Homilies on Isaiah Origen 2021 Hans Urs von Balthasar places Origen of Alexandria “in rank . . . beside Augustine and Thomas” in “importance for the history of Christian thought,” explaining that his “brilliance” has captivated theologians throughout history (Spirit and Fire, 1984, 1). This brilliance shines forth in his nine extant homilies on Isaiah, in which he employs his theology of the Trinity and Christ to exhort his audience to play their crucial role in salvation history. Origen reads Isaiah’s vision of the Lord and two seraphim in Isaiah 6 allegorically as representing the Trinity, and this theme runs throughout the nine homilies. His representation of the seraphim as the Son and Holy Spirit around the throne of the Father brought early accusations that Origen was a proto-Arian subordinationist, followed by a pointed condemnation by Emperor Justinian in 553. These homilies, originally delivered between 245 and 248, are extant only in a fourth-century Latin translation. Though St. Jerome, likely because of these controversies, does not identify himself as the Latin translator, the evidence overwhelmingly points to his pen, and his reliability in conveying Origen’s authentic meaning is well documented. If one sets aside the questionable charges of subordinationism, these homilies, expounding on passages from Judges 6-10, come alive with Origen’s legacy of presenting Christ as the central figure of the soul’s ascent to God. Reading allegorically the two seraphim to be Jesus and the Holy Spirit around the Father’s throne, Origen draws a picture of the Trinity as a tightly knit whole in which the Son and the Holy Spirit eternally sing the Trisagion (“Holy, holy, holy”) to each other and the Father about the divine truths of God’s nature, allowing the part of their song that conveys the “middle things” of salvation history to be heard by creation. The “second seraph” is the Son, or Jesus, who descends holding a hot coal, or Scripture, from the altar of the throne, with which he cleanses Isaiah’s lips, or the believer’s soul. Origen employs his signature exegetical method of allegory and typology through the lens of the threefold meaning of Scripture to emphasize to his hearers that Christ is the deliverer, the content, and the reward of the healing Word. He repeatedly assures them that those who submit to Scripture will enter into salvation history’s cycle of cleansing from sin, growth in virtue, and ever-deepening knowledge of God. As a result, they will become like Christ and thus will be prepared to join the Trinity for all eternity at the heavenly wedding feast.

The Inner Kingdom Kallistos Ware 2000 This work is a revised and expanded version of a book that has appeared in several languages. It focuses on themes central to Eastern Christian worship and spiritual life. The first three chapters provide insights on death, bereavement and resurrection in Christ; and repentance. Chapters four and five invite the reader into the world of desert ascetics and hesychast monks. Combining scholarly rigor with practical counsels on prayer, Bishop Ware makes the wealth of this tradition accessible to today’s Christians. The next three chapters concern personal vocation, martyrdom, spiritual fatherhood and the strange path of the fool for Christ’s sake. There follows brief essays on the theology of time and the spiritual purposes of higher education. The final chapters is a challenging discussion of Origen and SS Gregory of Nyssa, Isaac the Syrian and Silouan the Athonite, and in conversation with them asks, dare we hope for the salvation of all.

Purity of Heart in Early Ascetic and Monastic Literature Harriet Luckman 1999 These essays honor the memory of Juana Raasch, O.S.B. (1927-1974), one of the first Benedictine women in America to consider the subject of early monasticism by returning to the texts and sources of the early ascetical movements. A student of classical languages as well as monasticism, she researched in particular the subject of "purity of heart" in early Christian texts. Her work is a valuable resource for those interested in monastic movements or in patristic studies.

Living and Dying in England 1100-1540 : The Monastic Experience Barbara Harvey 1993-09-02 This fascinating account of daily life in Westminster Abbey, one of medieval England's most important monastic communities is also a broad exploration of some major themes in the social history of the Middle Ages, by one of its most distinguished historians. - ;This is an authoritative account of daily life in Westminster Abbey, one of medieval England's greatest monastic communities. It is also a wide-ranging exploration of some major themes in the social history of the Middle Ages and early sixteenth century, by one of its most distinguished historians. Barbara Harvey exploits the exceptionally rich archives of the Benedictine foundation of Westminster to the full, offering numerous vivid insights into the lives of the Westminster monks, their dependants, and their benefactors. She examines the charitable practices of the monks, their food and drink, their illnesses and their deaths, the number and conditions of employment of their servants, and their controversial practice of granting corrodies (pensions made up in large measure of benefits in kind). All these topics Miss Harvey considers in the context both of religious institutions in general, and of the secular world. Full of colour and interest, *Living and Dying in England* is an original and highly readable contribution to medieval history, and that of the early sixteenth century. - ;By one of the greatest authorities on the subject -

Separate But Equal James France 2012 The institution of the lay brotherhood was not original to the Cistercians, but they developed it to its fullest extent. Although lay, the conversi were under the same vows as monks and represented a new form of religious life. While monks were bound to the recitation of the Divine Office, the lay brothers were dedicated to a life of toil and acted as the monks' auxiliaries. Their contribution to the spiritual and material life of the Cistercian Order was immense. By consideration of tales from the exemplum literature, evidence from general chapter statutes, and information on the architectural provisions made for the lay brothers in the abbey and on the outlying granges, this book puts flesh on the bare bones of a life directed by their own Usages. The book is richly illustrated with images from manuscripts, stained glass, and architectural sculpture.

