The Meaning of Surah 54 Al-Qamar The Moon (La Luna) From The Holy Quran Bilingual Edition English Spanish Jannah Firdaus Mediapro 2021-01-29 The Meaning of Surah 54 Al-Qamar The Moon (La Luna) From The Holy Quran Bilingual Edition In English and Spanish Language. The Surah revolves around the Signs of Allah SWT (God) and those who believe and deny them from amongst the polytheists. The splitting of the Qamar [moon] is amongst the great signs shown by God to the people of Makkah which they still resulted on them continuing their disbelief. The Surah talks about the approaching Day of Judgment. It describes some of the scenes of that Day. It also tells us that Allah's judgment may come here and now. There are references to the flood that came at the time of Prophet Noah AS, the punishment of the people of 'Ad, Thamud, People of Prophet Lot AS, the Pharaoh and his people. It ends with the good news for the Believers who will be near their Lord in the gardens of bliss. This Surah takes its name from the first Ayat: "The Hour has come near, and the moon has split [in two]." (54:1). Surah al-Qamar is in the 27th Juzz and the word Qamar [moon] appears in the Qur'an 27 times. An interesting observation is that the Moon orbits the Earth every 27 days. There are 55 Ayat in this Surah. La sura gira en torno a los signos de Allah SWT (Dios) y aquellos que los desmienten y niegan entre los politeístas. La división de Qamar [luna] es una de las grandes señales mostradas por Dios a la gente de La Meca, que todavía resultaron en que continuaran con su incredulidad. La sura habla del próximo Día del Juicio. Describe algunas de las escenas de ese día. También nos dice que el juicio de Allah puede venir aquí y ahora. Hay referencias al diluvio que vino en la época del profeta Noé AS, el castigo del pueblo de 'Ad, Thamud, el pueblo del profeta Lot AS, el faraón y su pueblo. Termina con las buenas nuevas para los creyentes que estarán cerca de su Señor en los jardines de la dicha. Esta Surah toma su nombre del primer Ayat: "La Hora se ha acercado, y la luna se ha partido [en dos]". (54: 1)

Noches De Luna Llena/ Nights of the Full Moon María de los Ángeles Correa Enríquez 2012-07-24 En una noche serena, un rayo de luna entra por la ventana. La niña despierta. Desde el balcón ve la luna llena. Es algo sorprendente. Desde entonces la luna llena la acompaña en el recorrido de la vida. Con un instinto que la mueve, con un sexto sentido heredado de siglos atrás, se siente atraída por la luna. Sin embargo, la atracción es mutua: la niña y la luna. Este libro, en su mayor parte biográfico, fue escrito en noches de luna llena, ya que la autora asegura que desde chiquita no puede dormir en estas noches, y así nace "Noches de Luna Llena." It is a quiet night. A glint of light enters through the window. The little girl awakes. From the balcony she watches the full moon. It is something amazing for her. The moon will always accompany her as she lives her life. She will be attracted by the moon instinctually, a psychic gift that she inherits centuries ago. Most of this book is autobiographical. It was written during nights of the full moon. The author says that since she was a little girl, she couldn't sleep during these nights, and this is how Nights of the Full Moon was born.

Esta es una entretenida exploración sobre división y fracciones entre personajes chinoamericanos con notas culturales. On Luna's birthday, the whole family goes out for dim sum--but Luna and her brothers can't agree on how to share their pork buns fairly. How can three people divide up five buns? The Open Invitation Freya Schiwy 2019-04-30 The Open Invitation explores the relationship between prefigurative politics and activist video. Schiwy analyzes activist videos from the 2006 uprising in Oaxaca, the Zapatista's Other Campaign, as well as collaborative and community video from the Yucatán. Schiwy argues that transnational activist videos and community videos in indigenous languages reveal collaborations and that their political impact cannot be grasped through the concept of the public sphere. Instead, she places these videos in dialogue with recent efforts to understand the political with communality, a mode of governance articulated in indigenous struggles for autonomy, and with cinematic politics of affect.

Tierra (The Science of the Earth) DK 2023-10-31 Esta es una introducción informativa y visualmente llamativa sobre nuestro planeta Tierra. La esencia de este libro son las fotografías grandes y detalladas de objetos concretos, la mayoría lo suficientemente pequeños como para tener en la palma de la mano. Cada objeto revela muchísima información sobre un aspecto en particular de los medios de la Tierra y de su funcionamiento. Por ejemplo, burbujas de aire atrapadas dentro de un núcleo de hielo antártico revelan cómo el clima de la Tierra ha cambiado con el tiempo. Un fragmento de piedra que fue arrojado varias millas al aire por un volcán ayuda a explicar qué sucede cuando las placas tectónicas chocan. El libro está estructurado en torno a un viaje imaginario que lleva al lector del centro a la superficie de la Tierra (incluidas la tierra y los océanos) y hasta las capas superiores de la atmósfera. A través de entornos como pastizales, bosques y arrecifes, 'Tierra' explora reinos vivos e inanimados. Las dobles páginas destacadas ponen el foco en lugares icónicos, como la selva amazónica o el Mar Muerto, o en procesos ecológicos concretos, como la erosión glacial. Muchos de los rincones más fascinantes del mundo natural nos resultan innacesibles: este hermoso e informativo libro los pone a nuestro alcance. This is an informative, visually arresting introduction to planet Earth. The core of the book features large, detailed photographs of single objects, many of them small enough to be held in one hand, that each speak volumes about an aspect of Earth's environments and how they work. For example, bubbles of ancient air trapped inside an Antarctic ice core reveal how Earth's climate has changed over time. A piece of pumice thrown several miles into the air by a volcano helps explain what happens when tectonic plates collide. The book is structured around an imaginary journey that takes the reader from the inner core to Earth's surface (including both land and oceans) and up to the top of the atmosphere. Taking in environments such as grasslands, forests, and reefs, the coverage includes both living and inanimate realms. Feature spreads each throw a spotlight on an iconic place, such as the Amazon Rainforest or the Dead Sea, or a particular process, such as glacial erosion. Many of the most fascinating parts of the natural world are beyond reach. This beautiful, informative book brings them up close and within our grasp.

Las Dodecatemorias, La Luna y La Alimentación Tito Maciá 2022-04-04 Somos lo que comemos, o el resultado de lo que comemos, una obviedad que no conviene olvidar. Hay alimentos que son considerados sanos y nutritivos y que sin embargo son tóxicos o intolerables para otros. Lo que es bueno, agradable, sano y nutritivo para ti, puede ser un veneno para tu hijo. En este trabajo se ofrece la posibilidad de conocer qué tipo de alimentos pueden ser intolerantes o tóxicos y cuales sanos y nutritivos, para cualquier persona. La idea es transformar la cocina de tu casa en una farmacia de medicamentos "vacuna", que ahora están tan de moda, ricos medicamentos nutritivos y sabrosos para prevenir las alteraciones de la salud. No es un libro para curar o sanar, eso se sale de la intención de este trabajo, para eso ya están los médicos, es un libro para ayudarte a no enfermar a causa de la comida.
