Don't Worry, Little Crab Chris Haughton 2020 From the award-winning creator of Shh! We Have a Plan comes a vibrantly colorful story about mustering the courage to try something new. Little Crab and Very Big Crab live in a tiny rock pool near the sea. Today they're going for a dip in the big ocean. "This is going to be so great," says Little Crab, splish-splashing and squelch-squelching along, all the way to the very edge. Then comes a first glance down at the waves. WHOOSH! Maybe it's better if they don't go in? With vivid colors, bold shapes, and his trademark visual humor, Chris Haughton shows that sometimes a gentle "don't worry, I'm here" can keep tentative little crabs sidestepping ahead -- and help them discover the brilliant worlds that await when they take the plunge.

The Carolingian Economy Adriaan Verhulst 2002-10-17 This book is about the economy of the Carolingian empire (753 877), which extended from the Pyrenees and the northern shores of the Mediterranean to the North Sea, and from the Atlantic coast to the Elbe and Saale rivers. It is the first comprehensive evaluation of the topic to appear in English in over twenty years. Aspects of land and people, agrarian production and technique, craft and industry, and regional and international commerce are analysed, and the Carolingian economy is reassessed in a European context.

Sacred Power, Sacred Space Jeanne Halgren Kilde 2008-07-21 Jeanne Halgren Kilde's survey of

church architecture is unlike any other. Her main concern is not the buildings themselves, but rather the dynamic character of Christianity and how church buildings shape and influence the religion. Kilde argues that a primary function of church buildings is to represent and reify three different types of power: divine power, or ideas about God; personal empowerment as manifested in the individual's perceived relationship to the divine; and social power, meaning the relationships between groups such as clergy and laity. Each type intersects with notions of Christian creed, cult, and code, and is represented spatially and materially in church buildings. Kilde explores these categories chronologically, from the early church to the twentieth century. She considers the form, organization, and use of worship rooms; the location of churches; and the interaction between churches and the wider culture. Church buildings have been integral to Christianity, and Kilde's important study sheds new light on the way they impact all aspects of the religion. Neither mere witnesses to transformations of religious thought or nor simple backgrounds for religious practice, church buildings are, in Kilde's view, dynamic participants in religious change and goldmines of information on Christianity itself.

**The Cinema of Me** Alisa Lebow 2012-05-29 When a filmmaker makes a film with herself as a subject, she is already divided as both the subject matter of the film and the subject making the film. The two senses of the word are immediately in play - the matter and the maker—thus the two ways of being subjectified as both subject and object. Subjectivity finds its filmic expression, not surprisingly, in very personal ways, yet it is nonetheless shaped by and in relation to collective expressions of identity that can transform the cinema of 'me' into the cinema of 'we'. Leading scholars and practitioners of first-person film are brought together in this groundbreaking collection to consider the theoretical, ideological, and aesthetic challenges wrought by this form of filmmaking

in its diverse cultural, geographical, and political contexts.

**Jimmy** Omair Ahmad 2010-12-01 In Moazzamabad, UP, too large to be a town and too backward to be a city, a young man stabs a police inspector and is beaten to death. The last words he speaks are, 'My name is Jimmy the Terrorist.' Journalists descend on the town, 'like shrill birds', and a long-time resident decides to tell a story that none of them will know. Jimmy was once Jamaal, son of Rafiq Ansari of Rasoolpur Mohalla, a Muslim neighbourhood in a Hindu town. And his story goes back a long way: to the time when Moazzamabad was named, after Aurangzeb's son; when Rafiq was seduced by the wealth and refinements of Shabbir Manzil and married Shaista; when the Hanuman temple grew ten storeys high and the head priest was elected mayor; when Shaista died, a mosque was brought down in Ayodhya and Rafiq became a mullah. As Jamaal grows up, watching both his father and his neighbourhood change and curfew reach Moazzamabad, he is changed himself. He becomes Jimmy, one among the countless marginalized trying to find a place in the world, dimly aware that the choices that shape their lives are being made in distant places, where they have no influence. Shortlisted for the Man Asian Prize 2009, this spare, compelling novel, as intimate as it is political, confirms Omair Ahmad's reputation as one of the most distinctive and exciting new voices in Indian fiction.

