Refiguring American Film Genres Nick Browne 1998-04-22 This collection of essays by leading American film scholars charts a whole new territory in genre film criticism. Rather than assuming that genres are self-evident categories, the contributors offer innovative ways to think about types of films, and patterns within films, in a historical context. Challenging familiar attitudes, the essays offer new conceptual frameworks and a fresh look at how popular culture functions in American society. The range of essays is exceptional, from David J. Russell's insights into the horror genre to Carol J. Clover's provocative take on "trial films" to Leo Braudy's argument for the subject of nature as a genre. Also included are essays on melodrama, race, film noir, and the industrial context of genre production. The contributors confront the poststructuralist critique of genre head-on; together they are certain to shape future debates concerning the viability and vitality of genre in studying American cinema.

The Psychology of Marxian Socialism Henry de Man 2020-02-18 This classic work on the psychology of socialism carries for this edition a slightly refurbished title. By calling it The Psychology of Marxian Socialism, the work is sharply distinguished from an earlier work of the same title (written at a much earlier time) by Gustave LeBon. This book was written in the post-Bolshevik revolutionary era, at the height of the Weimar democracy in Germany; LeBon's represents a fin de siècle effort, reflecting earlier concerns in socialist theory. De Man's work derives its strength from a close and hard look at how socialism operated in one country. It is probably one of the greatest such efforts in the post-World War I period.

Adolf Loos: Works and Projects 2020-11-10 The must-have monograph on one of modern architecture's most influential figures, long a rarity and now available in an expanded and updated edition Viennese architect Adolf Loos was influential among his fellow early modernists not only for his radical designs but for his controversial ideology and famously militant opposition to ornament. Loos approached architecture from a primarily utilitarian perspective: he believed that interiors should be designed according to function, taking full advantage of the size and space of a building. In this definitive monograph, a true labor of love, architect Ralf Bock seeks to reveal the sensuality of Loos' interior designs, focusing on his sincere belief in the evolution of tradition. The book explores 30 existing projects from Loos' oeuvre, documented in 160 full-color images by the celebrated French photographer Phillippe Ruault. Along with materials from the Loos archive at the Albertina Museum Vienna, these photographs and Bock's commentary provide a new interpretation of Loos' work and encourage the reintroduction of his ideology into the contemporary architectural conversation. Profiles of Loos' original clients and interviews with people who currently inhabit his designs round out this unique publication. Adolf Loos(1870-1933) was a radical figure in his time: his critique of the Vienna Secession and advocacy for utilitarian design greatly influenced the less ornamental approaches to architecture among subsequent modernist designers. He studied briefly at Dresden University of Technology and delivered his famous lecture "Ornament and Crime" at the Academic Association for Literature and Music in 1910. His most recognizable building is the multipurpose Looshaus at Michaelerplatz in Vienna, characterized by the numerous window boxes on the building's façade.

Separate Rooms Pier Vittorio Tondelli 2004 Leo is an Italian writer in his thirties. Thomas, his German lover, is dead. On a plane to Munich, Thomas's home town, Leo slips into a reverie of their meeting and life in Paris, nights in Thomas's flat in Montmartre and a desperate, drug-induced flight through the forests of northern France that spells the end for Leo and Thomas' languid, erotic life together. Leo travels to find anonymity. Structured in three musical movements, *Separate Rooms* is a story of ideal love, broken by absence and separation. When Thomas was alive, he and Leo had separate rooms in order to preserve the urgency of their passion. Now, Leo faces solitude, the impossible striving of memory to recreate life and the hostility of a prejudiced world. *Separate Rooms*, Tondelli's last book, is a powerful novel of the strength of love and the trauma of death.

