Tools for Conviviality Ivan Illich 2021-11-30 Ivan Illich argues for individual personal control over life, the tools and energy we use. A work of seminal importance. The conviviality for which noted social philosopher Ivan Illich is arguing is one in which the individual's personal energies are under direct personal control and in which the use of tools is responsibly limited. A work of seminal importance, this book claims our attention for the urgency of its appeal, the stunning clarity of its logic and the overwhelmingly human note that it sounds.

Economic Sophisms ; And, What is Seen and what is Not Seen édéric Bastiat 2017 This volume, the third in our Collected Works of Frederic Bastiat, includes two of Bastiat's best-known works, Economic Sophisms and the pamphlet What is Seen & What is Not Seen. Both Economic Sophisms and What Is Seen and What Is Not Seen share similar stylistic features and were written with much the same purpose in mind, namely, to disabuse people of misperceptions they might have had about the benefits of free trade and free markets. Economic Sophisms and the other writings in this volume show Bastiat at his creative journalistic best: his skill at mixing serious and amusing ways of making his arguments is unsurpassed; the quality of his insights into profound economic issues is often exceptional and sometimes well ahead of his time; his ability to combine his political lobbying for the Free Trade Movement, his journalism, his political activities during the 1848 Revolution, and his scholarly activities is most unusual; and the humour, wit and literary knowledge that he scatters throughout his writings demonstrate that he deserves his reputation as a most gifted writer on economic matters, one who still deserves our attention today.

How The West Grew Rich Nathan Rosenberg 2008-08-01 How did the West--Europe, Canada, and the United States--escape from immemorial poverty into sustained economic growth and material well-being when other societies remained trapped in an endless cycle of birth, hunger, hardship, and death? In this elegant synthesis of economic history, two scholars argue that it is the political pluralism and the flexibility of the West's institutions--not corporate organization and mass production technology--that explain its unparalleled wealth.

Nomadland: Surviving America in the Twenty-First Century Jessica Bruder 2017-09-19 The inspiration for Chloé Zhao's 2020 Golden Lion award-winning film starring Frances McDormand. "People who thought the 2008 financial collapse was over a long time ago need to meet the people Jessica Bruder got to know in this scorching, beautifully written, vivid, disturbing (and occasionally wryly funny) book." —Rebecca Solnit From the beet fields of North Dakota to the campgrounds of California to Amazon's CamperForce program in Texas, employers have discovered a new, low-cost labor pool, made up largely of transient older adults. These invisible casualties of the Great Recession have taken to the road by the tens of thousands in RVs and modified vans, forming a growing community of nomads. Nomadland tells a revelatory tale of the dark underbelly of

the American economy—one which foreshadows the precarious future that may await many more of us. At the same time, it celebrates the exceptional resilience and creativity of these Americans who have given up ordinary rootedness to survive, but have not given up hope.

The Far Right Today Cas Mudde 2019-10-25 The far right is back with a vengeance. After several decades at the political margins, far-right politics has again taken center stage. Three of the world's largest democracies – Brazil, India, and the United States – now have a radical right leader, while far-right parties continue to increase their profile and support within Europe. In this timely book, leading global expert on political extremism Cas Mudde provides a concise overview of the fourth wave of postwar far-right politics, exploring its history, ideology, organization, causes, and consequences, as well as the responses available to civil society, party, and state actors to challenge its ideas and influence. What defines this current far-right renaissance, Mudde argues, is its mainstreaming and normalization within the contemporary political landscape. Challenging orthodox thinking on the relationship between conventional and far-right politics, Mudde offers a complex and insightful picture of one of the key political challenges of our time.

Judicial Accountabilities in New Europe Daniela Piana 2016-05-06 This volume focuses on a highly challenging aspect of all European democracies, namely the issue of combining guarantees of judicial independence and mechanisms of judicial accountability. It does so by filling the gap in European scholarship between the two policy sectors of enlargement and judicial cooperation and by taking full stock of an interdisciplinary literature, spanning from comparative politics, socio-legal studies and European studies. *Judicial Accountabilities in New Europe* presents an insightful account of the judicial reforms adopted by new member States to embed the principle of the rule of law in their democratic institutions, along with the guidelines of quality of justice promoted by European institutions in all member States.