Philosophy: The Classics Nigel Warburton 2014-02-03 Now in its fourth edition, *Philosophy: The Classics* is a brisk and invigorating tour through the great books of western philosophy. In his exemplary clear style, Nigel Warburton introduces and assesses thirty-two philosophical classics from Plato's Republic to Rawls' A Theory of Justice. The fourth edition includes new material on: Montaigne Essays Thomas Paine Rights of Man R.G. Collingwood The Principles of Art Karl Popper

The Open Society and Its Enemies Thomas Kuhn The Structure of Scientific Revolutions With a glossary and suggestions for further reading at the end of each chapter, this is an ideal starting point for anyone interested in philosophy.

The Wall of the Earth Giorgio Caproni 1992 "The work of Giorgio Caproni has been translated into French, German, and Chinese, among others, but this collection is his first book-length English publication. His works are finely tuned to modern man's preoccupations with existence in a world deprived of certainties (for example, the existence or inexistence of God). Most are touched by experiences such as the Second World War and its atrocities, the Resistance Movement, or the death of loved ones, events that represent the conviction of a subject that will do its best to survive all adversity, uncompromised" -- from the Introduction by Pasquale Verdicchio

*Physiologus* 1979 One of the most popular and widely read books of the Middle Ages, "Physiologus" contains allegories of beasts, stones, and trees both real and imaginary, infused by their anonymous author with the spirit of Christian moral and mystical teaching. Accompanied by an introduction that explains the origins, history, and literary value of this curious text, this volume also reproduces twenty woodcuts from the 1587 version. Originally composed in the fourth century in Greek, and translated into dozens of versions through the centuries, "Physiologus" will delight readers with its ancient tales of ant-lions, centaurs, and hedgehogs and their allegorical significance. An elegant little book . . . still diverting to look at today. . . . The woodcuts reproduced from the 1587 Rome edition are alone worth the price of the book. Raymond A. Sokolov, "New York Times Book Review"

**Great Apes** Will Self 2012-10-16 Some people lost their sense of proportion, others their sense of

scale, but Simon Dykes, a middle-aged, successful London painter, has lost his sense of perspective in a most disturbing fashion. After a night of routine, pedestrian debauchery, traipsing from toilet to toilet, and imbibing a host of narcotics on the way, Simon wakes up cuddled in his girlfriend's loving arms. Much to his dismay, however, his girlfriend has turned into a chimpanzee. To add insult to injury, the psychiatric crash team sent to deal with him as he flips his lid is also comprised of chimps. Indeed, the entire city is overrun by clever primates, who, when they are not jostling for position, grooming themselves, or mating some of the females, can be found driving Volvos, hanging out on street corners, and running the world. Nonetheless convinced that he is still a human, Simon is confined to the emergency psychiatric ward of Charing Cross Hospital, where he becomes the patient of Dr. Zack Busner, clinical psychologist, medical doctor, anti-psychiatrist, and former television personality—an expert at the height of his reign as alpha male. As Busner attempts to convince him that “everyone who is fully sentient in this world are chimpanzees,” Simon struggles with the horrifying delusion that he is really a human trapped in a chimp's body. Written with the same brilliant satiric wit that has distinguished Self's earlier fiction, *Great Apes* is a hilarious, often disturbing, and absolutely original take on man's place in the evolutionary chain. In a strange and twisted tale that recalls Jonathan Swift and Franz Kafka's *Metamorphosis*, Will Self's comic genius is impossible to ignore.

**The Birth of Purgatory** Jacques Le Goff 1986-12-15 Noting that the doctrine of Purgatory does not appear in the Latin theology of the West before the late twelfth century, the author identifies the profound social and intellectual changes which caused its widespread acceptance.

