The Flavors of Modernity Gian-Paolo Biasin 2017-03-14 From Rabelais's celebration of wine to Proust's madeleine and Virginia Woolf's boeuf en daube in *To the Lighthouse*, food has figured prominently in world literature. But perhaps nowhere has it played such a vital role as in the Italian novel. In a book flowing with descriptions of recipes, ingredients, fragrances, country gardens, kitchens, dinner etiquette, and even hunger, Gian-Paolo Biasin examines food images in the modern Italian novel so as to unravel their function and meaning. As a sign for cultural values and social and economic relationships, food becomes a key to appreciating the textual richness of works such as Lampedusa's *The Leopard*, Manzoni's *The Betrothed*, Primo Levi's *Survival in Auschwitz*, and Calvino's *Under the Jaguar Sun*. The importance of the culinary sign in fiction, argues Biasin, is that it embodies the oral relationship between food and language while creating a sense of materiality. Food contributes powerfully to the reality of a text by making a fictional setting seem credible and coherent: a Lombard peasant eats polenta in *The Betrothed*, whereas a Sicilian prince offers a monumental macaroni timbale at a dinner in *The Leopard*. Similarly, Biasin shows how food is used by writers to connote the psychological traits of a character, to construct a story by making the protagonists meet during a meal, and even to call attention to the fictionality of the story with a metanarrative description. Drawing from anthropology, psychoanalysis, sociology, science, and philosophy, the author gives special attention to the metaphoric and symbolic meanings of food. Throughout he blends material culture with observations on thematics and narrativity to enlighten the reader who enjoys the pleasures of the text as much as those of the palate. Scandinavian Christmas Trine Hahnemann 2017-09-21 In Scandinavia the whole period of Christmas, from the first Sunday in Advent to New Year's Day, is marked by festivals and celebrated in traditional but beautifully contemporary style. Hygge, the Danish word for cosiness, is about being inside with candles, great comfort food and lots of cakes and sweets. The first week of December is baking week - enough has to be made to last the whole Christmas period. Jars of decorated cookies, gingerbread houses and clogs filled with little presents rub shoulders with simple wreaths, trees and tables decorated with white candles and fresh greenery - the perfect mix of ancient and modern. Brunches, cocktail and tea parties, lunches and dinners are celebrated with a mixture of traditional goodies and delicious modern recipes. Duck and pork rule on Christmas Eve, fish, ham and seasonal vegetables on Christmas Day. Sweets, biscuits, puddings and other treats abound - all washed down with glühwein and fruity cocktails. In this glorious book, illustrated with Lars Ranek's evocative photographs, Trine Hahnemann provides a cornucopia of 70 Christmas recipes - all featuring ingredients which are common to all northern climes - showing us how we, too, can decorate our homes and make delicious dishes to celebrate Christmas the Scandinavian way.

Slow Food Nation Carlo Petrini 2013-10-08 By now most of us are aware of the threats looming in the food world. The best-selling *Fast Food Nation*

and other recent books have alerted us to such dangers as genetically modified organisms, food-borne diseases, and industrial farming. Now it is time for answers, and Slow Food Nation steps up to the challenge. Here the charismatic leader of the Slow Food movement, Carlo Petrini, outlines many different routes by which we may take back control of our food. The three central principles of the Slow Food plan are these: food must be sustainably produced in ways that are sensitive to the environment, those who produce the food must be fairly treated, and the food must be healthful and delicious. In his travels around the world as ambassador for Slow Food, Petrini has witnessed firsthand the many ways that native peoples are feeding themselves without making use of the harmful methods of the industrial complex. He relates the wisdom to be gleaned from local cultures in such varied places as Mongolia, Chiapas, Sri Lanka, and Puglia. Amidst our crisis, it is critical that Americans look for insight from other cultures around the world and begin to build a new and better way of eating in our communities here.

Materada Fulvio Tomizza 2000 Francesco Koslovic—even his name straddles two cultures. And during the spring of 1955, in the village of Materada on the Istrian Peninsula, his two worlds are coming apart. Materada, the first volume of Fulvio Tomizza's celebrated Istrian Trilogy, depicts the Istrian exodus of the hundreds of thousands who had once thrived in a rich ethnic mixture of Italians and Slavs. Complicating Koslovic's own departure is his attempt to keep the land that he and his brother have worked all their lives. A picture of a disappearing way of life, a tale of feud and displacement, and imbued with the tastes, tales, and songs of his native Istria, Koslovic's story is a testament to the intertwined ethnic roots of Balkan history.

Science in the Kitchen and the Art of Eating Well Pellegrino Artusi 2003-12-27 First published in 1891, Pellegrino Artusi's *La scienza in cucina e l'arte di mangiar bene* has come to be recognized as the most significant Italian cookbook of modern times. It was reprinted thirteen times and had sold more than 52,000 copies in the years before Artusi's death in 1910, with the number of recipes growing from 475 to 790. And while this figure has not changed, the book has consistently remained in print. Although Artusi was himself of the upper classes and it was doubtful he had ever touched a kitchen utensil or lit a fire under a pot, he wrote the book not for professional chefs, as was the nineteenth-century custom, but for middle-class family cooks: housewives and their domestic helpers. His tone is that of a friendly advisor – humorous and nonchalant. He indulges in witty anecdotes about many of the recipes, describing his experiences and the historical relevance of particular dishes. Artusi's masterpiece is not merely a popular cookbook; it is a landmark work in Italian culture. This English edition (first published by Marsilio Publishers in 1997) features a delightful introduction by Luigi Ballerini that traces the fascinating history of the book and explains its importance in the context of Italian history and politics. The illustrations are by the noted Italian artist Giuliano Della Casa.

Sea and Sardinia D. H. Lawrence 1997-06-05 Written after the First World War when he was living in Sicily, *Sea and Sardinia* records Lawrence's journey to Sardinia and back in January 1921. It reveals his response to a new landscape and people and his ability to transmute the spirit of place into literary art. Like his other travel writings the book is also a shrewd inquiry into the political and social values of an era which saw the rise of communism and fascism. On one level an indictment of contemporary materialism, *Sea and Sardinia* is nevertheless an optimistic book, celebrating the creativity of the human spirit and seeking in the fundamental laws which governed human nature in the past fresh inspiration for the present. This 1997 edition restores censored passages and corrects corrupt textual readings to reveal for the first time the book Lawrence himself called 'a marvel of veracity'.