Audi Alteram Partem in Criminal Proceedings Stefano Ruggeri 2017-04-12 This book analyses current developments in Europe and Latin America towards the greater involvement of the parties in the administration of criminal justice. Focusing on both national criminal proceedings and transnational cases, this study employs a comparative law approach to examine the shift experienced by Italy and Brazil from the long tradition of mixed criminal justice to unprecedented adversarial trends. The identification of common needs and divergences from the national approach to criminal justice paves the way for a subsequent analysis of new solution models emerging from international human rights law and EU law. To a great extent, these developments are due to the increasing impact of international human rights case-law on the criminal justice systems of the countries in question. The book concludes by proposing a set of qualitative requirements for a participatory model of criminal justice.

Revolution as Reformation Peter C. Messer 2021-01-19 Essays that explore how Protestants responded to the opportunities and perils of revolution in the transatlantic age Revolution as Reformation: Protestant Faith in the Age of Revolutions, 1688-1832 highlights the role that Protestantism played in shaping both individual and collective responses to revolution. These essays explore the various ways that the Protestant tradition, rooted in a perpetual process of recalibration and reformulation, provided the lens through which Protestants experienced and understood social and political change in the Age of Revolutions. In particular, they call attention to how Protestants used those changes to continue or accelerate the Protestant imperative of refining their faith toward an improved vision of reformed religion. The editors and contributors define faith broadly: they incorporate individuals as well as specific sects and denominations, and as much of “life experience” as possible, not just life within a given church. In this way, the volume reveals how believers combined the practical demands of secular society with their personal faith and how, in turn, their attempts to reform religion shaped secular society. The wide-ranging essays highlight the exchange of Protestant thinkers, traditions, and ideas across the Atlantic during this period. These perspectives reveal similarities between revolutionary movements across and around the Atlantic. The essays also emphasize the foundational role that religion played in people's attempts to make sense of their world, and the importance they placed on harmonizing their ideas about religion and politics. These efforts produced novel theories of government, encouraged both revolution and counterrevolution, and refined both personal and collective understandings of faith and its relationship to society.

The Legal Treatment of Muslim Minorities in Italy Dr Andrea Pin 2016-01-28 Islam is a growing presence practically everywhere in Europe. In Italy, however, Islam has met a unique model of state neutrality, religious freedom and church and state collaboration. This book gives a detailed description of the legal treatment of Muslims in Italy, contrasting it with other European states and jurisprudence, and with wider global tendencies that characterize the treatment of Islam. Through focusing on a series of case studies, the author argues that the relationship between church and state in Italy, and more broadly in Europe, should be reconsidered both to secure religious freedom and general welfare. Working on the concepts of religious freedom, state neutrality, and relationship between church and state, Andrea Pin develops a theoretical framework that combines the state level with the supranational level in the form of the European Convention of Human Rights, which ultimately shapes a unitary but flexible understanding of pluralism. This approach

should better accommodate not just Muslims' needs, but religious needs in general in Italy and elsewhere.

Legal Aspects of the European System of Central Banks Liber Amicorum 2005 "The book contains a collection of articles on the European Union and the European System of Central Banks (ESCB), the Eurosystem, monetary law, central bank independence and central bank statutes as well as on financial law. This book commemorates ten years of work by the Working Group of Legal Experts of the European Monetary Institute and by the LEGCO. It is dedicated to Mr Paolo Zamboni Garavelli, former Head of the Legal Department at the Banca d'Italia and member of LEGCO, who died in 2004."--Editor.

Nonreligion in Late Modern Societies Anne-Laure Zwillig 2022-06-14 This volume presents results from new and ongoing research efforts into the role of nonreligion in education, politics, law and society from a variety of different countries. Featuring data from a wide range of quantitative and qualitative studies, the book exposes the relational dynamics of religion and nonreligion. Firstly, it highlights the extent to which nonreligion is defined and understood by legal and institutional actors on the basis of religions, and often replicates the organisation of society and majority religions. At the same time, it displays how essential it is to approach nonreligion on its own, by freeing oneself from the frameworks from which religion is thought. The book addresses pressing questions such as: How can nonreligion be defined, and how can the "nones" be grasped and taken into account in studies on religion? How does the sociocultural and religious backdrop of different countries affect the regulation and representation of nonreligion in law and policymaking? Where and how do nonreligious individuals and collectives fit into institutions in contemporary societies? How does nonreligion affect notions of citizenship and national belonging? Despite growing scholarly interest in the increasing number of people without religion, the role of nonreligion in legal and institutional settings is still largely unexplored. This volume helps fill the gap, and will be of interest to students, researchers, policymakers and others seeking deeper understanding of the changing role of nonreligion in modern societies.
