The Crusader Armies Steve Tibble 2018-08-21 A major history of the Crusades that illuminates the strength and sophistication of the Western and Muslim armies. During the Crusades, the Western and Muslim armies developed various highly sophisticated strategies of both attack and defense, which evolved during the course of the battles. In this ambitious new work, Steve Tibble draws on a wide range of Muslim texts and archaeological evidence as well as more commonly cited Western sources to analyze the respective armies' strategy, adaptation, evolution, and cultural diversity and show just how sophisticated the Crusader armies were even by today's standards. In the first comprehensive account of the subject in sixty years, Tibble takes a fresh approach to Templars, Hospitallers, and other key Orders and makes the controversial proposition that the Crusades were driven as much by sedentary versus nomadic tribal concerns as by religious conflict. This fluently written, broad-ranging

narrative provides a crucial missing piece in the study of the West's attempts to colonize the Middle East during the Middle Ages. "Now Tibble takes a new approach, one that adds to prior research and may well influence subsequent research. This book is a must read for medievalists." —R. J. Powell, *Choice* "A book that welcomes everyone, regardless of the reader's background in the subject. . . . Crusade historians like to complain that the general public knows nothing about their scholarship. It is books like this that will change that." —Thomas F. Madden, *Reading Religion* "The Crusader Armies offers more than the obligatory corrections to the historical ignorance of our age. It is a full-scale reassessment of the warfare, armies, and enemies of the Western Crusades in the Middle East . . . readable, expertly sourced, and well organized." —Timothy D. Lusch, *Chronicles* "The Crusader Armies: 1099-1187 is a worthy and sound contribution to the literature on its subject. . . . Steve Tibble paints a compelling picture of continual systemic warfare." —Laurence W. Marvin, *Michigan War Studies Review* Selected for *Choice's* 2019 Outstanding Academic Titles List

Robert Lepage's Scenographic Dramaturgy Melissa Poll
2018-07-20 This book theorizes auteur Robert Lepage's scenography-based approach to adapting canonical texts. Lepage's technique is defined here as 'scenographic dramaturgy', a process and product that de-privileges dramatic text and relies instead on evocative, visual performance and intercultural collaboration to re-envision extant plays and operas. Following a detailed analysis of Lepage's adaptive process and its place in the continuum of scenic writing and auteur theatre, this book features four case studies charting the role of Lepage's scenographic dramaturgy in re-'writing' extant texts, including Shakespeare's *Tempest* on Huron-Wendat territory, Stravinsky's *Nightingale* in a twenty-seven ton pool, and Wagner's Ring cycle

via the infamous, sixteen-million-dollar Metropolitan Opera production. The final case study offers the first interrogation of Lepage's twenty-first century 'auto-adaptations' of his own seminal texts, *The Dragons' Trilogy* and *Needles & Opium*. Though aimed at academic readers, this book will also appeal to practitioners given its focus on performance-making, adaptation and intercultural collaboration.

Consumer Culture Roberta Sassatelli 2007-04-30 "A thorough and wide-ranging synthetic account of social scientific research on consumption which will set the standard for the second generation of textbooks on cultures of consumption." - Alan Warde, University of Manchester "The multi-disciplinary nature of the book provides new and revealing insights, and Sassatelli conveys brilliantly the heterogeneity and ambivalent nature of consumer identities, consumer practices and consumer cultures... Newcomers to consumer culture will find this an invaluable primer and introduction to the major concepts and ideas, while those familiar with the field will find Sassatelli's sharp analysis and discussion both refreshing and inspiring." - James Skinner, *Journal of Sociology* "This is a model of what a text book ought to be. Over the past decade the original debates about consumption have been overlaid by a vast amount of detailed research, and it seems unimaginable that a single text could do justice to all of these. To do so would involve as much a commitment to depth as to breadth. I was quite astonished at how well Sassatelli succeeds in balancing the two... Ultimately, it's the book that I would trust to help people digest what we now have discovered about consumption and start from a much more mature and reflective foundation to consider what more we might yet do." - Daniel Miller, *Material World* Showing the cultural and institutional processes that have brought the notion of the 'consumer' to life, this book guides the reader on a comprehensive journey through the history of how we have come to understand ourselves as

consumers in a consumer society and reveals the profound ambiguities and ambivalences inherent within. While rooted in sociology, Sassatelli draws on the traditions of history, anthropology, geography and economics to provide: a history of the rise of consumer culture around the world a richly illustrated analysis of theory from neo-classical economics, to critical theory, to theories of practice and ritual de-commodification a compelling discussion of the politics underlying our consumption practices. An exemplary introduction to the history and theory of consumer culture, this book provides nuanced answers to some of the most central questions of our time.

