**Compass** Mathias Enard 2018-03-27 Winner of the 2015 Prix Goncourt, an astounding novel that bridges Europe and the Islamic world On the shortlist for the 2017 Man Booker International Prize As night falls over Vienna, Franz Ritter, an insomniac musicologist, takes to his sickbed with an unspecified illness and spends a restless night drifting between dreams and memories, revisiting the important chapters of his life: his ongoing fascination with the Middle East and his numerous travels to Istanbul, Aleppo, Damascus, and Tehran, as well as the various writers, artists, musicians, academics, orientalist, and explorers who populate this vast dreamscape. At the center of these memories is his elusive, unrequited love, Sarah, a fiercely intelligent French scholar caught in the intricate tension between Europe and the Middle East. With exhilarating prose and sweeping erudition, Mathias Enard pulls astonishing elements from disparate sources—nineteenth-century composers and esoteric orientalist, Balzac and Agatha Christie—and binds them together in a most magical way.

Visions for Global Tourism Industry Murat Kasimoglu 2012-04-18 We have been witnessing huge competition among the organisations in the business world. Companies, NGO's and governments are looking for innovative ways to compete in the global tourism market. In the classical literature of business the main purpose is to make a profit. However, if purpose only focus on the profit it will not to be easy for them to achieve. Nowadays, it is more important for organisations to discover how to create a strong strategy in order to be more competitive in the marketplace. Increasingly, organisations have been using innovative approaches to strengthen their position. Innovative working enables organisations to make their position much more competitive and being much more value-orientated in the global tourism industry. In this book, we are pleased to present many papers from all over the world that discuss the impact of tourism business strategies from innovative perspectives. This book also will help practitioners and academician to extend their vision in the light of scientific approaches.

*Barcellona e dintorni. Su due ruote* Richard Guise 2012-07-24 Si dice Catalogna e subito si pensa a Barcellona, alle sue spiagge, a Gaudí e alla movida. Ma la Catalogna è molto più di questo. Per scoprire i lati nascosti di questa terra insieme frenetica e selvaggia, Richard Guise, in sella alla bicicletta Benny, ha percorso quattrocento chilometri di vie secondarie costiere e collinari intorno a Barcellona. Nel suo viaggio lento tra coste bellissime e speroni di roccia abitati solo dalle capre, ha scoperto una nazione nella nazione, con una lingua e una cultura proprie, ha conosciuto gli abitanti del posto, scoperto come si balla la sardana, imparato cosa si fa in una bugaderia. Un viaggio originale e ricco di aneddoti divertenti, foto e informazioni pratiche sulle tappe.

**The Architecture of Pica Ciamarra Associati** Antonietta Iolanda Lima 2019-04 Since 1970, based in an isolated building situated on the peninsula of Posillipo, Pica Ciamarra Associati ([www.paint.eu](http://www.paint.eu)) has acted as a laboratory of architectural and urban design which has gradually incorporated new members and new energies over the time: using a multidisciplinary approach, the roots of the architectural practice lie in the intensive theoretical and practical work begun in the early 1960s by Massimo Pica Ciamarra. Since then the practice has been marked by a continuous relationship with Le Carré Bleu Feuille internationale d'architecture and leading members of the cultural milieu of Team 10: this has led to constant attention to everything that lies beyond form, to the relationship with contexts that also include non-spatial contexts, and to high levels of integration and dialectical discussion. According to Pica Ciamarra Associati, a design transcends the approaches of a single sector, providing simultaneous solutions to contradictory requirements, combining utopia and practicality. The poetics of the fragment: it mediates between architecture and the urban dimension; some designs also have the aim of becoming absorbed within a context as 'informed fragments'. This monograph is the result of an intensive period of work and consists of two interacting parts. It stems from research into the archive of the studio Pica Ciamarra and conversation with the members of the architectural practice.

