Mercenaries Series Book 3

Heaven's River Dennis E. Taylor 2021-01-26 Civil war looms in the Bobiverse in this brand-new, epic-length adventure by best seller Dennis E. Taylor. More than a hundred years ago, Bender set out for the stars and was never heard from again. There has been no trace of him despite numerous searches by his clone-mates. Now Bob is determined to organize an expedition to learn Bender's fate-whatever the cost. But nothing is ever simple in the Bobiverse. Bob's descendants are out to the 24th generation now, and replicative drift has produced individuals who can barely be considered Bobs anymore. Some of them oppose Bob's plan; others have plans of their own. The out-of-control moots are the least of the Bobiverse's problems. Undaunted, Bob and his allies follow Bender's trail. But what they discover out in deep space is so unexpected and so complex that it could either save the universe-or pose an existential threat the likes of which the Bobiverse has never faced.

A deadly poison drifted to every corner of the planet, threatening the last survivors with annihilation. For a soldier in Antarctica like Creed, there is only one way to keep breathing untainted air. He must join the Jelk Corporation as an assault trooper, leaving the planet for outer space. In return for his and other people's services, the Jelk will house the last humans for as long as the assault troopers keep winning. For the price of living and the chance to save humanity, Creed has to wear a shock chip in his neck-Jelk discipline is harsh-and he has to don a symbiotic battlesuit that feeds off his sweat. Human life is cheap in the vast alien war. The assault troopers are little more than suicide soldiers, but for humanity to escape extinction, they must survive. But Creed didn't agree to the bargain in order to remain a dog to the aliens. He has a plan, and he'll need all his cunning to beat the extraterrestrials and begin the road to freedom for the human race.

A World of Gangs John Hagedorn 2008 "On the street with gangs in three world cities - Chicago, Rio de Janeiro, and Capetown - Hagedorn discovers that many of them have institutionalized as a strategy to confront a hopeless cycle of poverty, racism, and oppression. The nihilistic appeal of gangsta rap and its ethic of survival "by any means necessary," he argues, provides vital insights into the ideology and persistence of gangs around the world. Proposing how gangs can be encouraged to overcome their violent tendencies, Hagedorn appeals to community leaders to use the urgency, outrage, and resistance common to both gang life and hip-hop to bring gangs into broader movements for social justice."--BOOK JACKET.

But all that changes one morning, and suddenly she's not so sure she didn't stick her foot in it... When it affords them an unforeseen and unprecedented opportunity to take back their world from those who seek to destroy them, however, Aderus begins to wonder if it wasn't fate. Earth's proposal is shocking and uncomfortable for a fierce, independent race that relishes in their solitude. But the more he learns of humans, the more he comes to admire and respect them.