Women's Writing in Italy, 1400-1650 Virginia Cox 2008-06-16

Winner, 2009 Best Book Award, Society for the Study of Early Modern Women Winner, 2008 PROSE Award for Best Book in Language, Literature, and Linguistics. Professional and Scholarly Publishing Division of the Association of American Publishers This is the first comprehensive study of the remarkably rich tradition of women's writing that flourished in Italy between the fifteenth and early seventeenth centuries. Virginia Cox documents this tradition and both explains its character and scope and offers a new hypothesis on the reasons for its emergence and decline. Cox combines fresh scholarship with a revisionist argument that overturns existing historical paradigms for the chronology of early modern Italian women's writing and questions the historiographical commonplace that the tradition was brought to an end by the Counter Reformation. Using a comparative analysis of women's activities as artists, musicians, composers, and actresses, Cox locates women's writing in its broader contexts and considers how gender reflects and reinvents conventional narratives of literary change.

Frida Kahlo Pina Varriale 2020-01-14 Quando il corrimano del mezzo su cui viaggiava la trapassò, nessuno avrebbe scommesso sulla sua vita. Sembrava una ballerina cosparsa di polvere d'oro, una bambola insanguinata che giaceva sul ciglio della strada. Ma

lei era Frida Kahlo e mai si sarebbe arresa al destino. Della sua tormentata esistenza e dell'impossibile amore per Diego Rivera seppe fare infatti un'opera d'arte rivoluzionaria che fino ad oggi resta senza uguali.

Stardom in Cinema, Television and the Web Vanni Codeluppi 2021-03-01 In the last 50 years, the social importance of stars has steadily grown, to the point that stars have now become key role models who strongly influence people's behaviours. This book considers the connections between the three main media (cinema, television and the web) and each of the three phases into which the history of stardom can be divided. The first phase can largely be credited with the creation and codification of contemporary stardom, while the second is linked to the spread of television, which weakened the Hollywood stardom model and gradually transformed the figure of the star, making it more intimate and familiar. In the last of these phases, we have many 'outsiders' (personalities from a variety of professional domains and experiences) who are able to achieve considerable social visibility thanks to their skilful use of the web.

Plant Genetic Conservation Nigel Maxted 2020-08-31 Plant diversity sustains all animal life, and the genetic diversity within plants underpins global food security. This text provides a practical and theoretical introduction to the strategies and actions to adopt for conserving plant genetic variation, as well as explaining how humans can exploit this diversity for sustainable development. Notably readable, it initially offers current knowledge on the characterization and evaluation of plant genetic resources. The authors then discuss strategies from in situ and ex situ conservation to crop breeding, exploring how these can be used to improve food security in the face of increasing agrobiodiversity loss, human population growth and climate change. Each chapter draws on examples from the literature or the authors' research and includes further reading references. Containing other useful features such as a glossary, it is invaluable for professionals and undergraduate and graduate students in plant sciences, ecology, conservation, genetics and natural resource management.

Diego e Frida. Un amore assoluto e impossibile sullo sfondo del Messico rivoluzionario Jean-Marie Gustave Le Clézio 2008

Frida Kahlo Diego Sileo 2018 * Analyzes the art of Frida Kahlo and incorporates the most up-to-date research available on the work of the artist* Published to accompany an exhibition at the MUDEC in Milan, from February to June 2018 Frida Kahlo, a truly extraordinary woman who captured the public's imagination with her iconic look, troubled life and exotic air, is first and foremost a great painter. This exhibition and accompanying catalogue aim to free her work from the haze of myth and the frustrating limits of private life in order to grant her the position she deserves within the history of art. Oil paintings, drawings, watercolors, letters and photographs explore the complex historical and cultural context of Kahlo's work, examining its explicit realism as well as its disturbing ambiguity, its dramatic content as well as its irony, and not least, the exuberant sensuality of her still lifes. Organized by

theme in several large chapters, the catalogue analyses the art of Frida Kahlo, revealing its uncompromising political nature, audacious use of the body, macabre, violent aesthetic, and symbolic and symbiotic interaction with the natural environment of Mexico in the early 1900s. The catalogue represents the most up-to-date text available on the work of one of the most celebrated and beloved artists of all time.

