Vengeance in Medieval Europe Daniel Lord Smail 2009-01-01 How did medieval society deal with private justice, with grudges, and with violent emotions? This ground-breaking reader collects for the first time a number of unpublished or difficult-to-find texts that address violence and emotion in the Middle Ages. The sources collected here illustrate the power and reach of the language of vengeance in medieval European society. They span the early, high, and later middle ages, and capture a range of perspectives including legal sources, learned commentaries, narratives, and documents of practice. Though social elites necessarily figure prominently in all medieval sources, sources concerning relatively low-status individuals and sources pertaining to women are included. The sources range from saints' lives that illustrate the idea of vengeance to later medieval court records concerning vengeful practices. A secondary goal of the collection is to illustrate the prominence of mechanisms for peacemaking in medieval European society. The introduction traces recent scholarly developments in the study of vengeance and discusses the significance of these concepts for medieval political and social history.

Early Medieval Art Lawrence (Professor Nees, Department of Art History University of Delaware) 2002 The first millennium saw a rich and distinctive artistic tradition form in Europe. While books had long been central to the Christian religious tradition, education, and culture, they now became an important artistic medium, sometimes decorated with brilliant colours and precious metals. Lawrence Nees explores issues of artist patronage, craftsmanship, holy men and women, monasteries, secular courts, and the expressive and educational roles of artistic creation. He discusses early Christian art within the late Roman tradition, and the arts of the newly established kingdoms of northern Europe not as opposites, but as different aspects of a larger historical situation. This approach reveals the onset of an exciting new visual relationship between the church and the populace throughout medieval Europe, restoring a previously marginalized subject to a central status in our artistic and cultural heritage.

Knowing History in Schools Arthur Chapman 2021-01-07 The 'knowledge turn' in curriculum studies has drawn attention to the central role that knowledge of the disciplines plays in education, and to the need for new thinking about how we understand knowledge and knowledge-building. *Knowing History in Schools* explores these issues in the context of teaching and learning history through a dialogue between the eminent sociologist of curriculum Michael Young, and leading figures in history education research and practice from a range of traditions and contexts. With a focus on Young's 'powerful knowledge' theorisation of the curriculum, and on his more recent articulations of the 'powers' of knowledge, this dialogue explores the many complexities posed for history education by the challenge of building children's historical knowledge and understanding. The book builds towards a clarification of how we can best conceptualise knowledge-building in history education. Crucially, it aims to help history education students, history teachers, teacher educators and history curriculum designers navigate the challenges that knowledge-building processes pose for learning history in schools.

Doomsday Book Connie Willis 1993-08-01 "A tour de force."—The New York Times Book Review Connie Willis draws upon her understanding of the universalities of human nature to explore the ageless issues of evil, suffering, and the indomitable will of the human spirit. For Kivrin, preparing an on-site study of one of the deadliest eras in humanity's history was as simple as receiving inoculations against the diseases of the fourteenth century and inventing an alibi for a woman traveling alone. For her instructors in the twenty-first century, it meant painstaking calculations and careful monitoring of the rendezvous location where Kivrin would be received. But a crisis strangely linking past and future strands Kivrin in a bygone age as her fellows try desperately to rescue her. In a time of superstition and fear, Kivrin—barely of age herself—finds she has become an unlikely angel

of hope during one of history's darkest hours.