Organised diachronically, the book tells the long story, unfolding over a period of over fifty years of a team of Neapolitan architects and designers, who have maintained the lively spirit of the practice which is still geared towards the future. The textual and iconographic account tells a story and offers an interpretation that highlight the vibrant atmosphere of the studio, based on a consistency of thought and action, and fuelled by an interest in many different forms of knowledge. The contextualisation of the events related to the studio, as they unfolded over time, is wide-ranging, coherent and connotative. Antonietta Iolanda Lima, professor of history of architecture at the University of Palermo, has always tried, through theory, teaching and design, to disseminate the importance of history which can embracing innovation and tradition to an equal degree, forming a new architectural language. According to her view of architecture, history and design are closely connected, a 'single entity' as is reflected by her career. Since the 1980s, her academic work has gained increasing importance, a way of avoiding narrow sectoral approaches in the training of future architects, offering a holistic stance of the history of architecture and an architecture that contributes to shaping critical

thought and a thriving cultural life.

**Woman at Sea** Catherine Poulain 2018-02-15 **\*\*SHORTLISTED FOR THE SCOTT MONCRIEFF PRIZE 2019\*\*** **\*\*NOMINATED FOR THE MÉDICIS PRIZE 2018\*\*** 'A tale of travel and adventure, the story of a body utterly surrendered to pain and joy. It is mind-blowing, a delight.' Le Monde Lili is a runaway. She's left behind her native France to go in search of freedom, of adventure, of life. Her search takes her to Kodiak, Alaska, home to a ragtag community of fishermen, army vets and drifters who man the island's fishing fleet. Despite her tiny frame, faltering English and lack of experience, Lili lands a job on board the Rebel, the only woman on the boat. Out on the open sea, everything is heightened: colours are more vivid, sounds are louder and the work is harder than anything she's ever known. The terrifying intensity of the ocean is addictive to the point of danger. But Lili is not alone: in her fellow crewmembers she finds kindred spirits - men living on the edge, drawn to extremes. Based on Catherine Poulain's own experiences, and written in taut, muscular prose, *Woman at Sea* cuts through the noise of life and straight to the heart of our innermost longings.

**The Limitless City** Oliver Gillham 2002-03 One of the great debates of our time concerns the predominant form of land use in America today -- the all too familiar pattern of commercial and residential development known as sprawl. But what do we really know about sprawl? Do we know what it is? Where did it come from? Is it really so bad? If so, what are the alternatives? Can anything be done to make it better? The *Limitless City* offers an accessible examination of those and related questions. Oliver Gillham, an architect and planner with more than twenty-five years of experience in the field, considers the history and development of sprawl and examines current debates about the issue. The book: offers a comprehensive definition of sprawl in America traces the roots of sprawl and considers the factors that led to its preeminence as an urban and suburban form reviews both its negative impacts (loss of open space, increased pollution, gridlock) as well as its positive aspects (economic development, personal freedom, privacy) considers responses to sprawl including "smart growth," urban growth boundaries, regional planning, and the New Urbanism looks at what can be done to improve and counterbalance sprawl The author argues that whether we like it or not, sprawl is here to stay, and only by understanding where it came from and why it developed will we be able to successfully address the problems it has created and is likely to create in the future. The *Limitless City* is the first book to provide a realistic look at sprawl, with a frank recognition of its status as the predominant urban form in America, now and into the near future. Rather than railing against it, Gillham charts its probable future course while describing critical efforts that can be undertaken to improve the future of sprawl and our existing urban core areas.

*Separate Rooms* Pier Vittorio Tondelli 2004 Leo is an Italian writer in his thirties. Thomas, his German lover, is dead. On a plane to Munich, Thomas's home town, Leo slips into a reverie of their meeting and life in Paris, nights in Thomas's flat in Montmartre and a desperate, drug-induced flight through the forests of northern France that spells the end for Leo and Thomas' languid, erotic life together. Leo travels to find anonymity. Structured in three musical movements, *Separate Rooms* is a story of ideal love, broken by absence and separation. When Thomas was alive, he and Leo had separate rooms in order to preserve the urgency of their passion. Now, Leo faces solitude, the impossible striving of memory to recreate life and the hostility of a prejudiced world. *Separate Rooms*, Tondelli's last book, is a powerful novel of the strength of love and the trauma of death.