Recharting the Black Atlantic Annalisa Oboe 2011-04-13 This book focuses on the migrations and metamorphoses of black bodies, practices, and discourses around the Atlantic, particularly with regard to current issues such as questions of identity, political and human rights, cosmopolitics, and mnemo-history.

The Reinvention Of Love Helen Humphreys 2011-09-05 When Charles Sainte-Beuve, an ambitious French journalist, meets Victor Hugo, a young writer on the verge of fame, he finds himself in a world of great passions, a world where words can become swords. But, to his surprise, he is more attracted to Victor's long-suffering wife, Adèle. When the two lovers create a scandale in Paris, Victor exacts his price for betrayal. Set during the tumultuous reign of Napoleon III, and sweeping from France to the Channel Islands, to Halifax and back, *The Reinvention of Love* draws a rich portrait of the old city, where duels are fought in its parks and cholera-ridden bodies float in the Seine. Along its narrow, crime-filled streets, noble families and artists—Frédéric Chopin, Georges Sand, Alexandre Dumas—mix with ordinary citizens, who remain restless with ideas of revolution. Towering over all is the enormous talent of Victor Hugo, who is rapidly becoming the voice of France to the world.

Seven Streams Of The River Ota Robert Lepage 2014-03-10 "Of all Lepage's magic boxes, this is the masterpiece" (Independent on Sunday) Early one August morning in 1945, several kilos of uranium dropped over Japan changed the course of human history. Fifty years later, Hiroshima's vitality is striking: the city where survival itself seemed unimaginable today incarnates the

notion of renaissance. Robert Lepage and Ex Machina's *The Seven Streams of the River Ota* makes Hiroshima a literal and metaphoric site for theatrical journey through the last half-century. In *The Seven Streams*, Hiroshima is a mirror in which seeming opposites - East and West, tragedy and comedy, male and female, life and death - are revealed as reflections of the same reality.

From Comic Strips to Graphic Novels Daniel Stein 2015-04-24
This essay collection examines the theory and history of graphic narrative as one of the most interesting and versatile forms of storytelling in contemporary media culture. Its contributions test the applicability of narratological concepts to graphic narrative, examine aspects of graphic narrative beyond the 'single work', consider the development of particular narrative strategies within individual genres, and trace the forms and functions of graphic narrative across cultures. Analyzing a wide range of texts, genres, and narrative strategies from both theoretical and historical perspectives, the international group of scholars gathered here offers state-of-the-art research on graphic narrative in the context of an increasingly postclassical and transmedial narratology. This is the revised second edition of *From Comic Strips to Graphic Novels*, which was originally published in the *Narratologia* series.

Frida Kahlo Helga Prignitz-Poda 2010
This volume covers the major events of Mexican artist Frida Kahlo's (1907-1954) tumultuous life and graphically displays some of her most well known works. Each section contains a biography, chronology and photos of that period of her life. The remainder of the book contains 42 plates of her masterpiece paintings reproduced in full color and detail. Sections of the paintings are enlarged to reveal the intricate detail, the brush strokes and even the texture of the canvas. A descriptive analysis of each painting is included to provide an insight into its meaning and her inspiration to create the piece.

Diego e Frida Le Clézio Jean-Marie 2012-04-24 Nel Messico infuocato degli anni Venti, tra rivoluzioni e restaurazioni, avanguardie artistiche e politiche, l'esilio illustre di Trotskij e le visite reverenti dei surrealisti, matura e si consuma un'avvincente storia artistica e sentimentale. È l'amore e il matrimonio di due grandi della pittura novecentesca: Diego Rivera, massimo tra gli inventori della tradizione muralista, militante comunista, e Frida Kahlo, pittrice surreal-naif, musa di un'intera generazione di artisti. Un rapporto inquieto, attraversato da tradimenti e fughe, rafforzato dalle comuni scelte politiche dei due.

