A Catalogue of Chaucer Manuscripts M.C. Seymour 2017-03-02 This second volume, which completes the first comprehensive catalogue of Chaucer's manuscripts, describes the 56 extant copies and the fragments of 8 otherwise lost copies of the Canterbury Tales. These manuscripts, last examined together over 50 years ago, are here described after a fresh appraisal and in the light of modern scholarship, and some revisions of date, decoration, dialect, location, provenance, and script are suggested. The Introduction defines some of the major textual problems posed by the manuscripts and presents some thoughts thereon, while suggesting solutions to some incidental cruces. The Indices and Appendices record the citation of lost and unidentified copies of the Canterbury Tales, the names of former owners and associates, and addenda et corrigenda for Volume I. The Catalogue is designed as a reference work for those teachers and students who wish to know what and where the extant material is without the labour of its collection and for those able in the various specialities of manuscript bibliography to advance present knowledge.

The Complete Poems of John Donne Robin Robbins 2014-06-06 *The Poems of John Donne* is one volume paperback edition of the poems of John Donne (1572-1631) based on a comprehensive re-evaluation of his work from composition to circulation and reception. Donne's output is tremendously varied in style and form and demonstrates his ability to exercise his rhetorical capabilities according to context and occasion. This edition aims to present the text of all his known poems, from the epigrams, songs and satires written for fellow young men about town, to the more mature verse-epistles and memorial elegies written for his patrons. The Longman Annotated English Poets series traditionally aims to present poems in chronological order; in this edition, however, the principle has been observed only within generic sections. This organisation reproduces the manner in which Donne's original readers first encountered the poems in the various manuscripts of his elegies and satires that circulated in Donne's lifetime. Volume One contains the Epigrams, Verse Letters to Friends, Love Lyrics, Love Elegies and Satires; Volume Two contains the religious poems, Wedding Celebrations, Verse Epistles to Patronesses, Commemorations, and the Anniversaries. The lyrics have been arranged alphabetically for ease of reference and because, in all but a few cases, precise date of composition is impossible to determine. Each poem has extensive editorial commentary designed to put the twenty-first century reader in possession of all that is necessary

fully to appreciate Donne's work. A substantial headnote sets each poem in its historical and literary context, while the annotations give detailed guidance on the wealth of classical and religious allusions and give full representation to the literary, historical and philosophical culture out of which the poems grew. In keeping with the traditions of the series, Donne's own text has been modernised in punctuation and spelling except where to do so would alter or disrupt a rhyme.

The First Quarto of King Henry V William Shakespeare 2000-06 The Quarto text of Henry V is of unique importance. It is the first and probably the only text of a Shakespeare play which provides the playscript corresponding to the version that was actually performed by Shakespeare's own company. It has the authority of being transcribed by actors in the company as a record of their original staging at the Globe in 1599. The quarto version differs radically from the First Folio text which is used as the source for all other editions. Half as long as the Folio, it represents a practical staging text that streamlined the script supplied by Shakespeare. This edition of the Henry V quarto provides a modernized text alongside the extensive commentary. Andrew Gurr examines each variant from the Folio text in detail, shedding new light on what happened to scripts that the Shakespeare company bought from their resident playwright.

Studies in Arthurian Illustration Vol II Alison Stones 2018-12-31 Alison Stones has taught History of Art and Architecture in the USA since 1969 and has enjoyed Visiting Fellowships at the Universities of Oxford, Cambridge and Paris. She is a specialist in illuminated manuscripts, co-authoring *Les Manuscrits de Chretien de Troyes* (1993), *The Pilgrim's Guide to Santiago de Compostela, A Critical Edition* (1998), and writing *Le Livre d'images de Madame Marie* (Paris, BNF n.a.fr. 16251) (1997), and *Gautier de Coinci, Miracles, Music and Manuscripts* (2006). Her four-volume study, *Manuscripts Illuminated in France, Gothic Manuscripts 1260-1320* was published in 2013 and 2014. Her research has been supported by the American Council of Learned Societies, the American Philosophical Society, the Fulbright Foundation, and the National Endowment for the Humanities. She is a Fellow of the Society of Antiquaries of London, a Correspondant étranger honoraire of the Societe nationale des Antiquaires de France and a Chevalier de l'Ordre des Arts et des Lettres. These two volumes collect and update Professor Stones's papers on Arthurian manuscript illustration, one of her continuing passions. These essays explore aspects of the iconography of the romances of Chretien de Troyes in French verse, the lengthy Lancelot-Grail romance in French prose, and other versions of the chivalrous exploits of King Arthur's knights - the best-sellers of the Middle Ages. Illustrated copies of these romances survive in huge numbers from the early thirteenth century through the beginnings of print, and were read for their text and their pictures throughout the French-speaking world. Of special interest is the cultural context in which these popular works were made and disseminated, by scribes and artists whose work encompassed all kinds of books, for patrons whose collecting was wide-ranging, including secular books alongside works of liturgical and devotional interest.

The book is intended to serve as a fundamental yet comprehensive educational and practical guide for departing from the wait-failure-emergency repair cycle that has plagued too many industries, instead advancing a proactive and productive maintenance strategy. The book can serve as a powerful educational tool for students as well as for maintenance professionals and managers. In addition to updating the previous historical and statistical data and tables, the second edition expands on and adds to case studies based on current maintenance-related events. Several numerical examples and explanations are revised in order to enhance the clarity of the methodology. The second edition introduces the readers to the state-of-the-art concepts of the Internet of Things (IoT), smart sensors, and their application to maintenance and TPM.