Oliver Cromwell and the Rule of the Puritans in England C H Firth 2020-10-31 Oliver Cromwell was born in Huntingdon, England, 25th of April, 1599. He gained his education from a Puritan minister before attending Cambridge University. Cromwell, as a young man, experienced a religious awakening and this motivated him to fight for Protestant rights in England. In 1628, Cromwell entered the House of Commons. In 1642, the English Civil War broke out and Cromwell, several times, defeated the King's men. After which, he was promoted to Lieutenant-General. The civil war saw the rise of the Parliament Army. This force defeated the King and his supporters, the Royalists. Cromwell consolidated this armed force and created the New Model Army. After the execution of Charles I and monarchical power, Cromwell was propelled to power and named the first chairman of the new Council of State. In 1653, Cromwell was named Lord Protector of the British Republic. This office gave him full power. This manuscript explores

in great detail the life of Oliver Cromwell, the fruits of his labour, and the impact he had on English affairs.

We Want Everything Nanni Balestrini 2022-04-12 The explosive novel of Italy's revolutionary 1969 It was 1969, and temperatures were rising across the factories of the north as workers demanded better pay and conditions. Soon, discontent would erupt in what became known as Italy's Hot Autumn. A young worker from the impoverished south arrives at Fiat's Mirafiori factory in Turin, where his darker complexion begins to fade from the fourteen-hour workdays in sweltering industrial heat. His bosses try to withhold his wages. Our cynical, dry-witted narrator will not bend to their will. "I want everything, everything that's owed to me," he tells them. "Nothing more and nothing less, because you don't mess with me." Around him, students are holding secret meetings and union workers begin halting work on the assembly lines, crippling the Mirafiori factory with months of continuous strikes. Before long, barricades line the roads, tear gas wafts into private homes, and the slogan "We Want Everything" is ringing through the streets. Wrought in spare and measured prose, Balestrini's novel depicts an explosive uprising. Introduced by Rachel Kushner, the author of the best-selling *The Flamethrowers*, *We Want Everything* is the incendiary fictional account of events that led to a decade of revolt.

Feminism & Autobiography Tess Coslett 2002-01-04 Featuring essays by leading feminist scholars from a variety of disciplines, this key text explores the latest developments in autobiographical studies. The collection is structured around the inter-linked concepts of genre, inter-subjectivity and memory. Whilst exemplifying the very different levels of autobiographical activity going on in feminist studies, the contributions chart a movement from autobiography as genre to autobiography as cultural practice, and from the analysis of autobiographical texts to a preoccupation with autobiography as method.

The Abolition of Marriage Maggie Gallagher 1996-03 This emotionally charged book shows the critical condition the institution of marriage is in, and the devastating effects a broken marriage has on everyone it touches. Gallagher also shows how government--by making marriage legally and morally indistinguishable from cohabitation and by eliminating many legal and financial benefits previously gained through marriage--has greatly contributed to its decline.

The Year of the Death of Ricardo Reis José Saramago 1992-04-27 From the Nobel Prize-winning author: “A capacious, funny, threatening novel” of wandering souls and political upheaval in 1930s Portugal (The New York Times Book Review). The year is 1936, and the dictator António de Oliveira Salazar is establishing himself in Portugal, edging his country toward civil war. At the same time, Dr. Ricardo Reis has returned home to Lisbon after a long sojourn in Brazil. What’s brought him back is word that the great poet, Fernando Pessoa, has died. With no intention of resuming his practice, Reis now dabbles in his own poetry, wastes his days strolling the boulevards and back streets, engages in affairs with two different women—and is followed through each excursion by Pessoa’s ghost. As a fascist revolution roils, and as Reis’s path intersects with three relative strangers—two living, one dead—Reis may finally discover the reality of his own chimerical existence. “A rich story about human relationships and dreams.”—The New York Times Called “a magnificent tour-de-force, perhaps one of the best novels published in Europe since World War II” (The Bloomsbury Review) and “altogether remarkable” (The Wall Street Journal), *The Year of the Death of Ricardo Reis* is a PEN Award winner and stands among the finest works by the author of *Blindness*. Translated by Giovanni Pontiero