Colour Rudolf Steiner 2013-04-03 Building on the achievements of Goethe in his Theory of Colour, Rudolf Steiner shows how colour affects us in many areas of life, including our health, our sense of well-being, and our feelings. Distinguishing between 'image' and 'lustre' colours, he lays the foundation, based on his spiritual-scientific research, for a practical technique of working with colour that leads to a new direction in artistic creativity. His many penetrating remarks on some of the great painters of the past are supplemented by a deep concern to see a cultural, spiritual renewal emerge in the present time. 'If you realize', he states, 'that art always has a relation to the spirit, you will understand that both in creating and appreciating it, art is something through which one enters the spiritual world.' This volume is the most comprehensive compilation of Rudolf Steiner's insights into the nature of colour, painting and artistic creation. It is an invaluable source of reference and study not only for artists and therapists but for anyone interested in gaining an appreciation of art as a revelation of spiritual realities.

The Shadow of the Shadow Paco Ignacio 2010-10-08 The

Shadow of the Shadow follows four men who meet to play dominos in a hotel bar in Mexico City in 1922. They are a motley group: a gun-toting poet who makes a living writing advertisements for patent medicine, a radical Chinese-Mexican union organizer, a lawyer who represents prostitutes, and a newspaper crime reporter who churns out pages of copy like links of sausage in a chorizo factory. Left to their own devices, the group would have waited out Carranza's presidency in their own quietly besotted fashion, ignoring the betrayal of the Mexican Revolution. But they witness a series of strangely related murders and begin to suspect a conspiracy involving the oil-rich lands of the Gulf Coast, greedy army officers, and American industrialists. Critics have hailed *The Shadow of the Shadow* as the best of Paco Ignacio Taibo II's historical novels. Issues of oil, American imperialism, extortion, and government corruption give the novel a distinctly contemporary ring.

Depeche Mode Steve Malins 2013-04 Depeche Mode are an 80s band still going strong into the 1990s. Based on detailed interviews and extensive research, this book probes into the motives and detours of their journey. Previous ed.: 1999.

Frida's Bed Slavenka Drakulic 2008-08-26 A beautifully imagined story of the last days of Frida Kahlo's life. A few days before Frida Kahlo's death in 1954, she wrote in her diary, "I hope the exit is joyful and I hope never to return." Diagnosed with polio at the age of six and plagued by illness and injury throughout her life, Kahlo's chronic pain was a recurrent theme in her extraordinary art. In *Frida's Bed*, Slavenka Drakulic explores the inner life of one of the world's most influential female artists, skillfully weaving Frida's memories into descriptions of her paintings, producing a meditation on the nature of chronic pain and creativity. With an intriguing subject whose unusual life continues to fascinate, this poignant imagining of Kahlo's thoughts during her final hours by another daringly original and uncompromising creative talent will attract readers of literary fiction and art lovers.

Federico Fellini Tullio Kezich 2007-03-06 A lively and authoritative journey into the world of a cinema master With the revolutionary *8 1/2*, Federico Fellini put his deepest desires and anxieties before the lens in 1963, permanently impacting the art of cinema in the process. Now, more than forty years later, film critic and Fellini confidant Tullio Kezich has written the work by which all other biographies of the filmmaker are sure to be measured. In this moving and intimately revealing account of a lifetime spent in pictures, Kezich uses his friendship with Fellini as a means to step outside the frame of myth and anecdote that surrounds him—much, it turns out, of the director's own making. A great lover of women and a meticulous observer of dreams, Fellini, perhaps more than any other director of the twentieth century, created films that embodied a thoroughly modern sensibility, eschewing traditional narrative along with religious and moral precepts. His is an art of delicate pathos, of episodic films that directly address the intersection of reality, fantasy, and desire that exists as a product of mid-century Italy—a country reeling from a Fascist regime as it struggled with an outmoded Catholic national identity. As Kezich reveals, the dilemmas Fellini presents in his movies reflect not only his personal battles but those of Italian society. The result is a book that explores both the machinations of cinema and the man who most grandly embraced the full spectrum of its possibilities, leaving his indelible mark on

it forever.

