**Mnemonic Solidarity** Jie-Hyun Lim 2021-02-10 This open access book provides a concise introduction to a critical development in memory studies. A global memory formation has emerged since the 1990s, in which memories of traumatic histories in different parts of the world, often articulated in the terms established by Holocaust memory, have become entangled, reconciled, contested, conflicted and negotiated across borders. As historical actors and events across time and space become connected in new ways, new grounds for contest and competition arise; claims to the past that appeared de-territorialized in the global memory formation become re-territorialized – deployed in the service of nationalist projects. This poses challenges to scholarship but also to practice: How can we ensure that shared or comparable memories of past injustice continue to be grounds for solidarity between different memory communities? In chapters focusing on Europe, East Asia and Africa, five scholars respond to these challenges from a range of disciplinary perspectives in the humanities.

[Hanguk Hip Hop](#) Myoung-Sun Song 2019-04-25 How has Hanguk (South Korean) hip hop developed over the last two decades as a musical, cultural, and artistic entity? How is hip hop understood within historical, sociocultural, and economic matrices of Korean society? How is hip hop represented in Korean media and popular culture? This book utilizes ethnographic methods, including fieldwork research and life timeline interviews with fifty-three influential hip hop artists, in order to answer these questions. It explores the nuanced meaning of hip hop in South Korea,

outlining the local, global, and (trans)national flows of musical and cultural exchanges. Throughout the chapters, Korean hip hop is examined through the notion of buran—personal and societal anxiety or uncertainty—and how it manifests in the dimensions of space and place, economy, cultural production, and gender. Ultimately, buran serves as a metaphoric state for Hanguk hip hop in that it continuously evolves within the conditions of Korean society.

*Megacity Seoul* Yu-Min Joo 2019-01-09 In Asia, there are a growing number of gigantic megacities, accompanied by a series of speculative and extravagant megaprojects. Amid the fast-paced urban and development challenges, many Asian governments have been searching for replicable and inspirational cases in Asia. South Korea and its capital city, Seoul, are among frequently referenced models. However, South Korea's "economic miracle" in the late twentieth century has been mostly studied through an economic policy lens. This book revisits the development of South Korea by looking at its urban dimension and exploring the city of Seoul as a developmental megaproject. Offering an alternative to the focus on economic policies when it comes to explaining South Korea's development successes, Joo looks at the urbanization that took place under the guidance of the

strong developmental state. She provides empirical evidence of the "property state" at work, both complementing and supporting the developmental state. She also analyzes why and how Seoul was able to emerge as an important Asian global city and a global front-runner in terms of ambitious and pioneering urban investments, despite its relatively recent history marked by massive slums and urban poverty. This book provides an analytical framework for studying South Korea's modern development under capitalism as a precursor to East Asian urbanism and development. It paints a comprehensive story of how cities have been politically and economically important to Korea's development experience and are increasingly becoming a new mode of development.

**Korea's Changing Roles in Southeast Asia** David I Steinberg 2010 The Republic of Korea's global expansion has been mirrored by its interest and presence in Southeast Asia. From trade, investment, aid, tourism, to the cultural "Korean wave", its various roles have blossomed and its influence has grown. The ASEAN region has not only affected Korean foreign policy, but also many aspects of Korean life, from the migration of Southeast Asian industrial workers to marriages and the curricula of academic institutions. This volume explores various aspects of these new relationships and their importance to all concerned parties. It brings together a group of specialists who have documented the growing interlocking roles between Korea and ASEAN and its constituent states in detail. These developments have profound implications for relations in the East and Southeast Asian regions, and for the world as a whole.

*The Palgrave Handbook of Mass Dictatorship* Paul Corner 2016-09-22 This book offers a fresh and original approach to the study of one of the dominant features of the twentieth century. Adopting a truly global approach to the realities of modern dictatorship, this handbook examines the multiple ways in which dictatorship functions - both for the rulers and for the ruled - and draws on the expertise of more than twenty five distinguished contributors coming from European, American, and Asian universities. While confronting the immense complexities of repression and popular response under dictatorship, the volume also poses a series of wide-ranging questions about the political organization of present-day mass society.

*Advancing the Global Agenda for Human Rights, Vulnerable Populations, and Environmental Sustainability* Mary V. Alfred 2021-10-01 For over 70 years, the United Nations has worked to advance human conditions globally through its historic agenda for a more peaceful, prosperous, and just world. Through the work of the General Assembly and other programs like the UNESCO World Conferences on Adult Education, the organization has taken a leading role in bringing world leaders together to dialogue on world issues and to set agendas for advancing social and economic justice among and within the regions of the world. The underlying themes of the United Nations' agenda over the years have been world peace, economic justice, addressing the needs of the world's most

vulnerable populations, and protecting the environment. We draw from the two last two declarations from which the Millennium Development Goals (September 2000) and the Sustainable Development Goals (September 2015) were adopted by world leaders with a focus on addressing the needs of the most vulnerable populations. In this declaration, world leaders committed to uphold the long-standing principles of the organization and to combat extreme poverty, hunger, disease, illiteracy, environmental degradation and discrimination and violence against women. The overall objective of the book is to highlight the conditions of vulnerable populations from various contexts globally, and the role adult and higher education can play (and is playing) in advancing the United Nations agenda of social and economic justice and environmental sustainability. Adult education, through research, teaching, and service engagements is contributing to this ongoing effort but as many scholars have noted, our work remains invisible and undocumented. Therefore, this book highlights adult education's critical partnership in addressing these global issues. It will also begin to fill the void that exists in adult education literature on internationalization of the field.