Europe and Empire Massimo Cacciari 2016-01-04 The European Union and the single currency have given Europe more stability than it has known in the past thousand years, yet Europe seems to be in perpetual crisis about its global role. The many European empires are now reduced to a multiplicity of ethnicities, traditions, and civilizations. Europe will never be One, but to survive as a union it will have to become a federation of "islands" both distinct and connected. Though drawing on philosophers of Europe's past, Cacciari calls not to resist Europe's sunset but to embrace it. Europe will have to open up to the possibility that in few generations new exiles and an unpredictable cultural hybridism will again change all we know about the European legacy. Though scarcely alive in today's politics, the political unity of Europe is still a necessity, however impossible it seems to achieve.

The Late Middle Ages Raintree Editorial S Staff 1990 Examines European life between the years 1000 and 1300 focusing on the growth of cities, the development of a money-based economy, and the emergence of a Europe newly unified by a shared religion and increased trade.

Western Monasticism Ante Litteram Hendrik W. Dey 2011 Space has always played a crucial part in defining the place that monks and nuns occupy in the world. Even during the first centuries of the monastic phenomenon, when the possible varieties of monastic practice were nearly infinite, there was a common thread in the need to differentiate the monk from the rest: whatever else they were supposed to be, monks were beings apart, unique, in some sense separate from the mainstream. The physical contours of monastic topographies, natural and constructed, are thus fundamental to an understanding of how early monks went about defining the parameters of their everyday lives, their modes of religious observance, and their interactions with the larger world around them. The group of eminent historians and archaeologists present at the American Academy in Rome in March, 2007 for the conference 'Western monasticism ante litteram. The spaces of early monastic observance, ' whose contributions comprise the bulk of this volume, have sought to reconsider the theory, the practice and above all the spaces of early monasticism in the West, in the hope of creating a more complete picture of that seminal period, from the fourth century until the ninth, when notions of what it meant to be a monk were as numerous as they were varied and (often) conflicting

The Clash of Gods Thomas F. Mathews 2022-09-13 Between the third and sixth centuries, the ancient gods, goddesses, and heroes who had populated the imagination of humankind for a millennium were replaced by a new imagery of Christ and his saints. Thomas Mathews explores the many different, often surprising, artistic images and religious interpretations of Christ during this period. He challenges the accepted theory of the "Emperor Mystique," which, interpreting Christ as king, derives the vocabulary of Christian art from the propagandistic imagery of the Roman emperor. This revised edition contains a new preface by the author and a new chapter on the origin and development of icons in private domestic cult.

De Spiritu Sancto (of the Holy Spirit) St. Basil St. Basil the Great 2015-12-06 Basil of Caesarea, also called Saint Basil the Great, (330 -379) was the bishop of Caesarea Mazaca in Cappadocia, Asia Minor (modern-day Kayseri, Turkey). St. Basil was born into the wealthy family of Basil the Elder, a

famous rhetor, and Emmelia of Caesarea. His parents were known for their piety, and his maternal grandfather was a Christian martyr, executed in the years prior to Constantine I's conversion. The principal theological writings of Basil are his *De Spiritu Sancto* (On the Holy Spirit), a lucid and edifying appeal to Scripture and early Christian tradition (to prove the divinity of the Holy Spirit), and his *Refutation of the Apology of the Impious Eunomius*, written in 363 or 364, three books against Eunomius of Cyzicus, the chief exponent of Anomoian Arianism. The first three books of the *Refutation* are his work; the fourth and fifth books that are usually included do not belong to Basil, or to Apollinaris of Laodicea, but probably to Didymus "the Blind" of Alexandria.

I centri minori italiani nel tardo Medioevo Centro di studi sulla civiltà del tardo medioevo (San Miniato, Italy). Convegno 2018-01-01 In the late Middle Ages, Italy was one of the most urbanized areas in Europe. Its coasts, the Apennines, the perialpine area and the plains were all home to a large number of smaller towns, lands, villages, castra, and 'quasi cites'. These settlements were all very diverse in terms of demographic consistency, social articulation and economic dynamism, but together they constituted a characteristic and constitutive element of the Italian historical identity: an 'original personality'. This volume, thanks to some framing essays and a mapping of individual cases involving most of the northern, central and southern regions, aims at investigating the active research on this topic over the last thirty to forty years.

