Any similarities between masters and dogs are strictly intentional. Roy & Al is an uproarious vision of contemporary gay life through the eyes of man's best friend.

The Rejection of Consequentialism Samuel Scheffler 1994-08-11 In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

She and Her Cat Makoto Shinkai 2022-11-22 For fans of Mieko Kawakami's Breasts and Eggs and Murata Sayaka's Earthlings, this Japanese bestseller from renowned anime director Makoto Shinkai features four inspirational and heartwarming vignettes following women and their cats in their quests for love and connection. Lying alone on the edge of the sidewalk in an abandoned cardboard box, a nameless narrator contemplates the indifferent world around him. With his mother long gone, his only company is the sound of the nearby train. Just as he fears that the end is near, a young woman peers down at him, this fateful encounter changing their lives forever. So begins the first story in She and Her Cat, a collection of four interrelated, stream-of-conscious short stories in which four women and their feline companions explore the frailty of life, the pain of isolation, and the limits of communication. With clever narration alternating between the cats and their owners, She and Her Cat offers a unique and sly commentary on human foibles and our desire for connection.