The Spirit of Modern Philosophy Josiah Royce 1892

Nightlands Christian Norberg-Schulz 1997-07-29 Translated by

Thomas McQuillan Architecture is a manifestation of the

environment in which it is placed, observes distinguished

architect and theoretician Christian Norberg-Schulz. A simple

enough observation, but one that becomes subtle and nuanced in

this landmark book which attempts to define, for the first time,

what Nordic building really is. Norberg-Schulz begins by

contrasting the natural world of the North with that of the

Mediterranean, the Nordic unendingness against the sun-

saturated and homogeneous South. Using themes such as

"natural," "domestic," "universal," and "foreign," he finds the

architecture of both regions sensibly related to their

environments; but whereas the South lends itself to abstraction,

the North is marked by variation, openness, and dynamism—by

low light, forests, and space. Exploring the ways built experience

"takes place," Norberg-Schulz charts the distinctive character of

land and climate that distinguishes Denmark's, Sweden's,

Finland's, and Norway's architectural traditions from each other

and from those to the South. While each of these countries might

be said to share regional traits, Norberg-Schulz identifies

differences (the cultivated and closely detailed landscape and

architecture of Denmark, the dramatic, structured forms of

Norway) that allow him to account for the way individual Nordic

architectures evolved.

The Guerrilla Girls' Bedside Companion to the History of

Western Art Guerrilla Girls 1998-02-01 "[A] tart, funny, lurid

little bomb of a book. It's all p.c., of course, but not at all

predictable, and a lot of righteous information gets dispersed in

record time." -- BUST Magazine We were Guerillas before we

were Gorillas. From the beginning, the press wanted publicity

photos. We needed a disguise. No one remembers, for sure, how

we got our fur, but one story is that at an early meeting, an

original Girl, a bad speller, wrote 'Gorilla' instead of 'Guerilla.' It was an enlightening mistake. It gave us our mask-ularity. Ever wonder about the abundance of naked male statues in the Classical section of your favorite museum? Did you know medieval convents were hotbeds of female artistic expression? And how did those "bad boy" artists of the twentieth century make it even harder for a girl to get a break? Thanks to the Guerrilla Girls, those masked feminists whose mission it is to break the white male stronghold over the art world, art history--as we know it--is history. Taking you back through the ages, the Guerrilla Girls demonstrate how males (particularly white males) have dominated the art scene, and discouraged, belittled, or obscured women's involvement. Their skeptical and hilarious interpretations of "popular" theory are augmented by the newest research and the expertise of prominent feminist art historians. "Believe-it-or-not" quotations from some of the "experts" are sprinkled throughout, as are the Guerrilla Girls' signature masterpieces: reproductions of famous art works, slightly "altered" for historic accuracy and vindication. This colorful reinterpretation of classic and modern art, as outrageous as it is visually arresting, is a much-needed corrective to traditional art history, and an unabashed celebration of female artists.

The Body in Contemporary Art Sally O'Reilly 2009 Organized thematically, the book focuses on subjects such as nature and technology, the grotesque, identity politics, and the place of the individual in society. Featuring work by artists such as Matthew Barney, Marlene Dumas, Olafur Eliasson, Oleg Kulik, and Ernesto Neto, it shows how the body continues to be pivotal to the understanding and expression of our place in the universe.

Terra Amata J.M.G. Le Clézio 2008-11-27 For Chancelade, the world is teeming with beauty, wonder and possibilities. From a small boy playing on the beach, through his adolescence and his first love, to the death of his father and on to the end of his own

life, he relishes the most minute details of his physical surroundings - whether a grain of sand, an insect or a blade of grass - as he journeys on a sensory adventure from cradle to grave. Filled with cosmic ruminations, lyrical description and virtuoso games of language and the imagination, *Terra Amata* brilliantly explores humankind's place in the universe, the relationship between us and the Earth we inhabit and, ultimately, how to live.

Interpretations of Legal History Roscoe Pound 1923

The Forest Lover Susan Vreeland 2004-11-30 In her acclaimed novels, Susan Vreeland has given us portraits of painting and life that are as dazzling as their artistic subjects. Now, in *The Forest Lover*, she traces the courageous life and career of Emily Carr, who—more than Georgia O'Keeffe or Frida Kahlo—blazed a path for modern women artists. Overcoming the confines of Victorian culture, Carr became a major force in modern art by capturing an untamed British Columbia and its indigenous peoples just before industrialization changed them forever. From illegal potlatches in tribal communities to artists' studios in pre-World War I Paris, Vreeland tells her story with gusto and suspense, giving us a glorious novel that will appeal to lovers of art, native cultures, and lush historical fiction.