The Grand Inquisitor Fyodor Dostoevsky 2019-02-08 "The Grand Inquisitor" is one of the 'books' from "The Brothers Karamazov", Fyodor Dostoevsky's 800-page magnum opus. His largest work, it concerns the stories of the novice Alyosha Karamazov, the non-believer Ivan Karamazov, and the soldier Dmitri Karamazov. "The Grand Inquisitor" is the most famous chapter of this masterpiece, presented as a parable told by Ivan to Alyosha about Christ's Second Coming in Seville and subsequent imprisonment by an old Grand Inquisitor. Fyodor Mikhailovich Dostoevsky (1821 - 1881) was a Russian novelist, essayist, short story writer, journalist, and philosopher. His literature examines human psychology during the turbulent social, spiritual and political atmosphere of 19th-century Russia, and he is considered one of the greatest psychologists in world literature. A prolific writer, Dostoevsky produced 11 novels, three novellas, 17 short stories and numerous other works. This volume will appeal to lovers of the short story form, and it is not to be missed by fans and collectors of Dostoevsky's marvellous work. Nuns and Nunneries in Renaissance Florence Sharon T. Strocchia 2009-10-19 An analysis of Renaissance Florentine convents and their influence on the city's social, economic, and political history. The 15th century was a time of dramatic and decisive change for nuns and nunneries in Florence. That century saw the city's convents evolve from small, semiautonomous communities to large civic institutions. By 1552, roughly one in eight Florentine women lived in a religious community. Historian Sharon T. Strocchia analyzes this stunning growth of female monasticism, revealing the important roles these women and institutions played in the social, economic, and political history of Renaissance Florence. It became common practice during this time for unmarried women in elite society to enter convents. This unprecedented concentration of highly educated and

well-connected women transformed convents into sites of great patronage and social and political influence. As their economic influence also grew, convents found new ways of supporting themselves; they established schools, produced manuscripts, and manufactured textiles. Using previously untapped archival materials, Strocchia shows how convents shaped one of the principal cities of Renaissance Europe. She demonstrates the importance of nuns and nunneries to the booming Florentine textile industry and shows the contributions that ordinary nuns made to Florentine life in their roles as scribes, stewards, artisans, teachers, and community leaders. In doing so, Strocchia argues that the ideals and institutions that defined Florence were influenced in great part by the city's powerful female monastics. Winner, Helen and Howard R. Marraro Prize, American Catholic Historical Association "Strocchia examines the complex interrelationships between Florentine nuns and the laity, the secular government, and the religious hierarchy. The author skillfully analyzes extensive archival and printed sources." —Choice

Qumran Studies Chaim Rabin 1976 This study tests the alternative to the theory that the Dead Sea Scrolls emanate from the Essene community. It advances the theory that the Qumran community continues the haburah of the first century B.C., and that it is closer in custom to the old haburah than is the Rabbinic community.

The Cinema of Me Alisa Lebow 2012-05-29 When a filmmaker makes a film with herself as a subject, she is already divided as both the subject matter of the film and the subject making the film. The two senses of the word are immediately in play - the matter and the maker—thus the two ways of being subjectified as both subject and object. Subjectivity finds its filmic expression, not surprisingly, in very personal ways, yet it is nonetheless shaped by and in relation to collective expressions of identity that can transform the cinema of 'me' into the cinema of 'we'. Leading scholars and practitioners of first-person film are brought together in this groundbreaking collection to consider the theoretical, ideological, and aesthetic challenges wrought by this form of filmmaking in its diverse cultural, geographical, and political contexts.

Turkish Art and Architecture Giovanni Curatola 2010-11-02 This vibrantly illustrated volume

chronicles nearly a millennium of Islamic art and architecture in Turkey. Illustrated with some 250 attractive and well-chosen color photographs, Turkish Art and Architecture is fascinating reading for anyone with an interest in Turkey, and an essential reference for any student of Islamic art and architecture. The Anatolian peninsula, one of the oldest seats of civilization, has been ruled by a succession of great powers, including the Romans and their successors in the East, the Byzantines. Its Islamic era began in 1071, when the Seljuk Turks, nomads from Central Asia who had already taken control of Persia, defeated the Byzantine army at Manzikert and moved west, creating a new sultanate in Anatolia. The Seljuks were eventually succeeded in this region by the Ottoman Turks, who crossed the Bosphorus to conquer an exhausted Constantinople in 1453, and went on to extend their power far beyond the borders of modern Turkey, establishing an empire that endured until the early twentieth century. Ruling over a land that had always been at the crossroads of east and west, these Islamic dynasties developed a cosmopolitan art and architecture. As art historian Giovanni Curatola demonstrates in this insightful new book, they combined elements of the prestigious Persian style and memories of their nomadic past with local Mediterranean traditions, and also adopted local building materials, such as stone and wood. Curatola introduces us first to the new types of buildings introduced by the Seljuks?like the caravansary and the türbe, or mausoleum?and then to the sophisticated architectural achievements of the Ottomans, which culminated in the great domed mosques constructed by the master builder Mimar Sinan (d. 1588). He also traces the history of the decorative arts in Turkey, which included lavishly ornamented carpets, manuscripts, armor, and ceramics.