*Partisan Diary* Ada Gobetti 2014 Ada Gobetti's *Partisan Diary* is both diary and memoir. From the German entry into Turin on 10 September 1943 to the liberation of the city on 28 April 1945, Gobetti

recorded an almost daily account of events, sentiments, and personalities, in a cryptic English only she could understand. Italian senator and philosopher Benedetto Croce encouraged Ada to convert her notes into a book. Published by the Italian publisher Giulio Einaudi in 1956, it won the Premio Prato, an annual prize for a work inspired by the Italian Resistance (Resistenza). From a political and military point of view, the Partisan Diary provides firsthand knowledge of how the partisans in Piedmont fought, what obstacles they encountered, and who joined the struggle against the Nazis and the Fascists. The mountainous terrain and long winters of the Alpine regions (the site of many of their battles) and the ever-present threat of reprisals by German occupiers and their fascist partners exacerbated problems of organization among the various partisan groups. So arduous was their fight, that key military events--Italy's declaration of war on Germany, the fall of Rome, and the Allied landings on D-Day --appear in the diary as remote and almost unrelated incidents. Ada Gobetti writes of the heartbreak of mothers who lost their sons or watched them leave on dangerous missions of sabotage, relating it to worries about her own son Paolo. She reflects on the relationship between anti-fascist thought of the 1920s, in particular the ideas of her husband, Piero Gobetti, and the Italian resistance movement (Resistenza) in which she and her son were participating. While the Resistenza represented a culmination of more than twenty years of anti-fascist activity for Ada, it also helped illuminate the exceptional talents, needs, and rights of Italian women, more than one hundred thousand of whom participated.

Obsolete Objects in the Literary Imagination Francesco Orlando 2008-10-01 Translated here into English for the first time is a monumental work of literary history and criticism comparable in scope and achievement to Eric Auerbach's *Mimesis*. Italian critic Francesco Orlando explores Western

literature's obsession with outmoded and nonfunctional objects (ruins, obsolete machinery, broken things, trash, etc.). Combining the insights of psychoanalysis and literary-political history, Orlando traces this obsession to a turning point in history, at the end of eighteenth-century industrialization, when the functional becomes the dominant value of Western culture. Roaming through every genre and much of the history of Western literature, the author identifies distinct categories into which obsolete images can be classified and provides myriad examples. The function of literature, he concludes, is to remind us of what we have lost and what we are losing as we rush toward the future.

Introduction to Medieval History Paolo Delogu 2002-09-26 An introduction to the sources, methods and theories most used by historians, this book explores the origins of the idea of the 'middle ages' and its development in Renaissance and modern European historical discourse, the problem of periodisation and the principal themes of modern historiography.

The Life and Thought of Lev Karsavin Dominic Rubin 2013 "At last, Russia has begun to speak in a truly original voice." So said Anatoly Vaneev, a Soviet dissident who became Karsavin's disciple in the Siberian gulag where the philosopher spent his last two years. The book traces the unusual trajectory of this inspiring voice: Karsavin started his career as Russia's brightest historian of Catholic mysticism; however, his radical methods - which were far ahead of their time - shocked his conservative colleagues. The shock continued when Karsavin turned to philosophy, writing flamboyant and dense essays in a polyphonic style, which both Marxists and religious traditionalists found provocative. There was no let-up after he was expelled by Lenin from Soviet Russia: in exile,

he became a leading theorist in the Eurasian political movement, combining Orthodox theology with a left-wing political orientation. Finally, Karsavin found stability when he was invited to teach history in Lithuania: there he spent twenty years reworking his philosophy, before suffering the German and Soviet invasions of his new homeland, and then deportation and death. Clearing away misunderstandings and putting the work and life in context, this book shows how Karsavin made an original contribution to European philosophy, inter-religious dialogue, Orthodox and Catholic theology, and the understanding of history.

**Historical Atlas of Medieval Music** Vera Minazzi 2020-11-03 Music is rooted in the heart of Western culture. The absence of music from the usual publications of medieval history and history of art of the Middle Ages is understandable, considering the rarity of sources. And yet, throughout the last decades, an intense activity of historico-musicological research has been carried out internationally by a select group of specialized scholars. The ambitious goal of this work is to set medieval music within its historical and cultural context and to provide readers interested in different disciplines with an overall picture of music in the Middle Ages; multi-faceted, enjoyable, yet scientifically rigorous. To achieve this goal, the most prominent scholars of medieval musicology were invited to participate, along with archaeologists, experts of acoustics and architecture, historians and philosophers of medieval thought. The volume offers exceptional iconography and several maps, to accompany the reader in a fascinating journey through a network of places, cultural influences, rituals and themes.