Dario Fo Joseph Farrell 2000 Joseph Farrell and Antonio Scuderi present an international collection of essays reevaluating the multifaceted performance art of Nobel laureate Dario Fo. The contributors, all of whom either have previously published on Fo or have worked with him, are the major Dario Fo scholars of three continents. Going beyond the Marxist criticism of the 1970s and 1980s, the editors and contributors try to establish an appropriate language in which to debate Fo's theater. They seek to identify the core of Fo's work, the material that will be of lasting value. This involves locating Fo in history, examining the nature of his development through successive phases, incorporating his politics into a wider framework of radical dissent, and setting his theatrical achievements in a context and a tradition. The essays cover every aspect of Dario Fo: as actor, playwright, performer, and songwriter. They also provide the historical background of Fo's theater, as well as an in-depth analyses of specific works and the contribution of Franca Rame.

The Book of Disquiet: The Complete Edition Fernando Pessoa 2017-08-29 For the first time—and in the best translation ever—the complete *Book of Disquiet*, a masterpiece beyond comparison. The *Book of Disquiet* is the Portuguese modernist master Fernando Pessoa's greatest literary achievement. An "autobiography" or "diary" containing exquisite melancholy observations, aphorisms, and ruminations, this classic work grapples with all the eternal questions. Now, for the first time the texts are presented chronologically, in a complete English edition by master translator Margaret Jull Costa. Most of the texts in *The Book of Disquiet* are written under the semi-heteronym Bernardo Soares, an assistant bookkeeper. This existential masterpiece was first published in Portuguese in 1982, forty-seven years after Pessoa's death. A monumental literary event, this exciting, new, complete edition spans Fernando Pessoa's entire writing life.

The Hanoverian Dimension in British History, 1714-1837 Brendan Simms 2007-02-08 For more than 120 years (1714-1837) Great Britain was linked to the German Electorate, later Kingdom, of Hanover through Personal Union. This made Britain a continental European state in many respects, and diluted her sense of insular apartness. The geopolitical focus of Britain was now as much on Germany, on the Elbe and the Weser as it was on the Channel or overseas. At the same time, the Hanoverian connection was a major and highly controversial factor in British high politics and popular political debate. This volume was the first systematically to explore the subject by a team of experts drawn from the UK, US and Germany. They integrate the burgeoning specialist literature on aspects of the Personal Union into the broader history of eighteenth- and early nineteenth-century Britain. Never before had the impact of the Hanoverian connection on British politics, monarchy and the public sphere, been so thoroughly investigated.

The Quest for Stability R. Ahmann 1993 With the end of the Cold War, Europe stands at a crossroad. Today's quest is for a new security order which will provide lasting stability. After the First World War, and again after the Second World War, the Western European states faced a similar problem. Bringing together the work of twenty historians from eight countries, this book examines the security policies developed after each of the two world wars. It asks what ideas shaped them and what difficulties they faced. Continuities and discontinuities are traced and particular attention is paid to the question of how Western Europe achieved a new stability in the 1950s. The contributors deal with foreign policy, political and economic challenges, the impact of new military technologies and strategies, and the aims of the peace movement and the trade unions.

The Death Instinct Jacques Mesrine 2014 The legendary autobiography of Jacques Mesrine, France's most infamous criminal France's Public Enemy Number One from the late 1960s to the end of the 1970s--when he was killed by police in a sensational traffic shootout--Jacques Mesrine (1936-1979) is the best-known criminal in French history. Mesrine was notorious both for his violent exploits and for the media attention he attracted, and he remains very much a public media figure in France and Europe. In 2008 there were two feature-length films based on his life, one of them starring Vincent Cassel in the lead role. Mesrine wrote *The Death Instinct* while serving time in the high-security prison La Santé; the manuscript was smuggled out of the prison and was later published by Guy Debord's publisher Gérard Lebovici (who briefly adopted Mesrine's daughter, Sabrina, before being assassinated, a few years after Mesrine). *The Death Instinct* deals with the early years of Mesrine's criminal life, including a horrifically graphic description of a murder he committed early on in his career and a highly detailed account of the workings of the French criminal underworld--making this book perhaps one of the most intriguing and detailed anthropological studies of a criminal culture ever written.
