Palace at Versailles, and others. This 1891 work is a masterpiece of architectural symbolism and an essential foundation for understanding and appreciating "classical" design. British architect WILLIAM RICHARD LETHABY (1857-1931) was the first professor of design at the Royal College of Art. He also wrote *Greek Buildings* (1908), *Mediaeval Art* (1912), and *Architecture* (1912).

At the Origin of the Christian Claim Luigi Giussani 1998 In *At the origin of the Christian claim* Luigi Giussani examines Christ's "claim" to identify himself with the mystery that is the ultimate answer to our search for the meaning of existence. Giussani argues that if we accept the hypothesis that the mystery entered the realm of human existence and spoke in human terms, the relationship between the individual and God is no longer based on a moral, imaginative or aesthetic human effort but instead on coming upon an event in one's life. Thus the religious method is overturned by Christ; in Christianity it is no longer the person who seeks to know the mystery but the mystery that makes himself known by entering history. At the origin of the Christian claim presents an intriguing argument supported with ample documentation from the gospels and other theological writing.

Roger II of Sicily Hubert Houben 2002-04-04 Although many studies have addressed important aspects of medieval southern Italy, this was the first work for nearly ninety years to be devoted specifically to the life and reign of King Roger II, the founder of the kingdom of Sicily. The book provides a comprehensive introductory narrative of the reign and a clear, scholarly analysis of its culture and of the development of royal government. The kingdom created by the Norman Roger of Hautville in the first half of the twelfth century was a monarchy with highly developed absolutist ideas, an elaborate bureaucracy, a reasonably well-filled treasury, and a mixed cultural heritage reflected by the presence of Arabs and Greeks at court. Based on many years of research in archives and libraries across Europe, the book offers a valuable overview of one of the most striking periods in south Italian and European history.

Mohammed Maxime Rodinson 1991 A definitive and fascinating introduction to the life, ideas, and impact of the founder of Islam. Maxime Rodinson's Muhammad has long been regarded as one of the touchstones of scholarship on the founder of Islam. Thirty years after first being published in English, it remains the definitive introduction to the Prophet's life. Drawing on wide-ranging scholarship and imaginative insight into the Prophet's personality, family, background, and wider society, Rodinson's Muhammad offers a vivid account of how he spread the word of Islam, created a sect and state, and defeated his enemies, establishing the first great Muslim military power -- a power which was soon to control territory stretching all the way from the Pyrenees to the borders of China. For anyone who wants to understand the historical roots of one of the world's great religions, Rodinson's Muhammad provides the ideal guide to a fascinating and timely subject. -- Description from <http://www.amazon.com> (Jan. 26, 2012).