**The Seduction of the Occult and the Rise of the Fantastic Tale** Dorothea E. von Mücke 2003 This book examines the early development of the fantastic tale through the works of of the German romantics Ludwig Tieck, Achim von Arnim, and E. T. A. Hoffmann; the subsequent French

rediscovery of the genre in works by Théophile Gautier and Prosper Mérimée; and Edgar Allan Poe's contributions to the literary form.

**Sacred Hearts** Sarah Dunant 2009 Condemned by sixteenth-century demands for lucrative dowries in order to marry, young Serafina is ripped from an illicit love affair and confined in a Renaissance Italy convent, a situation against which she passionately rebels and reminds the convent's doctor of her own unhappy early years. 200,000 first printing.

Themes of St. Luke John Navone 1970 Of many possible approaches to the study of the Third Gospel, this author has opted for a thematic approach, realizing that certain aspects of Lucan theology will thereby be highlighted at the expense of others. The examination of many distinct themes, despite their frequent overlapping, favours an appreciation of Lucan theology which is more analytic than synthetic. Notwithstanding the analytic emphasis of the thematic approach, the unity of Lucan theology will inevitably appear, inasmuch as all these themes are ultimately intelligible only as variations on the overriding Lucan theme of salvation in Christ. An intelligent reading of the Gospel presupposes an awareness of the individual writer's themes. These themes intersect and illuminate each other. Several themes often occur in the same periscope. The themes of one Gospel will often be found in the others; however, the perspective of the individual writer will inevitably color their treatment. None of the themes treated in this study has been selected on the assumption that it is exclusively Lucan. This study does not aim at an exhaustive treatment of the themes selected. Such treatment might easily require a book for each theme. An attempt has been made to sketch a

sufficiently large number of themes from the third Gospel which as an ensemble might lead to an awareness of their subtle orchestration in the hands of the writer whose theological perspective unifies into a meaningful work of art, intelligence and grace.

**Sadhana** Anthony De Mello 1984-09-01 Christian Exercises in Eastern Form Truly a one-of-a-kind, how-to-do-it book, this small volume responds to a very real hunger for self-awareness and holistic living. It consists of a series of spiritual exercises for entering the contemplative state -- blending psychology, spiritual therapy, and practices from both Eastern and Western traditions. Anthony de Mello offers here an unparalleled approach to inner peace that brings the whole person to prayer -- body and soul, heart and mind, memory and imagination. In forty-seven exercises that teach things such as awareness of physical sensations, stillness, healing of hurtful memories, and consciousness of self and world, de Mello succeeds in helping all who have ever experienced prayer as difficult, dull, or frustrating. The essential key, he notes, is to journey beyond mere thought-forms and discover satisfying new depths in prayer from the heart. This allows for a greater sense of awareness amid silence, and disposes the one who prays to untold riches, spiritual fulfillment, and ultimately, a mystical experience of God-centeredness. Drawing on Scripture, as well as insights from Eastern and Western spiritual masters, the author has a unique appeal that transcends time, culture, and religious background. For many years a bestseller in the English language, Sadhana has now been translated into more than two dozen foreign languages. Readers the world over have eagerly received this sincere spiritual leader, who has led many toward the wealth of insight and spirit that

dwells within them.

Excavating Modernity Joshua Arthurs 2013-09-20 The cultural and material legacies of the Roman Republic and Empire in evidence throughout Rome have made it the "Eternal City." Too often, however, this patrimony has caused Rome to be seen as static and antique, insulated from the transformations of the modern world. In *Excavating Modernity*, Joshua Arthurs dramatically revises this perception, arguing that as both place and idea, Rome was strongly shaped by a radical vision of modernity imposed by Mussolini's regime between the two world wars. Italian Fascism's appropriation of the Roman past—the idea of Rome, or *romanità*—encapsulated the Fascist virtues of discipline, hierarchy, and order; the Fascist "new man" was modeled on the Roman legionary, the epitome of the virile citizen-soldier. This vision of modernity also transcended Italy's borders, with the Roman Empire providing a foundation for Fascism's own vision of Mediterranean domination and a European New Order. At the same time, *romanità* also served as a vocabulary of anxiety about modernity. Fears of population decline, racial degeneration and revolution were mapped onto the

barbarian invasions and the fall of Rome. Offering a critical assessment of romanità and its effects, Arthurs explores the ways in which academics, officials, and ideologues approached Rome not as a site of distant glories but as a blueprint for contemporary life, a source of dynamic values to shape the present and future.