**Translations in Korea** Wook-Dong Kim 2019-03-28 This book explores practical and theoretical approaches to translation in Korea from the 16th century onwards, examining a variety of

translations done in Korea from a diachronic perspective. Offering a discussion of the methodology for translating the Xiaoxue (Lesser or Elementary Learning), a primary textbook for Confucianism in China and other East Asian countries, the book considers the problems involving Korean Bible translation in general and the Term Question in particular. It examines James Scarth Gale, an early Canadian Protestant missionary to Korea, as one of the language's remarkable translators. The book additionally compares three English versions of the Korean Declaration of Independence of 1919, arguing that the significant differences between them are due both to the translators' political vision for an independent Korea as well as to their careers and Weltanschauungen. The book concludes with a detailed analysis of Deborah Smith's English translation of 'The Vegetarian' by Han Kang, which won the 2016 Man Booker International Prize for Fiction.

Got It!, Level 2 Claire Thacker 2010-11-04 Got it! is a course which is comprehensive and innovative in its range of resources, but also offers support and flexibility for the teacher. How does it achieve this? By presenting grammar through dialogues or texts and following up with more detailed analysis, students are able to check their understanding of meaning and context. They are encouraged to try out new structures and are given opportunities to explore the meaning and usage of new language before it is presented and practised more formally. This allows them to discover the language intuitively for themselves and this sense of achievement helps to motivate them. With a strong emphasis on dialogue work and personalization, students are able to understand how the language can work for them. Targeted skills lessons develop this and build their competence further. The outstanding range of components means that every lesson can be varied and exciting. Whether you prefer using print or digital, or a combination of the two, all the resources are at your fingertips - giving you maximum support and flexibility. Maintaining motivation is always a challenge with

teenagers, so the topics for each unit have been carefully chosen to help them become culturally aware. In addition, the broad range of issues covered develops their understanding of values.

**A Korean Scholar's Rude Awakening in Qing China** Pak Chega 2019-07-31 Two years after Adam Smith's *Wealth of Nations* was published in 1776, Pak Chega's (1750-1805) *Discourse on Northern Learning* appeared on the opposite corner of the globe. Both books presented notions of wealth and the economy for critical review: the former caused a stir across Europe, the latter influenced only a modest group of Chosŏn (1392-1897) Korea scholars and other intellectuals. Nevertheless, the ideas of both thinkers closely reflected the spirit of their times and helped define certain schools of thought—in the case of Pak, *Northern Learning* (Pukhak), which disparaged the Chosŏn Neo-Confucian state ideology as inert and ineffective. Years of humiliation and resentment against the conquering Manchus blinded many Korean elites to the scientific and technological advances made in Qing China (1644-1911). They despised its rulers as barbarians and begrudged Qing China's status as their suzerain state. But Pak saw Korea's northern neighbor as a model of economic and social reform. He and like-minded progressives discussed and corroborated views about the superiority of China's civilization. After traveling to Beijing in 1776, Pak wrote *Discourse on Northern Learning*, in which he favorably introduced many aspects of China's economy and

culture. By comparison, he argued, Korea's economy was depressed, the result of inadequate government policies and the selfishness of a privileged upper class. He called for drastic reforms in agriculture and industry and for opening the country to international trade. In a series of short essays, Pak gives us rare insights into life on the ground in late eighteenth-century Korea, and in the many details he supplies on Chinese farming, trade, and other commercial activities, his work provides a window onto everyday life in Qing China. Students and specialists of Korean history, particularly social reform movements, and Chosŏn-Qing relations will welcome this new translation.

*Performance Studies and Negative Epistemology* Claire Maria Chambers 2017-10-12 This book explores the intersection between apophaticism - negative theology - and performance. While apophaticism in literature and critical theory may have had its heyday in the heady debates about negative theology and deconstruction in the 1990s, negative ways of knowing and speaking have continued to structure conversations in theatre and performance studies around issues of embodiment, the non- and post-human, objects, archives, the ethics of otherness in intercultural research, and the unreadable and inaccessible in the work of minority artists. A great part of the history of apophaticism lies in mystic literature. With the rise of the New Age movement, which claimed historical mysticism as part of its genealogy, apophaticism has often been sidelined as spirituality rather than serious study. This book argues that the apophatic continues to exert a strong influence on the discourse and culture of Western literature and especially performance, and that by reassessing this ancient form of negative epistemology, artists, scholars, students, and teachers alike can more deeply engage forms of unknowing through what cannot be said and cannot be represented in language, on the stage, and in every aspect of social life.