**Plotinus or the Simplicity of Vision** Pierre Hadot 2022-08-22 Since its original publication in France in 1963, Pierre Hadot's lively philosophical portrait of Plotinus remains the preeminent introduction to the man and his thought. Michael Chase's lucid translation—complete with a useful chronology and analytical bibliography—at last makes this book available to the English-speaking world. Hadot carefully examines Plotinus's views on the self, existence, love, virtue, gentleness, and solitude. He shows that Plotinus, like other philosophers of his day, believed that Plato and Aristotle had already articulated the essential truths; for him, the purpose of practicing philosophy was not to profess new truths but to engage in spiritual exercises so as to live philosophically. Seen in this light, Plotinus's counsel against fixation on the body and all earthly matters stemmed not from disgust or fear, but rather from his awareness of the negative effect that bodily preoccupation and material concern could have on spiritual exercises.

**Turin 1564-1680** Martha D. Pollak 1991-10-08 "The story of Turin's transformation is well told. . . . Pollak's account of the financial machinations of the Dukes in their efforts to acquire properties, and to pay for fortifications by taxing betterment on enclosed land, is one of the best parts of the book."—Simon Pepper, *Times Literary Supplement*

*The Periodic Table* Primo Levi 1996-10-01 *The Periodic Table* is largely a memoir of the years before and after Primo Levi's transportation from his native Italy to Auschwitz as an anti-Facist partisan and a Jew. It recounts, in clear, precise, unfailingly beautiful prose, the story of the Piedmontese

Jewish community from which Levi came, of his years as a student and young chemist at the inception of the Second World War, and of his investigations into the nature of the material world. As such, it provides crucial links and backgrounds, both personal and intellectual, in the tremendous project of remembrance that is Levi's gift to posterity. But far from being a prologue to his experience of the Holocaust, Levi's masterpiece represents his most impassioned response to the events that engulfed him. The Periodic Table celebrates the pleasures of love and friendship and the search for meaning, and stands as a monument to those things in us that are capable of resisting and enduring in the face of tyranny.

*The Philosophy of the Daodejing* Hans-Georg Moeller 2006-05-02 For centuries, the ancient Chinese philosophical text the Daodejing (Tao Te Ching) has fascinated and frustrated its readers. While it offers a wealth of rich philosophical insights concerning the cultivation of one's body and attaining one's proper place within nature and the cosmos, its teachings and structure can be enigmatic and obscure. Hans-Georg Moeller presents a clear and coherent description and analysis of this vaguely understood Chinese classic. He explores the recurring images and ideas that shape the work and offers a variety of useful approaches to understanding and appreciating this canonical text. Moeller expounds on the core philosophical issues addressed in the Daodejing, clarifying such crucial concepts as Yin and Yang and Dao and De. He explains its teachings on a variety of subjects, including sexuality, ethics, desire, cosmology, human nature, the emotions, time, death, and the death penalty. The Daodejing also offers a distinctive ideal of social order and political leadership and presents a philosophy of war and peace. An illuminating exploration, *The Daodejing* is an interesting foil to the philosophical outlook of Western humanism and contains surprising parallels between its teachings and nontraditional contemporary philosophies.

After Words Elizabeth Leake 2011-01-01 After Words investigates how the suicide of an author informs critical interpretations of the author's works. Suicide itself is a form of authorship as well as a revision, both on the part of the author, who has written his or her final scene and revised the 'natural' course of his or her life, and on the part of the reader, who must make sense of this final act of writing. Elizabeth Leake focuses on twentieth-century Italian writers Guido Mor-selli, Amelia Rosselli, Cesare Pavese, and Primo Levi, examining personal correspondence, diaries, and obituaries along with popular and academic commemorative writings to elucidate the ramifications of the authors' suicides for their readership. She argues that authorial suicide points to the limitations of those critical stances that exclude the author from the practice of reading. In this innovative and accessible assessment of some of the key issues of authorship, Leake shows that in the aftermath of suicide, an author's life and death themselves become texts to be read.
